FRIDAY, MARCH 4, 1932.

BIGGER AND BETTER.

In announcing the consolidation of the Wasco News-Enterprise with the Sherman County Journal we wish to state that this move has been taken because it is felt that the needs of the county can better be served by one paper with the prestige that naturally falls to a county wide publication than by two papers with a more or less sectional interest.

As we have stated repeatedly before the interests of the people of Sherman county are identical in that they are all farmers or dependent on farming for a livelihood. The same crop, the same roads, the same problems interest us all.

In taking over the responsible job of gathering and publishing the news of the county we would like to be able to say, as many a publisher has said before us, that we will gather the news fully, edit it impartially and comment upon it with justice and lucidity but promises are easy to make and sometimes hard to fulfill. However, we will endeavor to do these things.

It is our ambition to do what is possible for a newspaper to do for the welfare of this county. We would like to see people so county conscious that they would be Sherman countians first and townsmen second as they are now Americans first and Oregonians second. When we develop sufficient pride in our county it might be said of us, as it is another Old Yamhill "Sherman against the world."

CONGRATULATIONS.

Sherman county is to be congratulated on having neighbors so altruistic as those of Wasco county. It is indeed refreshing in these days of greed and avarice of sectional rivalries of hard business competition, to find an entire county so bursting with the milk of human kindness as the following from an editorial in the Chronicle would indicate: "No one community is of sufficient importance to bar the path of progress."

"The Dalles realized this when it made no attempt to fight construction of the apinitia cut-off, which diverts a large amount of traffic from this city via the M. & H. loop road. In fact the county even went so far as to cooperate financially with the state in construction of the apinitia cut-off, even though we realized it would cost us considerable potential trade."

How we do admire the physical ability of the able to do so. When we do a job of patting himself on the back when Wasco county cooperates to the project of repairing the section of the Sherman highway within their borders we will be glad to help in this back patting exercise ourselves.

NEW SPRING MODELS.

Anyone who travels county roads this time of year must be impressed with the bounty of Mother Nature. In every barn yard there are milk white lambs, their woolly coats as yet unsullied by dirt, or maybe a few squealing little pigs, ever hungry and anxious to grow into fat porkers for next winter's smoke house, or perchance there is a spotted calf or two just getting the feel of brand new legs. It's a little early for chickens or ducks, but before we know it every barn yard will have its quota of cheeping and clucking that signifies the springtime increase in the poultry flock.

And even at this season of the year the wheat is shooting out of the ground to greet the sunshine and encourage the rains to fall and nurture it. Soon we will have another crop of calves and colts and wheat and sheep and hogs to add real wealth, not paper figures, to take the place of what is now being sold and used.

There is something about the yearly phenomena of new life that is not expressed when mention is made of the mere profit to be won by the fortunate owner. There is also the spiritual side to be reckoned with, the renewed hope that comes with new life, the pleasure occasioned by seeing animals and plants grow and thrive.

That Sino-Japanese war seems to have banished all thoughts about when we are to get paid for the last bunch of destruction. Perhaps we will hear the bad news soon enough.

Oregon State College has banished three college paper editors for drinking. We always heard that editing a paper was enough to drive a man to drink. This proves it.

Just as worry over the income tax blanks become acute old Bim Gump has to get himself into a jam to relieve the pressure. Great is the comic strip.

It does look as though Congress would have heard that business needs speeding up instead of being retarded by a sales tax.

People's Column

Wasco, Ore., Feb. 27 (To the editor) I was very much interested in the article so ably written by T. M. Rolfe in a recent issue of the Sherman County Journal.

The measure providing a tax on oleomargarine known as House Bill No. 294 was introduced by the Committee on Food and Dairy Products. There being very little opposition in either House or Senate on this measure, the vote was almost unanimous in favor of the bill. This law when enacted (as I believe it will be) should prove of great benefit to the dairymen of the state. It was brought out during the session that to change from oleo and use butter in three of our state institutions would cost \$24,000 for the biennium.

I am enclosing a report of the Internal Revenue department showing the amount of substitutes used in the manufacture of oleomargarine for the year 1930.

