There is certainly a lot of humming in our school laws. If a man has a certificate to teach in the state of Washington, why the mischief can't he be allowed to teach in Oregon on the same credentials.

Doctor Carr Avery and Mrs. Avery left town Sunday afternoon for Grass Valley, where he will practice medicine. During their stay of a month in Moro they made a host of friends who wish them all success in their new location.

Frank Hayak of Portland was in town Wednesday taking the examination for teacher in this county. He is a young man of experience and ability and the people of Ione are to be congratulated on getting his services in their school.

"Snuffles" is the only perfect catarrh cure ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflammation quickly and permanently and is also wonderfully quick to relieve hay fever or cold in the head.

Catarrh when neglected often leads to consumption—"Snuffles" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure catarrh in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "Snuffles" the Guaranteed Catarrh Cure.

Sent prepaid to any address in the United States or Canada on receipt of One Dollar. Address Dept. H 567, Edwin B. Giles & Co., 2530 and 2532 Market Street, Philadelphia.

Our sympathies are with poor Doug Radley who seems to be getting more than his share of misfortune. Doug has only just recovered from a long spell of illness caused by an accident to one of his legs, and now comes another accident which lays the unfortunate fellow low for several weeks more. This time he had one of his legs broken in a "small smash up" on the C. S. Ry and was taken to the St. Vincent's hospital to have his injuries attended to.

**His Life in Peril.**  
"I just seemed to have gone all to pieces," writes Alfred Bee, of Welfare, Tex., "billiousness and a lame back had made life a burden. I couldn't eat or sleep and felt almost too worn out to work when I began to use Electric Bitters, but they worked wonders. Now I sleep like a top, can eat anything, have gained in strength and enjoy hard work." They give vigorous health and new life to weak, sickly, run down people. Try them. Only 50c at G. N. Bolton's drug store.

Dr. Barrett has one of the most elaborate sets of dental weapons we ever saw, from the tiny snag picker to the powerful jaw breaker, they are all there. A look around his rooms, at the nicely arranged pictures and bric-a-brac is well worth a visit. Don't go to see the pretty things while that tooth with the cavity is reminding you it is still there, or the chances are you will leave the office without it.

If you are billious and seeking advisers. Take DeWitt's Little Early Risers. Just before going to bed. You will find on the morrow. You are rid of your sorrow—That's all; just enough said.

These famous pills do not grip, but move the bowels gently, and easily cleansing the liver. Their tonic effect gives strength to the glands preventing a return of the disorder. G. N. Bolton.

Elijah Kellin, who has been herding sheep for Jim Stewart, was in town from the camp yesterday. Elijah has followed this business for several years and so long as there was a raven or two around never had to complain of being without grub in camp. Tobacco sometimes ran out—the ravens positively refusing to supply the need.

**Out of Death's Jaws.**  
"When death seemed very near from a severe stomach and liver trouble, that I had suffered with for years," writes P. Muse, Durham, N. C., "Dr. King's New Life Pills saved my life and gave perfect health." Best pills on earth and only 25c at G. N. Bolton's drugstore.

The O. T. Co. received a full carload of groceries Wednesday. This is evidence of how they do business in Wasco.

Jake Yaeger was up from The Dalles this week and went on south inspecting wheat in the warehouses of the W. W. M. Co.

Mr. and Mrs. W. M. Barnett were at the Des Chutes a day or two this week on business and incidentally enjoying a hunt on the island by invitation of Mr. Miller.

A little son of Wilmer Cooper was kicked by a horse, one day last week, fracturing his left thigh. He is mending nicely under the care of Dr. Beers.

A party of fourteen persons, comprising three families, camped in Wasco Monday night on their way from the Prineville country to their home near Eugene. They had been sightseeing with an eye out for a new location.

**THERE HAD BEEN A CHANGE**  
Topography Didn't Look Just Familiar, and He Inquired.  
When I got within five miles of where I thought Deep Valley, Ida, ought to be, I met a man and a mule on the trail and asked if I was going in the right direction.

"Can't say you are," replied the stranger.  
"You know the place, don't you?" I asked.  
"I did know it."  
"And you know Bear mountain, close by?"  
"I did know it."  
"Why do you say 'did'?" I queried.  
"You don't mean that Deep Valley or Bear mountain have run away, do you?"  
"Oh, no, no! I just mean that there has been a change over there."  
"What sort of a change?"  
"Well, Bear mountain has slid down and filled up Deep Valley, and if you are going over there to look for Hank Thompson you'll want a shovel and crowbar to dig down to him through a hundred feet of rocks and dirt."  
M. QUAD.

