Treasury Issues \$800,000,000 Long Term Bonds Because of Big Deficit—Teague Retires From Federal Farm Board.

By EDWARD W. PICKARD

Andrew Mellon

THOUGH the United States is popularly supposed to be the richest nation on earth, the government is "up against it" in a billion dollar deficit, with the prospect of another billion deficit during the next fiscal year. The treasury, therefore, is about to issue long term bonds for \$800,000,000, bearing 3 1/2 per cent interest. This is in lieu of an increase in taxes, which probably will not be asked until after next year's Presidential election. It is obvious that there will be further bond issues, as well as borrowings on short term certificates of indebtedness. The public debt, which had been steadily reduced since 1923, now begins to climb upward again.

This bond issue announced by Secretary of the Treasury Andrew Mellon is the largest peace time offering of long term government obligations in the country's history with the exception of the \$1,000,000,000 bond issue of 1924, which was put out to retire World War indebtedness. The interest rate of 3 1/2 per cent on this issue is the lowest of any long term government financing since 1917-19. That the \$800,000,000 issue will be oversubscribed to the extent of hundreds of millions of dollars even at 3 1/2 per cent interest is not doubted, partly because of the prevailing cheapness of money and partly because of the fact that while the treasury may have a deficit the credit of the government is A-1.

The bonds will be dated and will bear interest from June 15, 1931, and will mature on June 15, 1946, being redeemable at the option of the treasury on and after June 15, 1940. They will be issued in both bearer and registered form in denominations of \$50, \$100, \$500, \$1,000, \$5,000, \$10,000 and \$100,000. In addition there will be registered bonds in the \$50,000 denomination. The federal reserve banks will be the official agencies for the flotation of the issue, but all banks will receive subscriptions from investors.

The bonds will be exempt from federal, state, and local taxes, except inheritance taxes and surtaxes.

GERMANY'S huge flying boat, DO-X, after long delays and various accidents, finally crossed the Atlantic ocean successfully. It made the flight from Cape Verde Islands to Fernando Noronha off the coast of Brazil in 12 hours and 15 minutes. Defying superstition, 13 persons were aboard the DO-X.

It was announced by the State Department in Washington that Colonel and Mrs. Lindbergh will start before long on a pleasure cruise of the Orient in their Lockheed plane, flying to Japan and China via the North Pacific and Russia. They probably will follow the route taken by the army flyers in 1924, going to Siberia by way of the Aleutian Islands.

GOVERNORS of about half the states took part in the annual conferences at French Lick, Ind., and several of them disrupted the program of harmless topics by injecting their own vigorous opinions into their addresses. Pinchot of Pennsylvania, for instance, insisted on making a hot attack on the public utility corporations instead of talking about timber; and in the closing session Ritchie of Maryland, criticizing the conference for trying to avoid controversial subjects, urged the return of liquor control to the states as a solution of taxation problems.

C. C. TEAGUE, one of the original members of the federal farm board and its vice chairman, has resigned, having served one more year than he at first intended. In his letter to President Hoover tendering his resignation Mr. Teague declared the board had fully justified itself and its cost to the taxpayers. He said that without its advice and revolving fund many farmers' co-operatives would have gone under; and he warmly defended the emergency operations of the board in stabilizing wheat and cotton.

"There are two distinct methods of stabilizing markets," he pointed out. "Probably the one that has been emphasized most in publicity has been the stabilization operations on wheat and cotton, which were entirely emergency operations undertaken to meet emergency conditions and which I believe are entirely justified and which will have resulted in benefits to agriculture and business generally far outweighing any cost to the treasury."

"However, in my judgment the greatest benefit will come through another type of stabilization of markets which will come through the long time project of developing a system of cooperative control of agricultural products, which will effect a better control of production and a better control of distribution and thus have an important influence in the stabilization of markets."

REPORTING on the general agricultural situation, the bureau of agriculture economics of the Department of Agriculture shows that American farmers are selling their produce at less than prewar prices, but are saving about one-third more than be-

fore the war for the things they buy. The bureau estimates that farmers now receive 86 per cent of prewar prices and pay 136 per cent for goods bought.

