

THE NAZARENE CHURCH

We've Got To Go

Upon request, I shall try to give a brief history of the rise and progress of the Pentecostal Church of the Nazarene, for the benefit of some of the readers of the East Valley News who have been unable to attend the service. The Church was founded by W. E. Baird.

Very different to the impression this name may have, she is not a branch or split off from any other denomination. Neither does she have to do with the advent of Christ, nor is it an imitation for any one to live and die. We are not looking for a union with any other Church. However, we do believe as a Church, and we are divided in our opinions. Different kinds of Baptists never come together to worship, nor do they come into the Church. Religions have been, are, and will be, until the time stirs up a new kind of religious organization, which some may wish to call 'Church.'

We will keep contact with the members of all those willing to work. We are striving to become a Church and do not want the Church to exist only on the nominal membership of the Church. We are not going to become a Church but only a group of religious people.

In the interest of all, we hope to do more work in the coming years. We believe it is impossible to make you understand our work very well until we have some sort of a church, in which we can do the work needed. We have been in touch with the people of the East Valley News, and we are always glad to have the opportunity to help them.

I'm not the most learned or the most talented person, but I'm glad to be able to help people. We are not going to become a Church but only a group of religious people. We will not become a Church but only a group of religious people. We will not become a Church but only a group of religious people.
