"The Branch Banking legislation of last spring made it possible for us to extend our banking facilities into communities over the state where the services of this institution were most needed. We are particularly glad to add our ninth out of town branch in a district where a convenient bank is much needed. Establishment of this branch demonstrates our confidence in the future of the wheat, cattle and sheep industries on which Heppner depends and our belief in returning prosperity for farmers and ranchers of Eastern Oregon.

Establishment of the Heppner Branch came as the result of a petition presented by Heppner residents Mr. MacNaughton said. E. L. Morton, veteran agricultural Oregon banker and deputy state superintendent in charge of liquidating the Bank of Commerce at Wasco, has been named manager of the new branch, which will have its quarters in the building formerly occupied by the First National Bank of Heppner, closed since October 1932. **THREE WAYS TO HEALTH**  
by ADA R. MAYNE  
**OREGON DAIRY COUNCIL**

Ideas for securing vegetables during the winter months often need some stimulus as the choice of fresh vegetables decrease. To make old timers as carrots, cabbage or onions, seem like something new, requires more ingenuity and imagination on the part of the housewife than does the securing of vegetables fresh from the garden.

It is important to serve an abundance of vegetables, since they, along with milk, butter, eggs and fruit are the chief sources of the minerals and vitamins necessary for general good health. Also your table is more attractive when a large variety of vegetables is used.

Of the numberless ways of securing vegetables only a few suggestions can be made. Panned cabbage and five minute creamed cabbage are good ways to use this important vegetable. Be sure to use the greenest leaves and to cook them a very short time. Creamed greens, or greens panned in milk are delicious ways to serve greens of all varieties, and have the extra value of the milk. A vegetable curry, or creamed mixed vegetables, or vegetables au gratin, made of left overs are always family favorites.

Here are some winter vegetable possibilities:  
Harlequin Cabbage

- One medium sized head of cabbage
- One red pepper
- One green pepper
- One onion
- Four tablespoons parsley
- One half cup water
- One teaspoon salt
- Six tablespoons butter

Cut cabbage into fine pieces. Wash and cook in rapidly boiling water for 7 minutes, counting from time the water starts to boil. Sprinkle with salt one-half cup-boiling water for 5 minutes; add butter and salt; turn into cooked cabbage and serve.

**Vegetables au Gratin**

Mix two or more kinds of fresh cooked vegetables such as string beans, carrots, and turnips or cabbage, and place in a shallow baking dish. Pour over the vegetables thin white sauce to which cheese has been added. Cover with buttered bread crumbs and bake in a moderate oven, until the sauce bubbles and the crumbs are brown.

**Parsleyed Buttered Beets**

Scrub six beets clean; cover with scalding water and boil gently until tender, from 35 minutes to 2 hours. Drain and plunge into cold water so that the skins may be easily removed. Chop fine and serve with 3 tablespoons each melted butter and finely chopped parsley leaves.
