**How Diphtheria is Contracted.**  
One often hears the expression, "My child caught a severe cold which developed into diphtheria," when the truth was that the cold had simply left the little one particularly susceptible to the wandering diphtheria germ. If your child has a cold when diphtheria is prevalent you should take him out of school and keep him off the street until fully recovered, as there is a hundred times more danger of his taking diphtheria when he has a cold. When Chamberlain's Cough Remedy is given it quickly cures the cold and lessens the danger of diphtheria or any other germ disease being contracted.

High desire to thank the public for their liberal patronage at the supper given by them recently, and state they now have sufficient funds to finish paying for their piano. They also say that a number of dishes and plates were uncalled for and owners can obtain same by calling on Mrs. Ashcraft.

**How is Your Complexion?**  
A woman should grow more beautiful as she grows older and she will with due regard to bath, diet and exercise, and by keeping her liver and bowels in good working order. If you are haggard and yellow, your eyes losing their lustre and whites becoming yellowish, your flesh flabby, it may be due to indigestion or to a sluggish liver. Chamberlain's Tablets correct these disorders.—ad
