

RECIPES FOR APRICOTS INTERESTING TO HOUSEWIFE

Few of the seasonable fruits now available have a more universal appetite appeal than fresh apricots. Apricots have a delicious flavor and contain both the minerals and the vitamins. As fresh fruit, or canned or dried, they are relatively inexpensive and their wider use should be acceptable. Apricots are perishable and should be purchased only for immediate use. They may be kept, however, for several days in a cool, dry and well ventilated place.

Apricots are delicious sliced and served with sugar and cream. They may be eaten alone at the beginning or end of a meal, or combined with breakfast cereals. A favorite salad is made with halved or sliced apricots with a generous sprinkling of grated cheese and nuts for garnish. For variety they may be used with cottage or cream cheese and with either French or fruit dressing.

Fresh apricot sundae always meets with approval. The sauce is made by cooking for five minutes, the sliced fruit with a half cup of sugar and a half cup of water for each cup of fruit used. Apricot and chocolate are delightful combinations in flavor, as you will discover by trying the recipe given this week for Dutch Apricot Cake. To tempt the appetites of your family try the Apricot Marshmallow Pudding or, since this is the season for frozen deserts, the Fresh Apricot Ice Cream.

Chocolate Sauce.

3 squares bitter chocolate
1/4 cup hot water
1 cup sugar
1 teaspoon vanilla
1/2 cup white corn syrup
1 cup coffee cream

Melt the chocolate. Add water slowly, stirring until smooth. Add sugar and syrup and boil to a very soft ball stage. Add cream and flavoring. Serve hot or cold.

Apricot Marshmallow Pudding

1 cup coarse bread crumbs
1 cup apricot pulp
2 teaspoons lemon juice
2 cups milk
3 egg yolks
1/4 teaspoon cinnamon
1/2 cup sugar
6 marshmallows

Put the crumbs into a buttered baking dish and sprinkle with cinnamon. Add apricots and lemon juice. Add finely cut marshmallows. Mix remaining materials as for custard and add to pudding. Bake slowly (300 degrees) for about an hour. Top with meringue and brown in oven, or with whipped cream.

Apricot Ice Cream (2 qts.)

1 1/2 cups sugar
3 cups apricot juice and pulp

1 1/2 teaspoons vanilla
3 cups rich milk
1 cup heavy cream
1 tablespoon lemon juice
1/2 teaspoon salt

Mix apricots with sugar and stir until dissolved. When ready to freeze add remaining ingredients and mix thoroughly. Freeze using 3 parts crushed ice to 1 of salt. When very stiff remove paddle and pack in salt and ice 3 hours before serving.

Dutch Apricot Cake:

2 cups flour
1/2 teaspoon salt
3 teaspoon baking powder
1/4 cup sugar
1/4 cup butter
1 egg
1/2 cup milk
Halves of apricots
2 tablespoons sugar mixed with 2 tablespoons melted butter

Mix and sift dry materials together. Rub the butter into the flour mixture until appearance is like coarse cornmeal. Beat the egg and add milk to it. Stir liquid quickly into the dry. Turn into a buttered pan, spreading to one inch thickness. Lay apricots in rows over the dough, gently pushing each piece a little way into the dough. Sprinkle with sugar and butter mixture. Bake in hot oven about 15 minutes. Serve warm with chocolate sauce.

More Howlers

Here are a few definitions given by some school children:

"Etc. is a sign used to make believe you know more than you do."
"The equator is a menagerie lion running around the center of the earth."
"The zebra is like a horse only striped and used to illustrate the letter Z."
"The vacuum is nothing shut up in a box."—Christian-Observer.

RATE MEETING

(Continued from page one)

rates applies more heavily on the branch lines and a comparatively small amount of the wheat of the northwest is shipped from there. It will be possible for the Farmers National to divert this wheat to Oregon buyers and give the branch line shippers the advantage of the saying: "The railroads were represented at the meeting by H. E. Lounsbury, traffic manager, who stated that the compromise rates would result in a considerably lower income for the rail roads because a large proportion of the wheat was shipped for interstate uses. One rate, he said, would reduce confusion among shippers and farmers and would reduce expenses for carriers."

A delegation of boat and truck men consulted with the farmers committee and offered a proposition for hauling wheat directly from the field, but their price was not adjudged low

enough to compete with the intrastate rail rate on which members of the cooperative can have their wheat hauled to market this year.

Those attending the meeting from Sherman county were J. W. Shepard and Herman Schilling of Grass Valley and J. B. Adams, W. T. Balsiger and G. L. French of Moro.

CHINESE WHEAT

Continued from page one.

ness National Government has been made upon supposition that the obligations would not be paid and that the wheat and flour would go into the regular channels of trade and interfere with the regular movement of northwestern wheat into that territory. The above report indicates that the wheat was used according to the provisions of the contract for famine relief. The sale was of particular interest to the Pacific Northwest as it materially reduced the surplus of wheat in this area and that it has improved the price ratio, as compared with world levels, has not been questioned. According to the terms of sale the wheat was to be paid in three equal payments, the first coming due on December 31, 1934 and subsequent payments December 31, 1935 and 1936 with interest at 4 per cent.

The interest is payable in December and June of each year. According to James C. Stone, chairman of the Federal Farm Board, interest payments of December, 1931 and June 1932, were promptly made.

Choice

He was a new boarder, but when prunes were served for breakfast for the third morning in succession, he felt he was entitled to say something.

"I am not very fond of prunes," he said. "Have I no choice?"
"Yes," replied the lady of the house, sweetly, "you may take 'em or leave 'em."—New Outlook.

Even

"What are you doing, dear?" asked a mother of her little daughter, who was making scrawls and scratches on a piece of paper.
"I'm writing a letter to Betty."
"But, my dear, you don't know how to write."
"Oh, that doesn't matter, Betty doesn't know how to read, either."

That Feed Problem

We have let our stock of feed grains run down because of the low price of wheat. We have rolled some of the shriveled grain that has been threshed this year and find it to be an excellent feed for horses or dairy cattle. It is not as rich as ordinary wheat when rolled and is therefore a safer feed.

Wheat at a low price per ton can be rolled into a good feed and can be used to feed live stock more profitably than prepared feeds

OUR FEED MILL IS PREPARED
to take care of you in making this low grade wheat into something useful.
