Everyone should do all he can to provide for his family and in order to do this he must keep his physical system in the best condition possible. If you are constipated, bilious or troubled with indigestion get a package of Chamberlain's Tablets and follow the plain printed directions, and you will soon be feeling alright and able to do a day's work.

### Suggestion for a Camping Trip

Buy a bottle of Chamberlain's Colic and Diarrhoea Remedy before leaving home. As a rule it cannot be obtained when on a hunting, fishing or prospecting trip. Neither can it be obtained while on board the cars or steamships and at such times and places it is most likely to be needed. The safe way is to have it with you.

Much criticism has been expressed by Panhandle citizens lately regarding the manner in which the traction road grader is used. Miles and miles of the worst roads in the county have been gone over with the grader and no work done, when it would have cost but very few dollars more to have let the scraper down and filled some of the ruts.

Good congregations heard Rev. J. C. Jones of Milton, Oregon, at all three services here on last Sunday. The burden of his message was a more intensified spiritual life, a vision of the world in which we shall see Jesus Christ as the Redeemer of all mankind, and a living faith which makes us know that right will win in the end.

Many fruit growers in this section waste their time and perfectly good materials by applying sprays when insects cannot be destroyed or when protection is of no value. All such, as well as growers who aim to spray always and only at critical periods when the crop may be saved, may now order a free copy of the new bulletin, "Orchard Spray Program for 1919," just issued by the O. A. C., Corvallis, H. P. Barss and A. L. Lovett are the authors.

### Work on B-C Post Road in the Panhandle Now Assured.

In answer to the rumors recently circulated in this territory that only that section of the B-C post road between Baker and the Middle Bridge would be built this season, we publish the following letter received last week by County Judge Doby:

"In regard to the inquiry of Baker county people as to the status of projects Nos. 9 and 11, known as the Sag section and Canyon section respectively, on the Baker-Cornucopia highway, will say that both of these projects have been approved by the federal government.

Final plans and estimates have been delayed because of necessary revision of surveys, but plan No. 9, known as the Sag section, is now completed and tracings will be forwarded to the federal highway department on Saturday of this week.

Plan No. 11, known as the Canyon section, has been held pending a revision of survey, and this probably can be completed and final plans submitted by the first day of May.

I discussed this matter with Mr. Purcell today and am informed that these plans will be approved by him within two days after submission, then we can advertise for bids. This means that both projects will likely be under construction by June 1. The State Highway Commission has ordered these projects rushed.

Respectfully yours,  
Signed, HERBERT NUNN,  
State Highway Engineer."

Mr. and Mrs. Dan Jones, Mrs. Evelyn Barber, Barney Eldson, Joe Carnahan, Bill Ewing, Carl Mason and children, G. W. Jones, Leonard Jones, J. A. Kirby, Mr. and Mrs. Chester Mason and family, were among others visiting the county seat Saturday.

Signal Sergeant Story M. Chase of 348th F. A., came in last week for a short visit with his parents after which he will go to Billings, Mont., where a lucrative position awaits him. Story was not in battle but was stationed within a few miles of the firing line for several weeks and his outfit had orders to "go in" and were all packed up when the armistice was signed. He visited some of the battle fields and says the havoc wrought was terrible, the condition of Argonne Woods being indescribable. Story was in Germany for some weeks and got a wonderful collection of war relics which he sent back here and it is interesting indeed to hear the stories connected with them. Sgt. Chase made ye editor a gift of a German bayonet that had seen much service, a fact testified to by numbers stamped on the scabbard showing that it had been issued at least three different times.
