We read in the Antelope Herald that C. C. Kuey was fairly successful up there with the petition for a change in The Dalles-Prineville stage route, proposing to have the mail leave Moro instead of The Dalles, and also says many citizens could see no special advantage to be derived by anyone except the good people of Moro. This would no doubt be sound reasoning if the good people of Prineville, and those along the route, were so far behind the times as not to want to get their mail some four hours earlier than they do under the present system. It is always a rule in a thriving town, with a bustling community, to make every effort to have their mails delivered as early as possible, and from what we know of the citizens of Prineville they are no exception to this rule.
