When he retired in the fifth, fourteen hits had been charged to him and nine or ten runs had clattered over the pan giving Moro a lead that was decisive. Bishop, of Wasco, went to his relief without warming up and still the runs clattered in until ten men batted in the round and five scores were in. The sixth was not so bad, the seventh was another slaughter of innocents and in the eighth, Troth, of Antelope, took the box and finally fanned a man and retired the side without a run. It was the only inning in which scores were not made by the victors.

Guinan, Moro's regular third baseman, was in the lineup in Monday's game and added to the offensive strength of the team by his hitting. A homer, a double and two singles was his portion. Walker clouted out a couple of homers for another swatting feat of the day. Fritts, of Grass Valley, was the offensive star for the losers getting a batting mark of two hits in a scored two times up.

An attempt to give the box score of the second game would merely result in a head ache. A total of 23 hits were made by the boys playing for Moro and by the Grass Valley athletes. The score was 18 to 7.

Robert returned from school with his report card for his mother's inspection. "But dear," she said, "what's the trouble? Why have you such poor grades this month?" "There's no trouble, mom," was the quick reply. "You know things have been marked down."

WASCO, OREGON

To the People of the City of Wasco and Sherman County:

I have been operating a Grocery and Fresh Meat business here for about five years on the Thirty-day basis. Conditions have made such drastic changes in the past three years and are not improving as time goes on, which of course, is no fault of ours, nevertheless it places me in such a position that I am forced to change my method and offer my merchandise to the customer for CASH ONLY, after July 10th.

By selling for Cash I can make very much better prices and can serve my customers more economically and efficiently to the end that you will prefer to pay Cash instead of having a charge account and paying by the 10th of the month following your purchase, as heretofore. The Credit System means more or less Credit Losses to your merchant, which must be absorbed and makes it necessary for him to sell at much higher prices than if selling for CASH ONLY.

I feel sure that you will be willing to do your business at a HOME-OWNED CASH STORE, providing it makes you real cash prices and that you will agree with me that the present conditions and times call for the merchant to sell for CASH AND AT CASH PRICES.

Wholesale Houses are gradually tightening up on terms to the country merchant, in fact practically to CASH, as their terms are now one to two weeks time of credit in most all cases, so the retailer must sell for Cash in order that he can pay the Wholesale Houses.

My prices will be much lower than was possible under the credit system. I am going to give you as good prices as you can get anywhere, taking into consideration my location and high freight rates. This I can do only by selling for CASH at time of delivery.

Your business has been greatly appreciated and I take this opportunity to thank you most sincerely and I hope and trust that I will have the pleasure of your continued patronage and co-operation. Again thanking you for your past favors, I am,

Very gratefully yours,

ROY ATWOOD.