In other respects the outlook is not bad. "Farm crops," says the report, "are recovering from the effects of the continued cool weather. Winter wheat prospects have been improved. Fruit prospects are generally reported fair to good. Live stock growers appear to be keeping up herds and flocks despite somewhat adverse conditions in feed prospects in several sections."

VIRGIN ISLANDS now have only one governor, and that is Dr. Paul Pearson; for Herbert D. Brown, chief of the federal bureau of efficiency, has had a spat with the doctor and retired from the co-governorship which he has exercised for nearly two years. In 1929 congressional committees asked Mr. Brown to investigate the islands with a view to reducing administration costs. He made three long visits there and his recommendations were displeasing to Capt. Waldo Evans, then naval governor. Also, he obtained \$141,000 to be expended under his sole direction. Last winter he recommended transfer of the islands to the interior department and when this was done he returned to help the new governor, Doctor Pearson, whom he had selected for the job.

FOUR eastern and western air lines, whose planes fly about 12,000,000 miles annually, have consolidated their management, operation, traffic and sales and now become divisions of the United Air Lines, with general offices in Chicago. The lines involved in this big merger are: The National Air Transport, operating from New York to Chicago and Chicago to Dallas; the Boeing Air Transport, operating from Chicago to San Francisco; the Pacific Air Transport, operating from Seattle to San Diego, and the Varney Air Lines, operating from Salt Lake City to Seattle and the Pacific Northwest.

P. G. Johnson, president of the Boeing companies, who was recently made president of the National Air Transport and the Varney Air Lines, is to be president of the new company.

TENNESSEE'S political-financial troubles were approaching a climax during the week with the state legislature preparing to vote on the question of impeaching the governor, Henry H. Horton. The situation in Nashville was tense. Though the foes of the executive were apparently in the majority, Horton seemed undaunted.

Most of the eight articles of impeachment reported to the legislature by a committee relate to a main charge of conspiracy, alleging plots between the governor and Col. Luke Lea and Rogers Caldwell, two bankers who are now under indictment as a result of the bank failures of last November. Congressman Ed Crump, the Memphis political boss, was conducting the fight against the governor, though he kept himself in the background. The resignation of Senator Scott Fitzhugh, one of the Crump faction, from the speakership, and the election of Senator A. B. Broadbent of Clarksville to fill his place took much of the thunder away from the defense, for Senator Broadbent is an independent, an anti-Crump man, and he will be the next governor if Mr. Horton is forced out.

CANADIAN tax payers are hard hit by the first budget presented to parliament by Premier R. B. Bennett. He announced a deficit of \$50,000,000 and said new taxes would be required to meet it. Consequently he proposed imports as follows: Increase in the sales tax from 1 per cent to 4 per cent; reintroduction of 3-cent postage; increase of the income tax on corporations and stock companies from 8 to 10 per cent and a new special excess tax of 1 per cent on all imports.

Manufacturers of the United States came off more easily than had been expected. Only about 200 items in the tariff against them were altered by the premier. Customs duties were raised on anthracite coal, furniture, oranges and the higher priced automobiles. There was bad news, however, for Americans who have investments in Canadian companies, for Mr. Bennett ordained that beginning next July an income tax of 2 per cent must be paid by all foreign investors receiving dividends from Canadian concerns.

The only bright spot in Canada's financial picture, Mr. Bennett stated, was the fact that the dominion's conversion loan of \$250,000,000 had been subscribed up to \$699,816,500. He emphasized that during his regime no fewer than 75 American manufacturers had established plants in Canada and made it clear he was sticking close to his "Canada First" attitude. His conclusion brought a great ovation from his followers.

LAST June Congressman Tinkham of Massachusetts issued a statement about the political activities of Bishop James Cannon, Jr., which the bishop dared him to repeat without benefit of his official immunity. Tinkham accepted the dare, and now the bishop has sued the congressman for \$500,000 for alleged libel.

