A western Kansas minister has proposed to the governor of his state that he appoint a commission "to search every harem in the Turkish domain for Armenian females." If we lived in Kansas we would be a candidate for a place on the commission. Our dislike of the life of an office holder would not be permitted to stand in the way of our duty to our country in a case like this.

### How Diphtheria is Contracted.

One often hears the expression, "My child caught a severe cold which developed into diphtheria," when the truth was that the cold had simply left the little one particularly susceptible to the invading diphtheria germ. If your child has a cold when diphtheria is prevalent you should take him out of school and keep him off the street until fully recovered, as there is a hundred times more danger of his taking diphtheria when he has a cold. When Chamberlain's Cough Remedy is given it quickly cures the cold and lessens the danger of diphtheria or any other germ disease being contracted.

### How is Your Complexion?

A woman should grow more beautiful as she grows older and she will with due regard to baths, diet and exercise, and by keeping her liver and bowels in good working order. ### The Spiral Glide.

It is possible for some men to climb into a monoplane or biplane and soar off into the atmosphere and break the world's altitude record, and something else—their necks. The man who invented the aerial "spiral glide" paid that penalty too. It is safer to crawl than to walk. Its better to walk than to soar too high. Its better to put one dollar safely away in the bank than to have a million in your castles in the air, for there is always an uncertain glide from air castles to earth and few can do the trick without accident. Its better to have a bank account than a broken wing, remember that.

John McLeod on last Friday sold his ranch to Otis Moody, but as the place had just been leased to Mark Martin for the season Mr. Moody will not move until this fall. The ranch consists of 170 acres and the improvements are first class. The consideration was \$25,000, a number horses and a lot of farm implement being included in the deal.

Mr. and Mrs. McLeod are old residents of Eagle Valley and it is with regret that we see them leave. They will locate for the present at College Place, Wash., where their son, Harry, is studying for the ministry.

What Johnny Needed.  
"Johnny! Crying on Christmas day!" reproved the visitor.

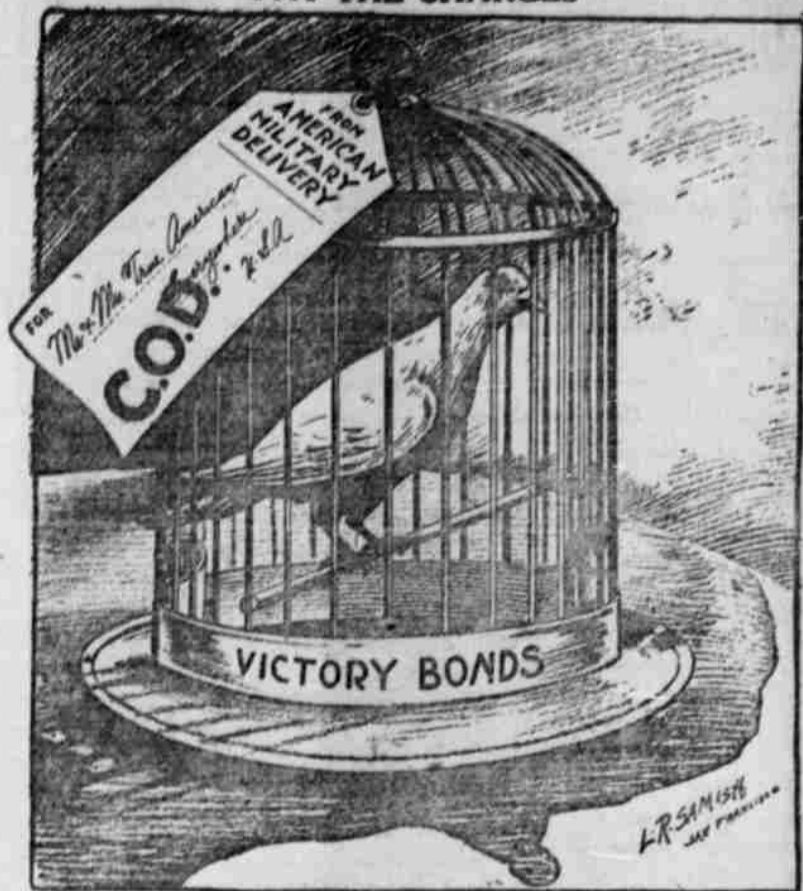

"Well," blubbered Johnny, "we all asked our family this year to give us what we needed most."