**Doing the Right Thing.**  
"We had founded a new town in the west," said the colonel, "and of course we wanted a newspaper. We were casting about when a stranger came along one day and talked so glibly that the Brown investment company gave him \$500 and started him off for Chicago for his outfit. He did not return, and it was three years later before I saw him again. Then I happened to be in a town in Iowa, and I caught sight of my man at the door of a blacksmith shop. The recognition was mutual. He held out his hand for a shake and said:  
"No harm done, colonel, I hope?"  
"But why didn't you come back with the outfit?" I asked.  
"I acted for the best, I think. I had no sooner got that money than I began to doubt my ability to run a newspaper, while I knew I could make a success of a blacksmith shop, and so I let go of that and took up this?"

**Dangerous Criminals.**  
"Why," said a lady reproachfully to her husband, "you know when I say Denmark I always mean Holland!" Perhaps the city girl in the following story, told by the Philadelphia Telegraph, allowed herself a similar latitude of expression:  
She was sitting on the porch, lazily rocking to and fro and watching the fireflies flitting about through the shrubbery. Suddenly she turned to her companions and said in a musing tone:  
"I wonder if it is true that fireflies do get into the haymows sometimes and set them afire?"  
Everybody laughed at what was apparently a pleasant story, but the young lady looked surprised.  
"Why," said she, "it was only yesterday that I saw in the paper an article about 'Work of Firelings.' It said they had set a barn on fire. Really."

## A QUEER EXPERIENCE.

**Made One a Believer in the Supernatural.**  
"I want to tell you a very queer experience I had," said the colonel. "It borders so much on the supernatural that I throw me somewhat in doubt as to whether I believe in the supernatural. You all know what a fondness I have for driving, and the more spirited the horses are the better I feel to get them on their mettle. Well, a few summers ago I bought a pair of high sprung, strongly built bay horses and began to drive them. One Sunday morning I carefully looked them to my survey. I personally saw that every strap was well hooked, the chains carefully adjusted and, in fact, every precaution taken to have them so harnessed that there could be nothing to fret them."

"I drove up St. Charles avenue to Washington, out Washington to the railroad crossing, back again to St. Charles avenue and then up to Carrollton until opposite the old Carrollton gardens and there stopped to rest under a tree. We had moved at a pretty good pace, the weather was warm, and I believed that a little rest would do the horses good. I forgot to tell you that I had in the rear seat of the surrey my wife and daughters.

"We stopped just under a tree, on the side of the neutral ground, and there waited. Just then a party of about twenty bicyclists came in sight, coming up the avenue. As they passed my horses reared and made one plunge, and the reins in my hand, and the ladies were seated in the surrey. What made me do it I do not know, nor can I account for it, but I let go the reins and the horses ran away—ran away, mind you, from the surrey un hitched. The surrey remained perfectly still for a moment and then by its own momentum slowly slid down to the sidewalk. We all got out without the slightest injury whatever. It was perfectly astounding.

"We made a careful examination of the straps, the hooks, the chains, the pole, and there was nothing broken, nothing strained, nothing bent—in fact, it was just as if some unseen spirits had carefully unhooked the horses and let them go. The horses were brought back in about two hours. We again made a careful examination of the harness, and I assure you the entire outfit was in perfect condition—nothing broken, nothing bent or damaged whatever. Now, how can you account for that? I am not inclined to believe in the supernatural, but at times when I think over this incident I do not know what to believe."—New Orleans Times-Democrat.

**ANIMAL ODDITIES.**  
It is said that the frigate bird can fly an entire week without stopping to rest.

Some of the cats in Liberia are of a bright red tint, and they are very conspicuous in the moonlight.

The cry of a young seal when wounded or about to be attacked resembles that of a child in distress, and tears flow from its eyes.

The common berring is the most difficult of all marine creatures to catch alive for an aquarium. A whale is the most difficult to preserve alive.

Crabs, starfish and wild geese fly fast enough to make the trip from northern Europe to Africa in a week, but most of them rest north of the Mediterranean.

A fox is dainty as well as crafty and prefers the tongues of lambs for food. He has been seen to chase sheep until they, on becoming tired, hung out their tongues, which he then tears off and eats.

A caterpillar cannot see more than a centimeter ahead—that is to say, less than two-fifths of an inch. The hairs on the body are said to be of as much use as its eyes in letting it know what is going on around.

**JAPANESE REGALIA.**  
Royal Emblems Without Which the Emperor Could Not Rule.  
The Japanese royal emblems consist of a copper mirror, symbolic of knowledge; a steel sword, symbolizing courage; and a gemstone, representing mercy. The story of their origin was told thus by a Japanese official:  
The sun goddess became angry with the earth and withdrew into a cave, plunging everything into darkness. The other deities could not induce her to come out, so began to make a noise as of great rejoicing, which aroused the curiosity of the cave goddess. She finally came to the mouth of the cave to learn the cause of the uproar and was told that they had found a more beautiful goddess than herself. The sun goddess came out then, demanding to see her rival, and the crafty deities held the mirror before her, which drove all her sickness away.

