WHAT IS CHIROPRACTIC (Ki-ro-prak-tik)

It is Not Medicine, Not Surgery,
Not Osteopathy or Naturpathy

It is a scientific method of adjusting the cause of disease without drugs or instruments, based on a correct knowledge of anatomy, and especially the nervous system. The Chiropractic idea is that the cause of disease is in the person afflicted, and the adjustment in correcting the wrong that is producing it. The function of every organ in the body is controlled by mental impulses from the brain, which it transmits through the nerves. Any impingement of these nerves interfering with the transmission of mental impulses results in an abnormal function called disease. This interference is produced by subluxated vertebrae pressing upon nerves as they pass out from the spinal cord. The trained Adjuster is able to locate the point of obstruction or interference, and by means of adjusting the subluxated vertebrae corrects the cause, and normal conditions, or health, is the result.

The X-ray shows just what vertebrae of the spine are involved. We remove the cause of disease and nature cures.

The Doctor Knows.

Come down town with a boil on the back of your neck and every person you meet will tell you just what to do for it. That's advice and it's free. But when you want that boil properly cared for, you get the doctor's advice and pay for that. You seek the doctor's advice because you are sure the doctor knows.

When a business deal is on, every loafer on the corner can tell you just how the deal should be carried out and all about it. Yet if you are a patron of the bank you feel like asking the banker's advice. Again it is the kind you seek that is worth having. We are always glad to help our patrons in any way we can.

Pine Valley Citizens Organize.

A mass meeting was held at Halfway on Friday evening for the purpose of forming an organization to look after road improvement and other matters of import to the residents of Pine Valley. County Judge Daby and Representative Smith were present and spoke on the need of voting for the \$500,000 bond issue and road improvement plans for Baker county. A great deal of interest was shown and the organization perfected with I. N. Sanders as president; Bruce Pancake, vice-president; Chas. Shotton, secretary. The need of a like organization in Eagle Valley is keenly felt and we would like to see our residents take the matter in hand immediately.

About Rheumatism

People are learning that it is only a waste of time and money to take medicine internally for chronic and muscular rheumatism, and about ninety-nine out of a hundred cases are one or the other of these varieties. All that is really necessary to afford relief is to apply Chamberlain's Liniment freely. Try it. It costs but 35 cents per bottle. Large size 60 cents.

Notice to the Public.

For reasons due to domestic complications and separation, during the month of February, 1897, and on leaving the State of California, I assumed the name of J. H. Cook, the name I have been known by ever since. This is to give notice to the public that I have retained my former name, that of Jacob Southwick Colburn, and will hereafter bear that name. Any claims against the name of J. H. Cook or Jacob Southwick Colburn will be paid on presentation.

Dated at Baker, Oregon, April 28, 1919.

ONE YEAR AGO (April 30)

Germans renew powerful attacks against weakened British and Belgian lines in Flanders. In the bitterest day's fighting of the 1918 offensive French lose Scherpenberg hill, north of Ypres. Few American troops thrown into the fighting below Amiens to stem Hun tide. Von Arnim applies crushing tactics to destroy Allied line from Arras to the North Sea. Council of Allies agrees only American troops can save the war, and plans to release all shipping to hasten troop movements from America.

WANTS SCARLET RIDERS BACK

Canada in World-Wide Search for Members of Northwest Mounted Police.

Vancouver, B. C.—The world is to be searched by officers of the royal northwest mounted police to locate former members of the Scarlet Riders and bring them back to the fold.

When the European war broke out the mounted police were not permitted to enlist as a unit. Some of the men "disappeared" and were not heard from until they distinguished themselves on the battlefields. Later a unit of the "mounties" was accepted for service.

Investigation has disclosed that some of the best known Scarlet Riders are in the Holy land, others in Africa, Australia and the Orient. The government wants its Scarlet Riders back, and will do its share to bring them home.

ARMY SWEETS TOO RICH

German Children Ate So Many American Chocolates That They Became Ill.

Paris.—A carload of chocolate billed to the American army of occupation in Germany was wrecked near Trier. Before the American salvage crew got to work German children of families living near by ate quantities of the sweets and started homeward with all they could carry.

Many of the children had never tasted chocolate before, this form of candy being among the luxuries which Germany was virtually unable to supply during the war. The result was that the boys and girls became ill and had to be treated by a physician.

CANNY DOCTOR PUMPS FRIEND AND PROFITS

San Francisco Physician Lets Patients Pay Him in Bonds Rather Than Cash at Par

This reads or tastes or looks like the foam of a press agent's brew. But it isn't. It actually happened although it is propaganda.

There is a physician and surgeon of high professional standing in San Francisco who, if he wasn't Irish, would be Scotch. He is that canny.

The other day he met a friend of his, a stock and bond expert. "Doc," as his friends call him, is always looking for information. He pumps everybody and they like him for it. So the bond man wasn't a bit surprised when "Doc" shot this at him:

"How about the next Liberty Loan—it is going to get over?"

"It sure will," replied the bondman. "It's going to be the last and the best of the Liberty Loans."

"Advise me to load up?" persisted "Doc."

"I sure do—best security in the world—year from now it will be worth half again as much as you pay."

"Well, I figured it out that way myself," confessed the physician. "Of course I was going to buy anyway, but I think I'll strain everything a bit and really load up."

"Suppose you've got previous issues?" asked the bondman.

"Sure, and what's more I'm still piling those Liberty bonds up. Every time a patient offers them in payment I grab them. They look good to me."

"You're a wise guy—hang onto them, Doc. I've got a few myself. Gotta date with the wife—so long."
