

OREGON STATE NEWS ITEMS OF INTEREST

Brief Resume of Happenings of the Week Collected for Our Readers

Astoria—The Clatsop County Bulb Growers association announces that it will hold its annual spring daffodil and flower show at Astoria, on March 10.

Tillamook—Construction of about one mile of the Wilson River road in Tillamook county between Besters Ford and Mill's bridge has been started by a CWA crew of 100 men.

Albany—Surveys are being made in Albany by state highway engineers to locate a new and shorter route for the Pacific highway through the city. Several lines have been run.

Salem—A city manager, a mayor and six aldermen will comprise the governing body of Salem if the city manager form of government is approved by the people at the May primary election.

Bend—Increase from the present six-hour shift to eight hours has gone into effect at the Brooks-Scanlon Lumber company's sawmill, at Bend. This will increase the number of men employed by 20.

McMinnville—About 100 tons of fruit, principally cherries and loganberries, was handled through the McMinnville Fruit-Growers' association, according to the annual report. The association broke even in 1933.

Bonnieville—Over \$2,000,000 will be required to install all necessary features for escapement of salmon runs over the Bonneville dam and to assure safe return of fingerlings to the ocean, according to the fish conservation committee, which is working out the escapement problem.

Albany—Samuel J. Brown, veteran Southern Pacific railroad pile-driver foreman, has been placed on the pension list. He began to work on the old Oregon-Pacific draw-bridge across the Willamette at Albany, one of the longest self-supporting drawbridges in the world.

Astoria—A loss of thousands of dollars was sustained when a truck and trailer operated by the Astoria-Portland and Seaside Auto Freight company, carrying about five tons of soap from Portland, was forced off the Columbia River highway near Svensen. They rolled down a embankment and were burned.

Pendleton Sells Grain—A hundred thousand bushels of wheat was sold here last week, according to the estimate of grain dealers. Sixty cents a bushel was the average price.

Triplets Born in Salem—Salem—Triplets, two boys and a girl, were born to Mr. and Mrs. Dewey C. Crooke last Wednesday. The boys each weighed five pounds, while the girl tipped the scales at 5 1/4 pounds. There are eight older boys and girls in the family.

Woman Mother of Eighteen—Oregon City—Mrs. Mary Minard of White City Park gave birth to her 18th child last Saturday afternoon, a 12 1/2-pound daughter. The mother, who is 42 years old, has 16 living children. Mother and baby are doing nicely. The father is 49 years old, and a laborer.

Third Twin Set Born—Medford—Congratulations go to Mr. and Mrs. Thomas Smith of Gold Hill, to whom twins, the third set in their family in seven years, were born last Saturday night at the Sacred Heart hospital here. They bring the Smith family total to 13 children, all living and all in good health.

Three Crops of Rye Cut—Cottage Grove—Three crops of rye grass were cut by J. W. Fisher of Mount View during the past winter. Each cutting was about 30 inches in height. The patch was a small one near the house. Mr. Fisher was born in Oregon and has lived here 63 years, but says he has never known a winter like this one.

Rock Quarry Operating—St. Helens—The quarry of the Columbia Contract company, which has been operated intermittently during the winter months is now running at capacity with a force of 22 men. Several large orders for crushed rock of different sizes have been placed which assures several months' operation. The rock is shipped by barge and most of it is going to Portland.

Farmer Builds Light Plant—Philomath—An efficient and economical farm lighting system has just been completed by Crawford La Bare on the farm at Wren, about five miles west of here. The generator for the plant is built from discarded automobile parts and is run by a water wheel about 100 feet from the house. Enough electricity is generated to light several lights. The only cash outlay was for light bulbs and sockets. The power line, which is four strands of banded wire, is set during the day to keep a radio battery charged or when occasion demands the water wheel is used to run a feed grinder, an emery wheel or a turning lathe.

Trade Barriers Hamper Wheat Recovery

The general wheat situation remains weak and continues to be influenced by the maintenance of drastic trade barriers. Among the principal exporting countries, Canada alone is offering wheat on world markets without some form of Governmental regulations. Exports from the United States have been negligible except from the Pacific northwest where sales have been effected through the aid of the Emergency Export Association. Argentina has established fixed prices for the purchase of wheat for export. Australia has established a licensing system for controlling wheat exports in accordance with the allotment quota under the terms of the London Agreement. In the Danubian countries, reciprocal trade agreements and various other devices, including special tax provisions, have been factors in the export trade. Effective January 22, 1934, the purchase, sale and export of wheat in Bulgaria became a Governmental monopoly. Russia has maintained a Government monopoly of the grain trade since the resumption of export.

