**Town Talk**

Shirley Haynes, of Yamhill, is here for a few days to visit her cousin, Dorothy McRae.

Miss Josephine Johnson is visiting in Arlington with Miss Georgianna Irby this week.

Miss Geraldine Irby is here this week as a guest of Lavonne Sayers. She lives in Arlington.

Miss Marcella Race, of Mosier, a grand daughter of Mrs. Emma Sayers, is visiting relatives here this week.

Miss Irene Jones is spending the week end here as a house guest of Mrs. Lewis Hastings.

The Foss, Wallan and Freeman families spent last Sunday picnicing along the Columbia river near Rufus.

O. L. Belshe and wife and L. L. Peetz and family left last Saturday for Camp Sherman. The Peetz family remained for a week or two to allow Lou to recuperate.

Miss Margaret McKee and Rosemary Walker of Wasco were guests at the Lewis Hastings home last week end.

Rev. A. A. McRea won fourth place in a slogan contest sponsored by a Seattle automobile firm.

Mrs. A. A. Dunlap and daughter, Margaret, were visitors Sunday at the home of Rev. and Mrs. A. A. McRea.

Dr. O. J. Goffin and wife, who formerly practiced here, stopped for a few minutes on their way home from a trip to Crater Lake. They are living in Portland.

Miss Marjorie Nahouse left Tuesday for Portland for a few weeks visit. She accompanied Miss Doris Fortner whose guest she will be during her stay in the city.

Mrs. Arthur Osborn returned home from the hospital last Friday with her infant son.

Gail Gentry finished his harvest job near Antelope last week and is home again.

Victor McDonald, cousin of Neal McDonald and R. J. Ginn, was here Monday from his home in Long Beach, Cal. He was at one time owner of the ranch now farmed by Carl Melzer.

T. L. Cotrell, branch agent for the John Deere Plow company, was in town Wednesday on one of his infrequent trips through this county.

C. H. Freeman, auditor for the Industrial Accident Commission, is in town this week.

The Gilmor family spent a few days last week around Mt. Hood picking huckleberries.

Mr. and Mrs. Jack Cothran left Wednesday for Government Springs in search of huckleberries.

Mr. and Mrs. George Sanderson and Adeline Hockman spent the week at the J. C. Hockman home.

Mr. and Mrs. Ted Barnum left last week for Stevenson, Washington, to visit with Mrs. Barnum's parents at that place.

Mrs. A. A. McKee is suffering from an infected foot that is keeping her confined to her home for a few days.

Miss L. M. Tracy who has been conducting the services at the Full Gospel Assembly church left Friday for her home in British Columbia.

Miles Martin of Lexington, is spending a few days at the home of his father and mother, Mr. and Mrs. L. H. Martin.

Mrs. Wiley Knighten and children returned this week from Portland. Mr. Knighten, who is in the Veterans Hospital, is improving.

Mrs. W. H. Kagdale and son Harry and Lamar Sayers, left for Joseph where they will spend a week visiting with Mr. and Mrs. John Searcy.

Mr. and Mrs. W. D. Wallan, of Walla Walla, who have been visiting at the Foss home last week, returned to their home Monday.

Mrs. Elva Bryant returned home this week from Moonmouth where she has been attending summer school at the state normal.

Miss Vivian Hayes, niece of Mrs. L. W. Raker, was married at Battle Ground, Wash., to John M. Dolan of that place.

Mr. and Mrs. A. A. Dunlap and daughter, Margaret, were guests at the home of Rev. and Mrs. A. A. McRea.

After their summer recess Eureka Lodge, No. 121, A. F. & A. M. will resume their work with a regular communication next Thursday evening, September 1.

Miss Olive Kunsman, daughter of Jim Kunsman of The Dalles, returned to her home Tuesday after several days visit with Miss Marjory Kunsman of Moro.

Mr. and Mrs. Walter Cothran and son Albert of Wewoka, Okla., spent a few days at the J. R. Cothran home this week on their way to the state of Washington. Mrs. Cothran is a sister of Mrs. Jack Cothran and the men are cousins.

Mrs. G. C. Akers would like your child or children as music pupils for fall term beginning the first of September and will take wheat in exchange, delivered at the warehouse in Moro at market price if brought in early in the season.

Mr. and Mrs. Angus Kuck and Mrs. Kuck's father, J. A. Thompson, of Portland, were here this week. Mr. and Mrs. Kuck drove on to Camp Sherman for a little rest while Mr. Thompson remained in Moro with Mrs. N. W. Thompson, his daughter.

**CHURCHES**

Community Presbyterian Church

Sunday School 10 a. m.  
Morning Worship 11 a. m.

