The trip to Boston and return
is nearing its close. The Ford
truck is still in the lead. Every-
one has had a good time. The
contest has been helpful in many
ways. The Bible class is some
distance behind the Intermediate
class, but by an extra effort
might win. The Church school
has been a most congenial
and happy place. Mrs. O. A.
Ramsey with her able corps of
helpers is conducting a very
helpful and interesting school.
There are classes suitable for all
ages. Everyone not connected
with other schools is invited to
attend and enjoy the hour in the
study of God's word.
The theme for the Sunday
evening sermon is: "The Com-
forting God."

seek a high school and college

EDITORIAL

We are reminded of the young poet
who sent his most treasured poem to
a magazine editor. "Let me know if
you can use this," he wrote, "as I
have other irons in the fire." In a
few days the hardboiled editor
answered: "Remove the irons and
insert poem."

Remove, replace and add a few
boards to your home, cover it with
a coat of paint and have a modern
home. The other way of saying it
is REMODEL.

A colored boy was strolling thru a
cemetery reading the inscriptions on
the tombstones. He came to one
which read, "Not dead but sleeping."
Scratching his head, the negro re-
marked, "He sure ain't foolin' no-
body but himself."

Screen the windows, the porches,

when she laid this square egg, Zeig?
Zeigler: Ouch, I expect.

The
KILLOWATT KIDDIES
Are
GLAD IRONERS

THE "sad iron" of years past has
given way to the GLAD one with
self-contained Electric Heat provid-
ed by the Kilowatt Kiddies.
Clothes almost iron themselves un-
der the smooth, even heat of Charlie
and Clara's Electric Iron. So auto-
matic is their service that the most
modern irons have automatic devices
for shutting off the current when
a set temperature is reached. Oth-
ers adjust their temperatures to
particular fabrics, at a finger touch.
THE KILLOWATT Ironers smooth
'way the wrinkles in a deft manner
that makes this age-old job a joy;
their ironing pleases the most ex-
acting home-maker, for the more
exacting she is, the better they
work.

The Kilowatt Kiddies are on duty
ironing day — and every day — to
spring into service the instance you
snap the switch that summons
them.