The sword was taken by Susenoo, the brother of the sun goddess, from the tail of an eight-headed serpent that had been annually devouring a beautiful girl. Susenoo placed eight great tubs of wine in his way and when he was sleeping, killed him and took the sword as a trophy.

The sword is kept in an apartment near the imperial bedchamber and called the Room of the Sword. The jewels have also a room to themselves, and the mirror is in charge of a priestess. The regalia have the highest significance in the eyes of the people, and it is held that no emperor can possibly rule without the three virtues which they represent. He must, moreover, hold the actual tokens, and in the imperial code it is enjoined that on the death of the sovereign his heir must take possession of them.

**The "Basin" of an Apple.**  
One end of the apple bears the name of "basin" and contains the remnants of the blossom—sometimes called the eye of the fruit. This part of the apple is deep in some varieties and shallow and open in others. This is the weakest point in the whole apple as concerns the question of the keeping quality of the fruit. If the basin is shallow and the core of the fruit is deep, there is much less likelihood of the fruit decaying than when it is deep, and the evident opening connects the center of the fruit with the surface.

We are prepared to take potatoes, wheat, chicken-feed or fruit at the Bulletin office on subscription.

## America's Famous Beauties.

Look with horror on skin eruptions, blotches, sores, pimples. They don't have them, nor will any one who uses Bucklen's Arnica Salve. It glorifies the face. Eczema or salt rheum vanish before it. It cures sore lips, chapped hands, chilblains. Infallible for piles. 25c at G. N. Bolton's drugstore.

**Goes Like Hot Cakes.**  
"The fastest selling article I have in my store," writes druggist C. T. Smith, of Davis Ky., "is Dr. King's New Discovery for Consumption, Coughs and Colds, because it always cures. In my six years of sales it has never failed. I have known it to save sufferers from Throat and Lung diseases, who could get no help from doctors or any other remedy." Mothers rely on it, best physicians prescribe it, and all druggists guarantee satisfaction or refund price. Trial bottles free. Regular sizes 50c and \$1.

**Cured of Piles After 40 Years.**  
Mr. C. Hasey of Geneva, Ohio, had the piles for 40 years. Doctors and dollars could do him no lasting good. DeWitt's Witch Hazel Salve cured him permanently. Invaluable for cuts, burns, bruises, sprains, lacerations, eczema, tetter, salt rheum, and all other skin diseases. Look for the name DeWitt on the package—all others are cheap worthless counterfeits. G. N. Bolton.

Ladies, attention! You should see the nice assortment of turnover collars at the Beehive.

**Natural Anxiety.**  
Mothers regard approaching winter with uneasiness, children take cold so easily. No disease costs more little lives than croup. It's attack is so sudden that the sufferer is often beyond human aid before the doctor arrives. Such cases yield readily to Oaa Minute Cough Cure. It liquefies the mucus, allays inflammation, removes danger. Absolutely safe. Acts immediately. Cures coughs, colds, grip, bronchitis, all throat and lung trouble. F. S. McMahon, Hampton, Ga.: "A bad cold rendered me voiceless just before an oratorical contest. I intended to withdraw but took One Minute cough cure. It restored my voice in time to win the medal." G. N. Bolton.

The Little Giant thresher, sold by Moore Bros. & Gian, Moro, is one of the best machines of the kind on the market. The thresher and gasoline engine to run it can be bought for a tithe of the price paid for the larger outfits. One of these machines threshed 115 sacks of grain in 4 hours on a farm near town last week, from straw kept over from last year. A load of these machines, latest improved and better than ever, are expected in town daily. Come in and figure for the outfit. With one of these you have a dead catch on your crop. No need to wait until your neighbor is through; you can thresh when you please and with the ordinary help on the ranch.

**NOT IN ANY TRUST**  
Many newspapers have lately given currency to reports by irresponsible parties to the effect that

**THE NEW HOME SEWING MACHINE CO**  
had entered a trust or combination; we wish to assure the public that there is no truth in such reports. We have been manufacturing sewing machines for over a quarter of a century, and have established a reputation for ourselves and our machines that is the envy of all others. Our "New Home" machine has never been revealed as a family machine—15 stands at the head of all High Grade sewing machines, and stands on its own merits.

**The "New Home" is the only really HIGH GRADE Sewing Machine on the market.**

It is not necessary for us to enter into a trust to save our credit or pay any debts as we have no debts to pay. We have never entered into competition with manufacturers of low grade cheap machines that are made to sell regardless of any intrinsic merits. Do not be deceived, when you want a sewing machine don't send your money away from home; call on a "New Home" Dealer, he can sell you a better machine for less than you can purchase elsewhere. If there is no dealer near you, write direct to us.
