### A Fine Play.

The opera house was crowded  
to its capacity Saturday night at  
the rendition of "A Prairie Rose"  
by students of E. V. High and  
the gross receipts were in the  
neighborhood of \$100. The play  
was one of the best ever given  
here by local talent and each one  
in the cast acquitted himself in  
most creditable manner, and were  
it not for limited time and space  
we would make particular men-  
tion of each.

Between gets a duet was ren-  
dered by Clarine Chandler and  
Ethel Davis; a solo was sang by  
Loutacia Tarter, and Leota Ben-  
nehoff read a paper in which was  
predicted the future career of  
her classmates.

But one thing marred the full  
enjoyment of the evening and  
that was the continual confusion  
kept up by a gang of kids in the  
gallery.

### QUESTIONNAIRE

ANSWERS WHICH WILL SOLVE  
PERPLEXING PROBLEMS OF  
THIS RECONSTRUCTION ERA.

Query.—The government has launched  
an educational campaign to encourage  
building in order to put more men to  
work. "What is a similar movement to  
show how the old structures can be best  
and most economically repaired and made  
good as new also help?

Answer.—It is learned that such a  
plan is in effect and is linked directly  
with the Washington program.

Industry must be turned back from  
works of war to the ways of peace.  
Employment must be found in the  
meanwhile, for those whose occupa-  
tion has been interrupted. There is no  
real surplus of labor in the United  
States. Rather there is a shortage,  
which would be acute if normal condi-  
tions were already restored, and one  
step towards restoring them will come  
with resumption of repair work.

Government restrictions, imposed by  
the necessities of the war program,  
have for many months past retarded  
or altogether prevented construction,  
improvement and repairs. These re-  
strictions are now off, and there is  
scarcely a town, a city, a factory, a  
dwelling or a farm that does not reveal  
a crying need for prompt attention.  
Nothing delays such instant action ex-  
cept the feeling that prices are high  
for the time being and may be lower.

That is not logical. No matter what  
it costs to repair, the cost is less than  
the cost of neglect. No matter what  
the cost of paint, the wind and the  
weather will collect a higher bill in  
deterioration and decay.

Query.—What do you think of paint as  
an investment, aside from the appearance  
it lends? Does it really PAY to paint a  
house regularly, say, every three or four  
years?

Answer.—Good paint properly ap-  
plied when needed is the main thing in  
making a house last long and well. A  
house worth \$2,500 can be painted at a  
cost of about \$125. In 60 years that  
house will need about 15 paintings,  
the total cost of which will be \$1,875.  
Left without paint, such a house would  
fall into complete ruin in 30 years. So  
taking 60 years as a basis for our fig-  
ures we find that with paint a home  
will last that time in good condition  
and will cost, plus paint, \$4,375. With-  
out paint the house would have to be  
rebuilt at the end of 30 years and  
would be ready for another complete  
renovation when the sixtieth year ar-  
rived. Cost, without paint, \$5,000 for  
a home ready to fall to pieces. Does  
regular painting pay? As the old  
Dutch adage says:

"PAINT PAYS FOR ITSELF."

Query.—I have a quantity of old paint  
on hand. Can I use it for the first coat in  
repainting my barn?

Answer.—On no account should old  
paint which has become fat be used  
for priming either old or new work.  
Old paint in that condition is best used  
on a fence, brickwork or tinwork. If  
you value your barn sufficiently to  
paint it, do it the justice of a good job.

### U. S. Invents Anti-Rust "Dope."

Incident to the war, the government  
has faced the problem that has so long  
proved baffling to commercial con-  
cerns of protecting iron and steel from  
rust. In an attempt to solve this fed-  
eral specialists have perfected various  
forms of protective coatings. In this  
connection it may be pertinent to ask  
whether commercial uses will not be  
found also for the so-called "dopes"  
which the government has invented to  
be applied to airplane wings and which  
are possessed of valuable weather-re-  
sisting and fireproof qualities.

### EFFECT OF COLOR UPON THE DURABILITY OF PAINT.

Property owners who may have un-  
der consideration the painting of  
dwellings and other structures should  
remember that more durable results  
are obtained when tinted paints are  
used. Permanent coloring materials  
which have been ground by machines  
into a high grade white paint base  
have the effect of preventing "chalk-  
ing" and "checking," two defects  
which are often observed when white  
paints are used.

### Soldier Bemoans Bride Wedded to Him for Glory

East Orange, N. J.—Ole L.  
Robinson, who won his wife, Es-  
ther Crowell, daughter of J. O.  
Crowell, the New York pub-  
lisher, by tales of heroism in  
France, sat disconsolately in jail  
and mourned the absence of his  
helpmate, who allowed the  
charge of robbery against her  
husband to creep in between  
them.

"I thought my wife should at  
least have come around to see  
me," he said. "I expected much  
of her. We were getting along  
nicely until I had trouble with  
her parents. I now realize that  
Esther did not marry me for the  
man but the glory."

Robinson, who is eighteen,  
still insists he was four months  
in service in France and had  
been a messenger attached to  
General Pershing's staff. While  
at the front, he says, he fell  
from his horse when shrapnel  
exploded near by and was in-  
validded home, suffering from  
shell shock.

### Support Health Work.

Washington.—"Public health is pur-  
chutable," says the United States pub-  
lic health service, and adds that a  
first-class health protection service can  
be provided for one dollar per head  
per year. In fact some city health  
departments render excellent service  
at a cost of 75 cents per head. Let's  
all get together and give better sup-  
port to health work in this commu-  
nity.
