**CHURCHES**

**WASCO CHURCH**  
The Trustees met Wednesday afternoon and planned some improvements on the church building and repairs on the parsonage. They have some money from the Sunday school treasury, some money from a special solicitation, and the proceeds from The Mother Goose Bazaar in December. The first thing they will do perhaps will be to fix a new grade entrance to the church basement so as to comply with the state fire regulations, and then perhaps to reshingle a portion of the parsonage roof.

**MORO SCHOOL NOTES**  
The Moro boys and girls will play Grass Valley on their floor Friday the twelfth. Moro has many prospects and expects to make a good showing.

A double header was played here on the home floor Friday, the fifth, with Wasco. Both teams had well organized plays and showed good coaching. In the boys game, Moro was in the lead during the whole game and the final score was 17 to 12. When the girls game ended Moro had a decisive score of 30 to 9.

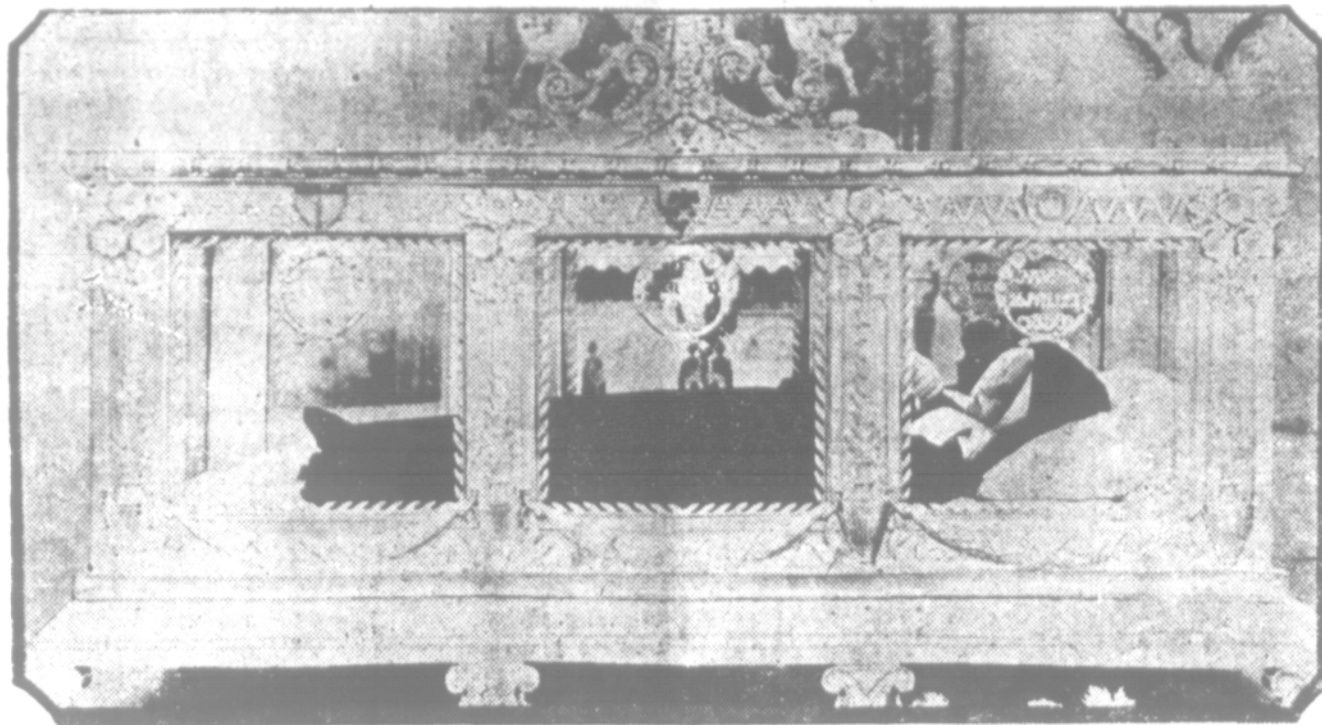

The boys went to Wishram Saturday night and won by the narrow margin of 11 to 12. Thompson shooting the score that won the game.

Students students are seen hurrying around Moro High school, murmuring phrases of history, etc. The reason is that semester exams start next week and everyone is preparing for heavy bombardments from the

**Oregon Agriculture Changed During '33**

Start of the new year finds Oregon's agricultural industry well along in adapting itself to the almost revolutionary changes brought about by the application of the national agricultural adjustment act. What has transpired to date may be just a beginning, but when summarized according to major commodities the record begins to look formidable already. Here it is in the most brief outline.

**WHEAT:** Oregon growers signed up to remove 228,800 acres from production and in return qualified for \$2,777,000 in domestic allotment benefit payments for the first year. All organization work is completed and some counties have received the checks for the first payments to growers. The northwest as a whole reports 14 percent reduction in winter wheat acreage planted. Emergency export association moved 10 million bushels of northwest surplus.

**HORTICULTURE:** Northwest Tree Fruit Industries Inc. formed as trade group of all northwest tree fruit shippers under trade agreements and code of operation designed to bring orderly marketing practices more profitable for the grower. Walnut industry organized under similar agreements in conjunction with California area.

**CORN-HOGS:** Emergency purchase of pigs and brood sows carried on to limited extent in this state. Corn hog production control plan launched with possible maximum benefit payments on hogs totalling \$720,000 for hogs and \$123,000 on corn. Full sign-up not expected, however, because of the nature of industry here.

**DAIRYING:** Emergency butter surplus purchasing carried on by AAA in this region. Trade agreement among dairy products manufacturers drawn but not yet approved nationally. Milk marketing agreements provided for but none applied for in this state. Production control to be launched soon but details not yet available.

**LIVESTOCK:** Beef may be included under dairy adjustment program.

**FARM CREDIT:** Reorganization of federal farm credit structure under farm act brought many applications for mortgage refinancing from Oregon farmers. State Agricultural Advisory council for aiding in farm debt adjustment set up under federal program. Four federal credit agencies set up at Spokane to handle all forms of government supervised farm credit in this district.

**INDEX PRICE**

Continued from page one.  
In cottonseed prices, while the fruit and vegetable index advanced two points.

At 68 per cent of the pre-war mid-December farm price index was 16 points higher has a year earlier. All sub-group indexes were above December 1932 except chickens and eggs. Grain prices were up 40 points; cotton and cottonseed, 34 points; fruit and vegetables, 24 points; and dairy products, 7 points. Meat animal prices averaged the same as on December 15, 1932, but chicken and egg prices were down 26 points.

The Bureau's index of prices paid by farmers advanced one point to 118 per cent of pre-war from November 15 to December 15. A year earlier prices paid by farmers averaged 103 per cent of pre-war. Although the

ratio of prices received to prices paid declined from 61 to 58 per cent of pre-war during the month ended December 15, the mid-December ratio was 16 per cent higher than a year earlier.