On the demand side, takings of foreign wheat by the former large importing countries of Continental Europe have been greatly reduced through the operation of high tariffs, milling regulations and other trade barriers. Recent trade estimates place European imports for the current year at only 400,000,000 bushels, as compared with 768,000,000 bushels in the record shipping season of 1928-1929 and pre-war takings of around 512,000,000 bushels. Italy, France, Germany and Spain, formerly markets for from 150,000,000 bushels to 250,000,000 bushels of wheat, have become practically self-sufficing in the matter of bread grains through the operation of high tariffs and milling restrictions. Recently French and German wheat has been offered in foreign markets in competition with wheats from the principal exporting countries. Netherlands and Belgium departed from their traditional free trade policy during the current year. Belgium inaugurated a valorization plan for wheat through an import tax, while the grain trade of the Netherlands has become a Government monopoly with a central agency authorized to regulate prices. The United Kingdom now has a tariff on wheat and wheat flour imported from countries outside of the Kingdom. With the curtailment of European demand, Oriental countries became increasingly important outlets for surplus wheat but the recent imposition of duties on wheat imports into China and the maintenance of relatively high tariffs in Japan are reflected in a slackening in Oriental trade.

The headless horseman was a myth, but the headless motorist is a stark reality.

Judge—It seems to me I have seen you before.

Prisoner—You have, Your Honor; I gave your daughter singing lessons.

Judge—Thirty years.

Simpkins—I told you to beware of that fellow and that you could only believe half he says.

Jubb Oh, I knew that already, but the mistake I made was in believing the wrong half.

Smiff—Well, old Hank Casebeer has stopped worrying about going to the poorhouse.

Bjones—What do you mean?

Smiff—I mean he's there.

4-H Club News

The local high school cooking club girls gathered at the home of Mrs. D. E. Stephens for the second meeting to be held this year, on March 7. Mrs. Stephens, the local leader, took charge of the business meeting. Discussion was held concerning the demonstration teams, the dollar dinner contest and cooking exhibits at the state fair. The girls are encouraged to participate at the state fair by exhibiting, demonstrating in a team, or by entering the dollar dinner contest.

"The Moro High School Cooking Club" was decided to be an appropriate name for the club. At the following meetings this spring the entire club will give the club creed and sing national club songs as was done in this meeting.

On March 21 several demonstrations will be given by teams selected from each division.

The Katty Kamp Cookery Klub met Saturday for a camp trip. Mrs. W. B. McDonald and Mrs. Dorothy Clarke took the club members to the Cottonwood bridge for the meeting. The members present were Thirley Chapman, Vernon and Millard Melzer. The other members could not attend because they were needed at home. Each member present helped in preparing the camp and cooking the meal. After the meal was over each washed his dishes, put them away and helped clean the camp.

When all the camp work was over the members enjoyed preparing fishing tackle of bent pins, cotton string and willow poles with which they fished the muddy John Day river but were not successful in catching any fish.

A business meeting was not held because some of the members were not present. The Katty Kamp Cookery Klub was the first camp cookery club to be organized.

Millard Melzer.

Last Monday night at 7 o'clock the Camp Cookery boys had a club meeting. We did not cook anything because some of the boys could not get here in time.

We planned games while we were waiting for some of the boys to come. The meeting was called to order by President Millard Howell. There were no minutes, so we had the roll call. Joseph Morrow was absent. We then took up new business. We had a discussion about how to raise some money and we finally decided to have a dance or play.

Charles Dunlap and Robert Mitchell were appointed as a committee of two to draft some by laws and arrange a date for the club meetings and to fill out the program of work. We had no program so the meeting was adjourned.

Robert Mitchell.

The High School Cooking Club has met two times.

At the first meeting Mar. 5, officers were elected. They are as follows: Marjorie Blake, president; Rachel Poley, vice president; Vere Pike, secretary. The instruction books were distributed and several committees were appointed. It was decided that future meetings be held on Mondays.

At the second meeting the instruction books were read; also the president appointed Phyllis Dickson and Rachel Poley to demonstrate the making of soup at the next meeting which will be at the home of our club leader, Mrs. Poley.

Greta Russell.

Hurrah! The 4-H Club Projects are under way again and it seems that there is a great more interest in these various projects than in previous years.

The first meeting of the cooking club was held March 2, at the school house under the supervision of Mrs. Theo. von Borstel. The following officers were elected: Clarice Mitchell, president; Phyllis Haynes, vice president; Evelyn Davis, secretary.

Our next meeting was held at the home of Phyllis Haynes where our leader, Mrs. von Borstel, demonstrated the making of an angel food cake which proved very interesting. We also named our club The Merry Mixers. Evelyn Davis and Clarice Mitchell were appointed to demonstrate an angel cake and Virginia Helyer and Lorena Young were appointed to give a luncheon at the home of Clarice Mitchell March 14.

Every body welcome.

Virginia Helyer.

The Kent Katty Kanners held their first meeting at the school house on Tuesday with Mrs. W. A. Young as club leader. The following officers were elected: Virginia Helyer, president; Bertha Helyer, vice president; Phyllis Haynes, secretary.

We plan on having one girl give a talk each meeting on some topic which has to do with fruit. The topic for next meeting will be "The Causes For Fruit Spoilage."

The president appointed Ann Sather for song leader. Lorena Young and Phyllis Haynes were appointed as a committee to make out a schedule for our meetings.

We want you all to come and see us sometime when we get our fruit canned but don't all come at once.

The Sunshine Sewing Seven held their weekly meeting on Friday and elected officers as follows: Ann Sather, president; Clarice Mitchell, vice-