Temperance Union will speak at a union meeting of the two churches at the Methodist church Sunday morning at 11 o'clock. Miss Ervin will also speak a few minutes at 10 o'clock to the Sunday school.  
W. B. Warner, minister.

**Beginning Of School  
Serious Time For Child**

Only a short time remains till the opening of school. No parent would think of starting a child to school without having an adequate and suitable wardrobe as well as necessary school supplies. How many of these children are going to be physically equipped to undertake this new work? That there are many that will not be physically fit is indicated by the examination of large numbers of preschool children. One may draw the conclusion that the parents have neglected to have examinations of their children made and have been unaware or unconcerned about the existence of these defects. All too often it is not until the child is examined in school and the parents' attention called to the presence of defects that anything is done toward their correction. Physical handicaps may lead to mental handicaps, with the result that such children will fail to make as rapid progress in school as they otherwise would. Due to diseased adenoids or abscessed teeth, common infections of childhood, a child may fail to gain weight properly or perhaps be ill. At the time of illness it may be that nothing can be done to correct the defect and it is necessary to wait until the child's physical condition is such that the correction can be made.

Having recovered from his illness, the parents often postpone the correction in the hope that here will not be a recurrence of illness. The child thus goes along with his abscessed teeth or diseased tonsils, perhaps without any acute illness, for some months until finally it is discovered that he has developed a far more serious condition such as heart trouble. Sufficient time remains before the opening of school to correct minor defects so common in preschool children. If a child needs glasses, there is plenty of time to have the eyes tested and time enough for the child to become accustomed to his glasses if action is taken at once. If the child needs his tonsils or adenoids removed, there is sufficient time to have it done and for the child to regain his normal health and possibly to improve before school begins. When the child goes to school he is thrown in contact with larger numbers of children than ever before

and is, therefore, more likely to be exposed to communicable diseases. No parent should even consider sending a child to school without giving him protection against two serious communicable diseases, namely, diphtheria and smallpox.

Many parents realize the importance of a complete physical examination and the value of immunization and have every intention of having them attended to, but keep putting it off because of the inconvenience it may cause until school actually opens. Parents should attend to these things before school commences. The family physician is ready and willing to co-operate in every way.

**Unusual Colors Mark  
Summer Dress Parade**

If you have an eye for color, you're all set for the summer fashion parade. For unusual color contrasts, new color harmonies, individual color treatments, are about the most important things in the new mode. You can't be afraid of color this year—for the new fabrics are being presented in an array of clear, bright pastels and deeper jewel tones that would shame any rainbow. Violet is all the rage for sportswear. One house that specializes in sports things has devoted its windows to the new violet golf costumes, tennis costumes and spectator sports costumes for us, these many weeks. It's a deep, clear shade of violet. None of your wishy-washy lavender and it's tremendously effective, especially when worn with natural color chambray jackets and gloves and such.

**JACKET ENSEMBLE**

Its Appearance  
Sir Henry Irving had the worst scrawl on record. It is related that he once wrote out a note asking the box-office manager at the Lyceum to give his friend, the bearer, two seats. When it was presented the box-office manager shook his head. "Sorry," he said, "but we don't make up prescriptions here."

Just Wondering  
An elderly lady walked into the Bank of England and presented a parcel of War Loan. "Is this for conversion or redemption, madam?" asked the official.

"Young man," was the reply, "is this the Bank of England or the Church of England?"—News of the World.

The Advertisement  
Customer: "Why do I get such a small portion today when I had such

