## EX-Governor Waite of Colorado

has succeeded from Bryanism and  
gone to work for his living.

Sir Wilfred Laurier has a fine  
opportunity to work off some of  
the surplus belligerence of Canada  
via the Transvaal.

Would Dewey stand on the Chi-  
cago platform? Certainly not.  
The chances are he would be much  
more likely to sit down on it.

Colorado is enjoying such pros-  
perity that the people of that state  
are beginning to look upon the late  
silver craze as somewhat of a joke.

State Senator Mitchell, of Wasco  
county, who was active in the pas-  
sage of the scalp bounty bill, has  
got a coyote by the tail.

The country is too prosperous  
for such an undertaking, so Carl  
Brown has abandoned the idea of  
taking an army of tramps to  
Washington.

A Philippine newspaper makes  
the statement that independence  
will be given the islands in Decem-  
ber, when Bryan is to be elected  
President of the United States.

Agents seeking cavalry horses  
are in Eastern Oregon. They re-  
port much difficulty in getting  
horses of the proper qualifications,  
the price authorized between \$30  
and \$60 not being sufficient in  
most cases.

The dispatch which says Presi-  
dent Kruger is on the point of sur-  
rendering, must have emanated from  
the fertile brain of a newspaper  
correspondent. Evidently the grand  
old Boer is not going to turn tail  
just yet.

President McKinley's policy  
with respect to the Philippines is  
to crush out the fractional insur-  
rection, establish the authority of  
the United States, and leave the  
future to congress. And that is the  
country's policy as well.

The people would be in clover if  
they could get money of the govern-  
ment as cheaply as the national  
banks do. One per cent. on \$1000  
is \$10. A fellow could build an  
\$800 house on a \$200 lot, and it  
would cost him only \$10 a year,  
and say \$10 more for taxes, \$5 for  
insurance; total, \$25. Better than  
\$10 a month or a \$120 a year rent.  
Wonder if there would be many  
idle carpenters if the government  
would treat the common herd as  
well as it does the national banks?  
—World.

We intend to put down that re-  
bellion just as we would put down  
any rebellion anywhere against the  
sovereignty of the United States.—  
President McKinley.

The Cuban census is now being  
taken, and work will be started on  
the census of Porto Rico in a few  
days. This is the first step towards  
civil government on both islands.

Dr. Bryan, who prescribed free  
trade for the country in 1892, and  
free silver in 1896, continues to  
write prescriptions despite the fact  
that the country declines to take  
his nostrums.

It is with cold steel and leaden  
bullets, not with gold and silver,  
the United States buys peace.  
Therefore the offer of the Filipino  
leader to sell his countrymen for  
\$500,000 has been rejected.

The 12-inch guns for coast de-  
fense, many of which have been  
recently put in place, cost \$141,000  
each, and every full charge fired by  
one of them costs \$561; but the  
country needs them in its busi-  
ness.

Secretary of War Root has come  
to the wise decision of appointing  
officers for volunteer regiments  
from the ranks of the regular army,  
choosing men who have distin-  
guished themselves, and whose con-  
duct merits promotion. It is to be  
hoped that the action may be the  
thin end of the wedge which will  
separate the military service of the  
United States from politics, and by  
the means of placing the appoint-  
ment of officers beyond the power  
of those politicians who are ever-  
lastingly using their pull for the  
benefit of themselves and their in-  
competent friends.

Ten Boers told off to fire at each  
English officer is a feature of Boer  
tactics in the recent battles at Dun-  
dee and Eland's Laagto; and that  
they have attended to their orders  
is plainly demonstrated by the fact  
that the Dublin Fusiliers, Royal  
Rifles and Gordon Highlanders are  
practically without officers. While  
such tactics are perfectly legiti-  
mate in warfare, still there is some-  
thing revolting in securing the al-  
most certain death of a few men in  
each regiment. Besides the prac-  
tice, often tried, has never been  
known to materially assist in  
gaining a victory, as there is al-  
ways a brave man to take the place  
of his fallen comrade.

## PROSPERITY FOR IRELAND.

While Sir Thomas Lipton was  
waiting for a breeze during the re-  
cent successive days of calm he ex-  
pressed his views of Ireland, and  
among other things said that emi-  
gration from that country had  
fallen off greatly during the past  
few years, says the Spokesman-  
Review.

