# CLEAN WHITE PURE

Even the package invites you

INVITING is the word... Chesterfield's attractive white package is certainly the proper introduction to the cigarettes inside it. For it suggests right off... they're pure. Examine the paper Chesterfields are rolled in. It's white... and pure. Now light up... You'll notice there's neither taste nor odor of burning paper. You get the full flavor of fine ripe tobaccos. To make sure of purity... every ingredient and every method used in making Chesterfields... is checked by a staff of scientists. You always open that clean white package with confidence. It reminds you of the purity back of that satisfying taste. And remember, they're milder too!