GERMANY is expecting great benefits to result from the remarkable meeting at Chequers, Eng., of Chancellor Heinrich Brüning and Foreign Minister Julius Curtius with Prime Minister Ramsay MacDonald and Foreign Minister Arthur Henderson. The German statesmen went there Thursday on invitation from the Englishmen, and the four men discussed thoroughly the bearing of reparations on the world economic crisis. It was the hope of the Germans that this conference would find a way out of the present financial wilderness.

The Chequers meeting aroused the French and led them to reaffirm their contention that German reparations were inseparably connected by the Young plan. As it is put by A. L. Jeune in Le Midi of Paris: "Or the battlefield of international debts, where we hold the front line so long until the Young plan brought us back to the reserve trenches, it would be a great imprudence to give them up."

The general assembly of the Presbyterian church, in session at Pittsburgh, rebuked the Federal Council of Churches of Christ in America for report of its committee approving of birth control, and adopted a motion instructing the council to "hold its peace on all questions relating to morality and delicacy" until they have been discussed with its constituents.

NOT worth further consideration is a nutshell the verdict of Governor Roosevelt of New York state in dismissing the charges against Mayor Jimmy Walker of New York city. And thus Tammany Hall wins a point in its struggle with the citizens of the city who are warring on what they believe to be graft and corruption.

The charges, it will be remembered, were filed by Dr. John Haynes Holmes and Rabbi Stephen S. Wise on behalf of the city affairs committee, and alleged malfeasance and misfeasance on the part of the mayor, whose removal was asked. Walker's reply was hot and vituperative, branding his accusers as "Socialists," though in later public statements he asserted the Communists were to blame for the fight on him. The governor in dismissing the charges said he did not find in the documents submitted sufficient justification to remove the mayor or to proceed further in the matter. There was no evidence, he added, that showed Walker had failed to act on information given to him or that he had failed to keep himself advised as to the activities of the subordinates beneath him.

The city affairs committee promptly announced that the fight on Mayor Walker and on civic corruption would not be abandoned.

CHAIRMAN ARTHUR WOODS of the President's commission for unemployment announced his retirement from active work with the organization because he is going to Europe to study employment conditions there. He also said that a perceptible improvement in general economic conditions has been registered in recent weeks.

IN A decision that seems to give assurance that the press of America is and shall continue to be free, the Supreme court of the United States held unconstitutional the Minnesota statute authorizing the suppression of newspapers and other periodicals publishing matter which the authorities deem to be defamatory of public officials or other persons or institutions. In the opinion of five members of the court—Chief Justice Hughes and Associate Justices Holmes, Brandeis, Stone and Roberts—the Minnesota law, in so far as it authorizes such suppression, is "an infringement of the liberty of the press guaranteed by the Fourteenth amendment."

Associate Justice Pierce Butler, himself a Minnesotan, read a dissenting opinion, in which he, and Justices Van Devanter, McInnes, and Sutherland, asserting that the majority opinion gives to freedom of the press a broader interpretation than any that had ever before been recognized.

RELATIONS between Premier Mussolini and the Vatican were strained almost to the breaking point and outwardly it appeared there could be no peaceful settlement of the quarrel. But efforts at conciliation were being carried on quietly by Foreign Minister Dino Grandi on the one hand and Cardinal Gasparri on the other. The trouble centers in the Catholic Action clubs, Mussolini decried the disbanding of the clubs and playgrounds. The pope protested against this, both as head of the Vatican City and as head of the church. He made effective his disapproval by withdrawing his personal representative from the Padua celebrations, canceling the diocesan characteristic congress in Rome, prohibiting church processions and placing the Catholic Action societies under charge of a statement saying there was nothing temporary about his acts and that the clubs were permanently closed.

Wednesday the directory of the Fascist party ordered the leaders of all groups to be ready to defend Fascism against its foes "under whatever banner," and charged that some sections of the Catholic Action society had been "openly and surreptitiously hostile to Fascism."