	June 30, 1930
Butter	2,615,830
Cocunut oil	185,066,163
Color	20,629
Cotton seed oil	30,213,562
Edible tallow	16,108
Milk	97,752,761
Mustard oil	48,482
Neutral lard	19,631,839
Oleo oil	45,321,879
Oleo Stearine	6,268,940
Oleo Stock	1,188,962
Palm oil	1,101,996
Palm kernel oil	2,644
Peanut oil	5,713,684
Salt	28,886,699
Soda	121,771
Corn oil	352
Derivative of glycerine	49,616
Egg Yolk	2,850
Lecithin	245
Lettsene concentrate	183
Sesame oil	871
Soy bean oil	618,945
Total	424,648,006

J. P. Yates

Grass Valley

M. S. Estrell Hartley was taken to the hospital last Friday. The Rosebush school bus declared a holiday last week on account of impassible roads.

Mrs. J. H. Wilt entertained the bridge club Wednesday afternoon at her home in town.

Velma and Joe Bibby were here from Heppner this week for a short visit with home folks.

Harold Blagg and a friend named Zimmerman were here Saturday from Pacific University.

ty.

Leona Rooney left for Bend last Friday after visiting here with her parents during the winter.

Frank, Amandus and Theodore von Borstel were in Portland last week for a visit with their parents who live there.

Nearly all the farmers are out doing some work on the roads to put them in shape for travel while they still are wet.

Bud Moore returned from Portland the first of the week. He was down to see his infant daughter, born Feb. 15th.

W. S. Holmes found it necessary

ary to leave his children in town last week for school as the roads were too bad for him to meet the school bus.

Marion Van Metre and family were here the last of the week to spend a few days with Mrs. Van Metre's parents, Mr. and Mrs. L. D. Eakin.

Dell Olds drove to Prinville last week to visit the Remington's and brought home a load of wood, getting stuck in the

middle of the highway south of Shaniko.

SCHADEWITZ
Continued from page one.

Mrs. Marie Hendricks, of Vancouver, Washington; Mrs. Shelton Fritts, of Grass Valley; and Virgil, who lives at home.

The funeral was held in Kent Saturday afternoon under the direction of Crandells. The Rev. S. L. Boice, of Grass Valley, preached the sermon and interment was made in the Odd-Flows cemetery near Kent.

TUM-A-LUM TICKLER

Published in the Interest of the People of Grass Valley and Vicinity by The TUM-A-LUM LUMBER COMPANY

Vol. 1932 GRASS VALLEY, OREGON, MARCH 4, 1932 No. 6

EDITORIAL.

The Sherman County Journal says, A certain media actress shows great promise. And that is a new name for what they show. "tsk, tsk."

E. E. Gervais, Editor.

John Silvertooth at Antelope is doing a nice Repair Job using Tum-a-lum Insulated Wall Board.

T-A-L

Teacher: Johnny, what is a 'lum-bering gait'?

Johnny: One of them doors to a

fence made out of wood.

Teacher: Wrong again. Why don't you try to get away from the foot of the class?

Jonny: What's the use. They teach the same stuff at the foot as they do at the head.

T-A-L

We carry a complete line of lattice stock for trellis work also have many helpful designs to offer as helpful hints.

T-A-L

When contemplating building mail us a sketch of your hog house, chicken coop or any thing you wish to build. We will send you estimated cost by return mail. Delivered or at our Grass Valley plant—We furnish small buildings and crates ready cut.

T-A-L

We also carry a complete line of Paints, Oils, Kalsomine and Wall Paper. We will make special order on large paint jobs at this time with air brush the modern way to apply paint. Our Paint Sale is still on and going fast. Call while it lasts.

A
90 million dollar
reason

why Chesterfields are Better!

Just think what this means for Chesterfield smokers. It means that the larger part of 90 million dollars is invested in Domestic and Turkish tobaccos that are being properly aged in Nature's way, and cured so as to make them sweeter and milder.

CHESTERFIELD tobacco is packed in wooden casks, each containing about 1,000 pounds, and stored for two years in modern, up-to-date warehouses.

These warehouses, if placed end-to-end, would

be about four miles in length. From floor to ceiling they are filled with these casks of fine tobacco, ageing in Nature's slow but sure way.

It takes a lot of money to make a good cigarette—money to buy good tobaccos and money to age them properly.

CHESTERFIELDS are milder, and taste better... there's a 90 million dollar reason why! Just try them!

"Music that Satisfies." Hear Nat Shilkret's 35-piece orchestra and Alex Gray, soloist, every night except Sunday—entire Columbia Network—7:30 Pacific Time.

THEY'RE Milder • THEY'RE Pure • THEY TASTE Better • They Satisfy
