The Mother's Day services were well attended both morning and evening. Everyone enjoyed singing the old hymns. The solo by Mrs. L. J. Cope, "Dreaming of Home and Mother," was a very happy choice for the occasion. Mrs. Cope's voice was sweet, strong and clear, and her interpretation was beautiful. Many hearts were softened as thoughts of the old home and mother were brought back vividly to their minds.

The church with a cordial welcome.

Various Kinds
I was looking for a copy of "Tales from Shakespeare," by Charles and Mary Lamb. As I was in a hurry I cut the title down, and asked the girl at the book counter of one of our department stores whether she had "Lamb's Tales." Imagine my amazement when she directed me to a very superior tone: "Lamb's tails" Fur department—fifth floor,—Forbes Magazine.

"Genius"
One authority defines the word "genius" as meaning the highest conceivable form of original ability, something altogether extraordinary and beyond even supreme educational process, and differing in kind, apparently, from talent, which is usually distinguished as marked intellectual capacity, short only of the inexplicable and unique endowment to which the term "genius" is confined.

EDITORIAL.
A minister was in the habit of riding to church in his car. He received an anonymous letter from one of his congregation scolding him for riding in an automobile saying that Jesus Christ never rode to church in an automobile. The minister read the letter to the congregation with the comment: "If the writer of this letter will come to church properly bridled and saddled, I'll ride just like Christ rode."
