### WHAT IS CHIROPRACTIC (Ki-ro-prak-tik)

It is Not Medicine, Not Surgery,  
Not Osteopathy or Naturopathy

It is a scientific method of adjusting the cause of disease without drugs or instruments, based on a correct knowledge of anatomy, and especially the nervous system. The Chiropractic idea is that the cause of disease is in the person afflicted, and the adjustment in correcting the wrong that is producing it. The function of every organ in the body is controlled by mental impulses from the brain, which it transmits through the nerves. Any impingement of these nerves interfering with the transmission of mental impulses results in an abnormal function called disease. This interference is produced by subluxated vertebrae pressing upon nerves as they pass out from the spinal cord. The trained Adjuster is able to locate the point of obstruction or interference, and by means of adjusting the subluxated vertebrae corrects the cause, and normal conditions, or health, is the result.

The X-ray shows just what vertebrae of the spine are involved. We remove the cause of disease and nature cures.

### Why Sheep Raisers Smile.

The Eagle Valley State Bank received a telegram from Portland yesterday stating that the government wool auction held there was most successful. Three and one-half million pounds were sold, bidding was keen and prices satisfactory. Fine wools brought \$1.50 on clean basis, cross breeds also brought high values. All sold at higher basis than similar wools brought at the last Boston sales, and the general wool situation is very favorable.

### About Rheumatism

People are learning that it is only a waste of time and money to take medicine internally for chronic and muscular rheumatism, and about ninety-nine out of a hundred cases are one or the other of these varieties. All that is really necessary to afford relief is to apply Chamberlain's Liniment freely. Try it. It costs but 35 cents per bottle. Large size 60 cents.

### STOP THIEF!

Are you sneaking through the alleys these days with your American citizenship? Are you the kind of a fellow who brings the cry of "Stop Thief!" from honest citizens?

You are unless you have taken your share of the Victory Loan or honestly intend to do so before May 10. You are stealing your citizenship.

Don't forget that. It's as true as God made little apples. And don't forget that your neighbor and the fellow who works with you in shop or office is judging you.

A prominent Pacific Coast banker, a real American citizen who lost his only son in the war, said the other day:

"To my dying day when a man comes to my office for a loan I'm going to ask him if he subscribed to every Liberty Loan. If he hasn't, he won't be able to borrow one red cent from our house, no matter if he offers one hundred per cent interest."

That's how hard he believes in America.

Don't forget right now you are making or breaking your reputation in this community. We are not going to forget. The fathers and mothers of the boys who were lost or wounded won't let us forget what each and every one of us do in this Victory Loan.

They are going to cry "Stop Thief!"

### Oh, You Kid!

"I can't see why it is," said a young man, "that they always call me 'kid' while John Blank is always referred to as Mr. Blank. He's no older than I am." "The reason is simple," said a friend. "Mr. Blank has a bank account. He therefore associates with business men, and talks, acts and thinks like a business man. His business associates have brought him out of the 'kid' class. You are always known by your associates. You can't associate with business men unless you have a bank account and join the 'Mr.' class."

### OLD RULE IN GERMANY

#### Country Still in the Clutches of Bureaucrats.

Dr. Alonzo E. Taylor Finds Looting  
Common and Immoral Plays  
Thriving.

Paris.—The German government is the same bureaucratic regime of the Kaiser's day, with the same attitude toward labor and capital, and does not represent the forces which caused the revolution," says Dr. Alonzo E. Taylor, food specialist, who has just returned from Germany. He made extensive investigations in behalf of the supreme food relief council.

Count von Bernstorff is in charge of American affairs and the foreign office and the bureaucrats of the old school are in evidence everywhere," he added. "The Germans are becoming Russified. They are afraid to put untried men into the service, and consequently they tolerate the old order of things."

The German army has apparently been disorganized and demobilized for the most part, Doctor Taylor says, but he believes it will be possible for a well-organized bureaucracy to restore militarism if it is deemed desirable.

Many Germans believe they will recover their battleships, and do not expect to give up any territory, and in Doctor Taylor's opinion a grave, political upheaval is probable with the signing of the treaty of peace.

The present bill is regarded as unnatural by Doctor Taylor, who says it was possibly created by the payment of large indemnities to unemployed persons and by suspending action on all questions vital to the future of the nation. Unemployed men in Berlin are paid eight marks a day, while railway workers and street cleaners get six marks daily. Consequently, the men prefer to remain idle.

Plays so immoral that they would have been prohibited under the imperial regime are now tolerated; idleness is prevalent; looting is common and the general public morale is very low, Doctor Taylor remarks. He says the food situation is critical and in spite of the great reduction made in rations, the nation cannot live until next harvest unless supplied by outside powers.
