

A HINT FROM THE KLONDIKE

Joseph Ladue, the famous trapper and miner and the present owner of Dawson City, and for many years the agent of the Alaska Commercial Company, gives a hint to persons going to Alaska, and pays great compliment to a well-known article. He writes: "I have always used the Royal Baking Powder in Alaska and Northwest Territory, as no other gave equal satisfaction in that harsh climate. I also found my customers always insisted on having that brand."

A Fugitive King's Fate.

"About four miles from Philadelphia there was a magnificent mansion built after the Italian manner in the previous century by Governor John Penn, and known as Lansdowne house in honor of the Marquis of Lansdowne. Here Joseph Bonaparte," records William Perrine, writing in the April Ladies' Home Journal of "When the King of Spain lived on the Banks of the Schuylkill," "established himself in rural seclusion until he had built his 'palace' at Bordentown, N. J. Toward the end of the summer of 1817 Joseph had a little dinner party at Lansdowne. Among the guests was Dr. Benjamin Rush's daughter, Julia, who was pleased with what she thought his fluent conversation, his urbane manner and his good looks, and who, perhaps, was somewhat inclined to sympathize with his complaint that Napoleon had not been at all disposed to let him have much of his own way either as soldier or king."

"On one occasion only he gave a magnificent fête on the lawn of his princely estate, and all the beaux and belles of Philadelphia had been invited dressed in their most picturesque summer gowns and made haste to attend. It was a brilliant afternoon fête, and Bonaparte was the center of attraction as he stood on his lawn and welcomed his guests. But it is doubtful whether there were at any time more than half a dozen persons in Philadelphia, or for that matter in the whole country, to whom he bore any such close and confidential relations. He liked little children, and they were sometimes in the habit of speaking of him as 'the good Mr. Bonaparte.'"

A neat attachment recently patented to prevent bicycle lamps from blowing out, consists of a piece of wire gauze bent to form a basket surrounding the flame to shield it from sudden draughts of air.

A LONG LOOK AHEAD.

The politicians are even now beginning to weigh the possibilities involved in the next presidential election. The papers are full of the future which will be the result of the election. It is said to say that a systematic course of Hysteria, which brings renewed health in the malarious, bilious, rheumatic, codive of Hysteria.

Swing Pictures of a Launch. A new view of the cinematograph is reported from Germany, where the instrument was recently used to secure a series of pictures representing all the movements of the hull made during the launching of a vessel. The instrument selected for the occasion is said to be capable of recording 4,000 impressions per minute. German naval officers are said to be taking considerable interest in the experiment.

One of the new kitchen utensils is a cloth holder for washing dishes and woodwork and for dusting, the device having a handle which is attached to a screw which can be turned to adjust the felly to fit the tire.

In the White chapel (London) county court three witnesses in succession in one case could neither read nor write. Three witnesses in the next case were named respectively Speller, Reader and Wright.

How Sound Travels. The whistle of a locomotive can be heard 3,800 yards, the noise of a train 3,600 yards, the report of a musket and the bark of a dog 1,800 yards, the call of a drum 1,600 yards, the croak of a frog 900 yards, a dinner bell two miles and a call to get up in the morning 3 feet 7 inches.

A new method of fastening spokes in wagon wheels consists of setting a screw-threaded bolt in the end of the spoke, with a nut counter-sunk in the felly which can be turned to adjust the felly to fit the tire.

NEUROSE PROSTRATION. "Will you kindly allow me," writes Miss Mary E. Sartz of Johnson, N. J., to Mrs. Pinkham, "the pleasure of expressing my gratitude for the wonderful relief I have experienced by taking your Compound? I suffered for a long time with nervous prostration and general debility, caused by falling of the womb. It seemed as though my back would never straighten up. I could not sleep. I had dull headaches. I was weary all the time, and life was a burden to me. I sought the seashore for relief, but all in vain. On my return I resolved to give you a medicine a trial. I took two bottles and was cured. I can cheerfully state, if more ladies would only give your medicine a fair trial they would bless the day they saw the advertisement, and there would be happier homes. I mean to do all I can for you in the future. I have you alone to thank for my recovery, for which I am very grateful."

Spring Humors

This pimple on your arm, those eruptions, itching and burning bites, such as surely indicate impurities in the blood, which should have prompt and careful attention, as do boils, carbuncles, ulcers, salt rheum and the severest forms of scurf. Hood's Sarsaparilla cures all humors of the blood of every form and degree.

I Am an Old Soldier,

My whole system being out of order and my right side partially paralyzed. I was under a doctor's care most of last winter. I had tried various remedies and realized

only a temporary relief. I have been taking Hood's Sarsaparilla and Hood's Pills, and can truly say I have never known real benefit from them than from anything I have ever taken. I intend to continue taking the medicine as long as I realize

Such Good Results.

I intend also to have Hood's Pills in the house. I cannot speak loud enough in their praise. Along with Hood's Sarsaparilla I recommend them to my friends and for the benefit of suffering humanity at large. My wife has been greatly helped by Hood's Sarsaparilla, being all run down and her system much out of order. My two little boys aged two and four years recovered quickly from the effects of diphtheria by taking Hood's Sarsaparilla, which is a relief of tremendous value and symptoms of the cough. They now appear well and hearty. I shall always praise Hood's Sarsaparilla.—W. F. DEARST, Storkey, Oregon.

That Hood's Sarsaparilla is the best

spring medicine is proved by its constantly manifested power to purify, enrich and vitalize the blood.

Hood's Sarsaparilla

Is America's Greatest Medicine because it cures when all others fail. Sold by all druggists. \$1; six for \$5.

British Postal Reforms.

Numerous reductions of charges and extensions were made by the British Post Office during 1897. Postage on domestic letters was made one penny for four ounces, with an additional half-penny for every two ounces. Thus in Great Britain it costs only 3 cents to send a letter weighing six ounces, while in the United States it would cost twelve cents. Merchants are allowed to enclose bills with goods sent by parcel post. Most important was the completion of the transfer of the trunk telegraph system of the United Kingdom to the postoffice department. During the year the deposits in the postal savings banks increased about \$35,000,000.

Archaeologists have found the tomb

of Osiris, who has been dead 10,000 years. By digging a few feet deeper they hope to find the remains of the late David Bennett Hill, who has been departed 800,000 years.

St. Patrick's day is the anniversary

of Lord Howe's evacuation of Boston. His troops embarked for Halifax on March 17, 1776. So all Americans may feel interested in the holiday observance of the rearing anniversary.

A Lady

tried Skillin's Best tea and did not like it. She tried it again and made it according to directions. It's her only tea now.
