Snow shoveling was the first order  
of business around town Wednesday  
morning and business men exercised  
who had not had occasion to do so  
for some weeks.

Arthur Johnson has been sick with  
the flu this week and the janitorship  
has been charge of his son.

Ardith Cochran, Avery Martin and  
Babe Douma left Thursday morning  
for a wood camp back of Friend in  
Wasco county. Vernon Platt has the  
timber and the boys will make it into  
wood.

The American Legion will give a  
dance here Wednesday evening, Feb-

Moro has coal again although the  
cold weather caused several residents  
to go to other towns for their fuel be-  
fore the car arrived. Wasco was out  
the first of the week as well and  
Grass Valley had the only supply.

Miss Lucille Templeton left Thurs-  
day for Corvallis where she will visit  
her aunt and uncle for a few days.

John Forbes has been confined to  
his home for several days because  
of an attack of rheumatism that laid  
him low.

Mrs. C. Miller was ill last week  
with an attack of influenza but she  
is recovering at present.

Mrs. J. C. Freeman and son, Neal,  
left Saturday for LaGrande to visit  
for a few days.

Continued From Last Week

The boys game that followed will  
long be remembered by those present  
as one of the most thrilling games  
ever witnessed on the Moro floor. It  
was a great battle from the opening  
to the very last, the kind of a game  
which makes the spectators want to  
stand up on their chairs and shout  
themselves hoarse. Undoubtedly the  
largest part of the crowd went home  
with sore and strained voices.

Moro scored first with a long field  
goal which Barnes followed with a  
cripple soon after. Grass Valley then  
sank one and made a free throw good.  
The teams fought along evenly during  
the first quarter with first one team  
ahead and then the other. Grass Val-  
ley battled their way ahead in the  
second period and it looked as if they  
would be in the lead at half time.

Another long Moro shot swished  
through the net to knot the count to  
11 all. The Moro team returned to  
the floor after the intermission  
fired with the determination to win  
and wipe out the defeat in the hands  
of Grass Valley earlier in the season.

They rolled in six points and at  
the middle of the fourth period the  
score stood 17-11. They had held  
Grass Valley without a point until  
then. Here the fireworks began. Gras  
Valley suddenly came to life and  
dropped in three baskets to tie the  
score at 17. Another basket and the  
score stood 19-17. Moro came back  
with a basket to tie the score again.

Here the noise of the spectators be-  
came so deafening that the referee's  
whistle could not be heard on the  
floor. A free throw put Grass Valley  
back into the lead and things began  
to look dark for Moro. As the game  
began to wane into the closing min-  
ute Barnes made a beautiful shot  
from the center of the floor to put  
Moro out in front. Axtell converted  
a free throw and the final score stood  
22 to 20, for Moro.

The Moro line-up: Forwards: Axtell  
and Thompson. Center: Barnes;  
sub. Hennagin. Guards: Burnet and  
Fraser.

Before a large crowd in the gym-  
a one act play entitled "Waiting for  
a Trolley" was presented last Friday  
afternoon. The well chosen cast was  
chosen cast was composed entirely  
of girls. The scene of the play was  
a waiting room of a trolley line. The  
play was highly entertaining and  
amusing. It was under the direction  
of Miss Thompson.

**COUNTY UNIT**

small. Teachers would not be called  
upon to handle an unreasonable  
number of subject combinations nor  
would they be overloaded with a  
number of various preparations. Much  
could be accomplished through this  
concentrated effort than at the pre-  
sent time.  
Adequate laboratory and scientific  
equipment and library facilities is at  
present a need in every high school  
and prevents the offering of a num-  
ber of worthwhile subjects. Com-  
mercial subjects and also exact sci-  
ences could be given far more advan-  
tageously through the combining of  
classes and equipment of two or more  
small schools. The equipment for  
science courses is expensive and at  
present not only is this equipment and  
laboratory space limited but the  
science courses are limited due to the  
lack of proper facilities. In the  
small enrollments the number of  
students desiring a course is quite  
frequently not large enough to jus-  
tify placing it on the schedule since  
the instructional costs would be ex-  
orbitant. Commercial subjects are  
popular in this county but are hardly  
justifiable in a three of four teacher  
high school these times. In a five  
teacher high school the commercial  
teacher would be a specialist in that  
type of work and students could get  
enough of this training to be of  
some practical benefit. Students of-  
ten attend business college to secure  
the same training that could be had  
from a properly organized commer-

cial course in a high school. This  
course would include two years of  
typing, two years of bookkeeping,  
shorthand, commercial arithmetic,  
commercial law, and commercial geo-  
graphy.

**TAXES**

Continued from page one.  
throughout the county.  
In 1932 the sheriff had the job of  
collecting \$192,332.50 all of which  
was to be used in the county. In  
1933, unless some changes are made  
in taxation in the legislature, he will  
have the job of collecting \$199,795.10.  
This is due to the fact that the state  
tax will be \$24,577.45.  
Last year our elementary school  
tax was \$17,795.00 and this has been  
reduced to \$17,142.29. This sum is  
included in the state tax in the totals  
usually given but is used here and is  
not properly a state tax.  
The average consolidated levy for  
the county this year is 17.93 mills  
compared to 16.53 mills in 1932. For  
county expenditures, which includes  
all the activities of the county except  
schools and roads, the millage is 3.  
2027 for the state tax which includes  
the elementary school the millage is  
3.7431.  
Millages have not decreased as fast  
as have taxes in this county because  
of the lowered valuations that have  
prevailed for two years. There has  
been a shrinkage of approximately  
three million dollars in valuations,  
principally in land.  
Road district No. 1, the north end  
of the county, has a valuation of about  
forty five percent of the total valua-  
tion of the country road district  
and the one mill levy gives that dis-  
trict nearly \$5000 or practically twice  
the tax income of any other district.