According to Sir Thomas, the  
changes through which the Irish  
feels less inclined to leave the En-  
gland Isle are brought about by  
three causes. They are the favor-  
able working of the land acts; the  
establishment of co-operative cream-  
eries in all parts of the country;  
the establishment of better local  
government.

The government under the later  
land acts has been purchasing land  
for the last ten years which is  
rented directly to the farmer at a  
reduction of from 35 to 50 per cent  
below former rates. The rents are  
fixed by commissioners appointed  
for that purpose, who adjust them  
according to local conditions and  
under terms that enable the tenant  
within a certain number of years  
to become absolute owner of the  
land.

Such a policy has begun to make  
the people more contented. It is  
resulting in doing away with some  
of the evils of absentee landlordism,  
and with an opportunity to own  
the soil and build up a permanent  
home the Irishman is filled with  
more hope than for many years  
heretofore.

The establishment of co-operative  
creameries, however, has been one  
of the strongest influences in check-  
ing emigration. The manufacture  
of butter has advanced to a mar-  
velous degree of perfection, and is likely  
to become the great industry of the  
people. The value of the annual  
product has increased to such an  
extent that the revenue from this  
industry for last year was \$3,000,000  
greater than for the previous year.

With a release from the pinching  
poverty from which the Irish have  
suffered for so many years, with  
prosperity in pastoral industries,  
with improvement in municipal  
government whereby the people  
may enjoy a larger share of the  
responsibilities, with a reduction in  
rents and an opportunity to acquire  
and hold a home, it may be that  
the Irish question will settle itself  
naturally without political conflicts,  
and that the people may again en-  
joy that prosperity and content-  
ment which was theirs before the  
years of oppression.

Latest dispatches from the Trans-  
vaal go to show that rejoicing over  
the British victories at Dundee and  
Eland's Laagto was a little previ-  
ous, and that the British dispatches  
have been highly colored, giving the  
English credit for a much more  
decisive victory than they deserve.

These two battles, although in  
favor of the British have not  
checked the Boer advance in Natal.  
General Yule has been forced to  
abandon Dundee and Glencoe, and  
has fallen back on Ladysmith,  
where he has made a junction with  
General Whites forces. The Boers  
must have been asleep during the  
retreat of the British, and missed a  
chance to strike a deadly blow,  
while the column struggled through  
the narrow defiles between Glencoe  
and Ladysmith. The order to re-  
treat was the last act of General  
Symons, the English officer, second  
in command in Natal, who died of  
his wounds immediately after.

"I want an engagement ring for a  
young lady."  
"Yes, sir. About what size?"  
"I don't know exactly; but she  
can twist her round her little finger,  
if that's any guide."

## For Nearly Two Years Unable to Lay in Bed

"In my capacity as druggist, in Buffalo, N. Y., I have the best opportunity  
to judge of the merits of many different remedies. I am in close touch with the  
are getting along. Or did the best  
dred of preparations which I sell,  
not a single one begins to give as  
much satisfaction as Acker's Eng-  
lish Remedy for Coughs, Colic,  
Bronchitis, Asthma, Pleurisy and  
Consumption. I sell it on a dis-  
tinct guarantee that it will cure,  
or the purchaser's money will be  
returned. This is a perfectly safe  
guarantee, because the remedy  
does cure. Nobody wants his  
money returned. Its cures are  
nothing short of marvelous. Take  
the case of Mr. A. H. Gilbert, for  
instance. He lives at No. 3 Garay  
street, Buffalo, N. Y. For more  
than three years he had a bad  
case of asthma, and had been un-  
able to lie down in bed for nearly  
two years. He came to my store  
and asked me what to do. I said:  
"Take Acker's English Remedy."  
He said he had tried other reme-  
dies and didn't think this would  
help him. But he thinks differ-  
ently now. Three bottles fixed his asthma all right. He could sleep and eat  
after taking them, as well as when a boy. He was cured several months ago,  
and is well yet, so I am certain his trouble is gone for good. You can write to  
Mr. Gilbert himself, if you doubt my word. He will go further than me in praising  
Acker's English Remedy." (Signed) S. R. THOMAS, Druggist, Buffalo, N. Y.

Sold at 50c. per bottle throughout the United States and Canada;  
and in England, at 1s. 2d., 2s. 3d., 4s. 6d. If you are not satisfied after buying,  
return the bottle to your druggist, and get your money back.  
We warrant the above guarantee. W. H. HOOVER & CO., Proprietors, New York.