"There's nothing to cry about, then, is there?"

"It's a-b-beastly!" roared Johnny. "Pa gave me a licking."—London Answers.

### CHIROPRACTORS Have Great Success With Nervousness

Nervousness manifests itself in many ways. People are weak, emaciated and diseased as a result of it. It may be distributed all over the body or confined to a local area. Headache, sleeplessness, sexual defects, excitability, nervous indigestion, and many other conditions result from nervousness, which is caused by pressure against the nerve trunks by subluxated vertebrae of the spine. Many having suffered with various ailments that would not respond to other methods have regained their health thru Chiropractic Spinal Adjustments.

Women who have suffered from diseased conditions common to their sex have been restored to health by having the spine adjusted, removing the cause of disease. Investigate Chiropractic and learn the cause of your suffering.

The X-ray will convince you that the cause of disease is in the spine. Call and see our collection of X-ray plates. We will be glad to explain them to you and show you the vertebrae that are abnormal and causing disease conditions.

Chamberlain's Cough Remedy.  
The great benefit derived from the use of Chamberlain's Cough Remedy has been gratefully acknowledged by many. Mrs. Benjamin F. Blakeney, Decatur, Ill., writes, "Chamberlain's Cough Remedy is by far the best medicine for colds and coughs we have ever used in our family. I gave it to my children when small for croup and have taken it myself."—ad

### Old Emblem is White Hart.

The white hart is a very old emblem. Diomedes consecrated to Diana a white hart which, after a thousand years, was killed by Agathocles, king of Sicily. Pliny records that Alexander caught a white stag and placed a collar of gold about its neck; then this was done by Julius Caesar, and was handed down from hero to hero, with the usual changes in story to prevent anachronism. There was once a white hart caught in Windsor forest, one elsewhere in England, one in France and one in Germany, the last of which was killed by Charlemagne. Then after three centuries, Richard Coeur de Lion slew it, the whole story being inscribed in stone on the walls of the cathedral of Lubec.

### Plain as Day.

"The words 'I don't know,' are rapidly disappearing from the lexicon of the American boy," remarked a pedagogue at a recent teachers' meeting. "Only the other day I chanced on a pair of urchins gravely regarding a dentist's sign which read facetiously 'I. X. Tractem, Painless Dentist, Nitrous Oxide.'"

"Said one boy, 'What does that sign 'Nitrous Oxide' mean?'"

"Gosh, don't you know nothing?" retorted the unabashed comrade, "it's Latin for 'Open All Night!'"

### As Usual.

"My brother-in-law, Oscar Snort, has come over from Allegash and is going to open a grocery store here," said a citizen of Grudge. "He is tricky and conceited and ill-mannered and unprincipled, and a blowhard and a liar, and thinks he is smarter than other people, when as a matter of fact he is less so. He will make a failure of it inside of six months, and then as long as he sticks around here will blame it all on the knockers."—Kansas City Star.

### Punishment for the Teutons.

Ted—We're asked to feed the Germans.

Ned—I'm perfectly willing, if Hoover hands them out the same kind of portions served in the fashionable resorts.—Life.

### Got Away With It.

"You mustn't smoke a cigar on the front platform," said the motorman.

"This isn't a cigar," responded the smoker.

"Huh?"

"This is a cigarette, which—"

Here he took a couple of hasty puffs.

"Which may be smoked while yet are arguing about it."
