school is vital to the life of the  
church and to religion. The  
Sunday school is the recruiting  
office of the church and Christ-  
ianity. The boy and the girl,  
the man and woman, can find no  
better place for the culture of  
the highest qualities of mind  
and soul than the Sunday school.  
It is there that the great funda-  
mental truths of human experi-  
ence are studied. The Sunday  
school is not only an agency for  
promoting Christian belief and  
practice, but it is also one of the  
most effective agency for the  
perfecting of good citizenship."

A stranger passing some mines  
in Pennsylvania, asked a little  
boy why the field was so full of  
mules. "These mules are work-  
ed in the mines during the week,  
replied the boy, "and are  
brought up into the light on Sun-

blind." The application is ap-

**OREGON STATE NEWS**  
**OF GENERAL INTEREST**

From the lower Columbia distict,  
long the purveyor of salmon for all  
the world, will soon come chicken,  
packed in four forms and in conven-  
ient-sized containers, which it is hoped  
will command as wide a market as the  
famed chinook. The Evensen Can-  
ning company, a Clatsop county con-  
cern formerly specializing in the pack-  
ing of fruit, is making the experiment  
with chicken canning.

Locally packed tomato juice is prov-  
ing a popular product in Linn county  
this winter following a venture by an  
Oakville market gardener last fall in  
salvaging what otherwise would have  
been many waste tomatoes. Growing  
popularity and high food value of to-  
mato juice led Storer Bros. to try  
canning it in a limited way. Farmers  
around there see in the plan a pos-

able additional outlet for surplus to-  
matoes.  
No longer is there a ferry in opera-  
tion across Rogue river between Gold  
Beach and Wedderburn, on the Ore-  
gon Coast highway. The ferry Rogue  
is disabled and tied to her moorings  
and limited one-way traffic is passing  
over the new \$600,000 bridge span-  
ning the stream. When the ferry be-  
cause disabled arrangements were  
made with the bridge and approach  
constructors for the limited traffic over  
the structure.

A summary of agricultural and busi-  
ness progress in the Monmouth com-  
munity for 1921 indicates an increase  
rather than a deflation, generally, in  
production and investment. F. E. Mur-  
dock, manager of the Monmouth Co-  
operative Creamery & Warehouse as-  
sociation, says that in the first 11  
months of 1921 the total output of

butter has been equal to the entire 12  
months' output of the heaviest record  
of any former year.

Baker Herd Improvement associa-  
tion took the lead for November with  
the highest average butterfat produc-  
tion among the 16 cow testing associa-  
tions in the state, the monthly report  
of R. W. Morse, extension dairyman,  
shows. The 337 cows in the Baker  
herds averaged 26.63 pounds each, in-  
cluding the dry cows. Central Oregon  
was second with 25.3 and Yamhill-  
Washington third with 25.74. For the  
last two months the Hood River-Was-  
co association led.

Justices of the peace in Oregon  
must submit a monthly report of fees  
collected. W. H. Sullivan, Justice at  
Marcola, submitted his. It read: "The  
motto of the justice court at Marcola  
is peace on earth, good will to men-  
and no business."

Unless winter breaks early, a stock  
feed shortage is in prospect at Lostine.  
Farmers have had to feed for the last  
two months. Water is short, and  
many are hauling supplies from river  
and ditches. Grass on the ranges is  
covered with snow.

**Fur Enhances Charm of  
Latest Coats and Suits**

Fur is on the way up. For almost  
every new suit and coat at hand has  
a top of fur, with the bulky effect so  
handled that it is ever so smart. That  
is, the bodice part does seem bulky  
when contrasted with the plain, wrap-  
round line of the skirt.

The fur capelets are ever so good  
looking and the woman who thinks  
that her type is of the quiet, Old-  
world variety, has by now, no doubt,  
invested in a coat that features a fa-  
vorable fur cape or cape effect. It  
should enhance not only the charm of  
the quaint type, but will become the  
piquant type that we admire so today.

**Unfair to You**

**EQUALITY** of taxation was one of the fundamental prin-  
ciples of the American government. The levying of special  
taxes is a serious departure from that principle.

Special taxes paid by fire insurance companies amount to  
more than 5 per cent of the premiums paid by policyholders.

Less than a million dollars of the 30 million dollars in  
special taxes is used by the states for the supervision of fire  
insurance.