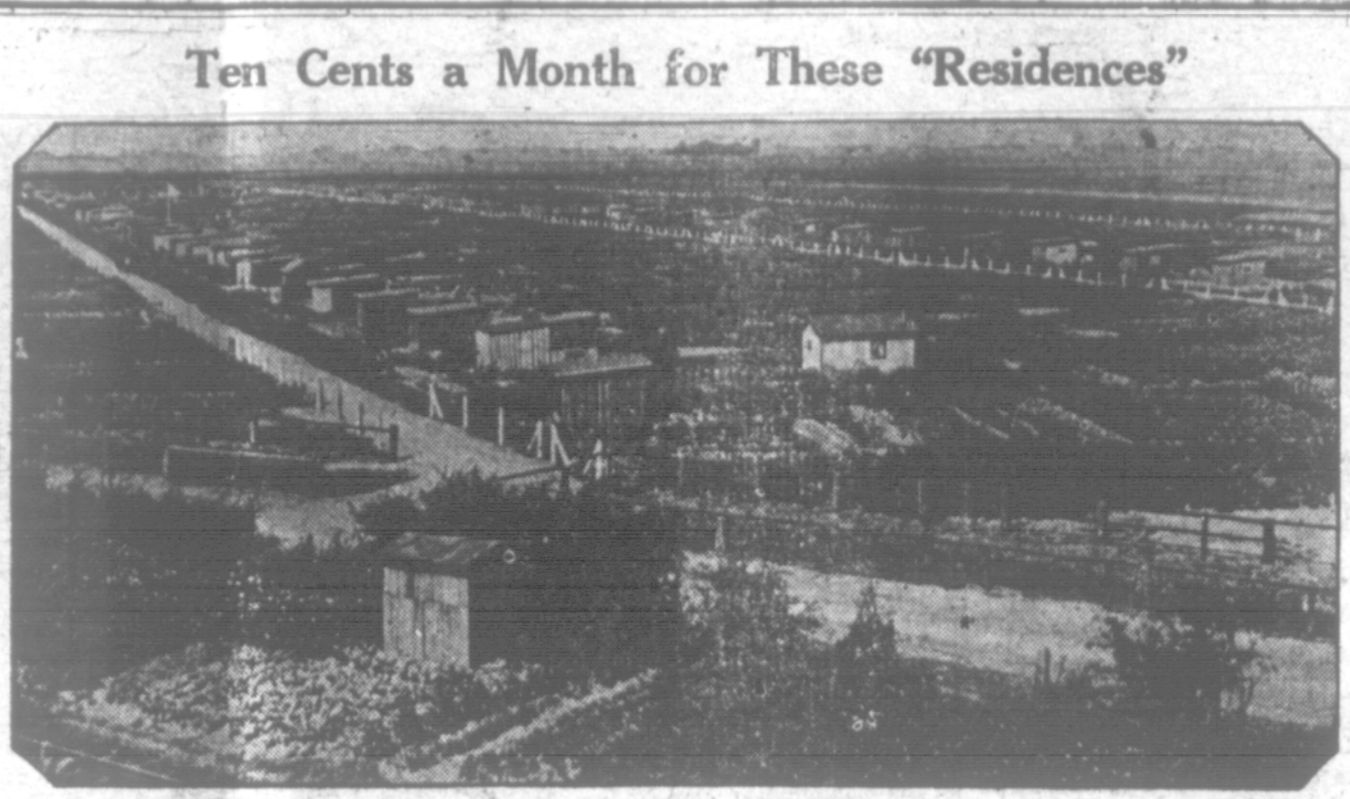

Ideal for summer wear is this jacket ensemble of soft yellow and beige tones in cool pointed crepe.

**Coat-Dress Is Featured  
Now in Every Fashion**

It's difficult to tell a coat from a dress these days. The coat-dress fashion affects not only street dresses and daytime coats, but practically every other type of costume—evening wraps, evening dresses, beach costumes, bathrobes.

The new coats are often buttoned to the hem, like dresses; street dresses are cut to fly open when one is walking, and are provided with colored slips to carry out the effect of a coat over a dress.

In order to help about a hundred thousand unemployed Germans, the Hamburg senate placed the above land at the disposal of the needy where the pictured wooden shacks were built to rent at ten cents a month. This is undoubtedly the smallest rent paid in the world, and to further aid those in want it has been arranged that the rent can be paid in easy installments extending over a period of ten years.

a large one yesterday?"  
Waiter: "Ah, sir, but you sat by the window."

"Sedentary work," said the college lecturer, "tends to lessen the endurance."

"In other words" butted in the smart student, "the more one sits, the less one can stand."

"Exactly," resorted the lecturer, "and if one lies a great deal, one's standing is lost completely."

Rafferty bored 10 feet into a mining claim, and then abandoned it. Another took it up, and at 11 feet truck gold.

When Rafferty heard the news he exclaimed, "I'll never leave another claim until I've gone a foot further!"

**MODISH CAPE-WRAP**  
By CHERIE NICHOLAS

The new short cape-wraps are fascinating. This one is of, medic trans-arent velvet in bright midnight blue. The white evening dress which it contrasts so effectively is made of dem-lair crepe, which is one of the very new, very heavy sensibler weaves which lead in fashion this season. It is smooth and dull and drapes gracefully in both daytime and evening modes.

**Setting a New World's Record**

This photograph, transmitted over A. T. and T. wires from Los Angeles, shows J. Healy of New York setting a new world's record of 52.02 over the 400-yard hurdles in the Olympic games. Adethelm of France is second and Areskog of France is third.

**BARRED FROM RACING**

Baron Long, millionaire sportsman, who has been barred from racing his horses at the Agua Caliente track in which he owns a one-third interest. Long protested that his punishment was too strong. He was barred because he "padded" the mutual betting machines in a coup that staggered bookmakers all over the United States. The ban automatically keeps Long from all tracks in the United States, Canada and Cuba.
