

Eureka Lodge No. 121 A.F. & A.M.
Moro, Oregon
Meets the 1st and 3rd Thursday evenings of each month. Visiting members cordially invited to meet with us.
C. Sparling, W. M.
C. V. Belknap, Secy.

Moro Lodge No. 113, I. O. O. F.
Moro, Oregon
Meets every Monday evening in the I.O.O.F. hall. Transient and visiting brothers are cordially invited to meet with us.
Lloyd Rice, N. G.
Joe Truit, Secretary.

Lupine Rebecca Lodge No. 116
Moro, Oregon
Meets 2d and 4th Tuesdays of each month. Visiting members welcome.
Viola Hansen, N. G.
L. A. Bull, Secretary.

Town Talk
If Any-one has Died Elop'd Married Divorced Left town Had a fire Had a baby Come to visit Bought a home Committed murder Fallen from an aeroplane That's news—Telephone us, The Sherman County Journal number is 102.

Dudley's hognorn chicks. Hanson strain. All eggs from our own flock. All Sires with dam's records 250 to 327 eggs. Blood-tested 100—\$10.50; 500—\$50.00 Paul Dudley, Beaverton, Oregon.

Have two 40 h. p. tractors. Will sell reasonable or trade for horses. Write or see Wm. Endicott, Redmond, Oregon. 21-pd.

Mr. and Mrs. W. D. Wallan of Walla Walla spent several days in Moro as guests of Mr. and Mrs. J. F. Foss this week.

The Rebekah lodge held a social night Tuesday evening. Five hundred was the diversion with L. R. Conlee and Mrs. Leona Douma winning high scores and Aurelius Douma and Mrs. Hazel Woods winning low.

George Hennagin and wife returned Friday from a trip to Corvallis and Portland where they visited their son, George and daughter, Frances.

W. T. Balsiger and wife and Henry Barnum and wife were in Walla Walla last week to attend a meeting of the oil cooperatives of the northwest. They returned Thursday.

Elmer Hansen attended lodge at Moro last week from Goldendale.

Mr. and Mrs. John Foss entertained at dinner Sunday Mr. and Mrs. W. D. Wallan of Walla Walla, Mr. and Mrs. L. E. Kaseberg and Patricia, Mr. Helberg and Mr. Cummings from Eugene, Miss Valentine and Miss Dorothy Foss from Rufus, the occasion being the birthday of Miss Foss.

The Moro Rebekah lodge will give an exhibition of the work at Kent March 12.

Mrs. Jessie Henrichs entertained the dozen club Friday of last week with a party and luncheon.

Miss Marjorie Ginn and H. W. Dalby were married in The Dalles Saturday at the home of Mrs. Dalby's brother, Elwood Ginn. They were to have been married several weeks ago but postponement was necessary at that time.

Mr. and Mrs. Charles Boardman spent a few days here the last week visiting friends.

Mrs. Grace Christensen will visit the local lodge the 15th of March. She is president of the Rebekah assembly.

Mrs. George Vinton is recuperating rapidly in the Portland General hospital after an operation last week. Mrs. Geraldine Douglas of Wenatchee, Wash., is here with her father during Mrs. Vinton's absence.

Mr. and Mrs. W. Obrist of The Dalles visited here Sunday with Mrs. Obrist's sister, Mrs. O. D. Bager.

Mrs. George Williams is in Portland this week for a short visit with her children who live there.

Mr. and Mrs. Templeton spent the first days of the week in Port-

land visiting Mrs. Templeton's daughter there.

James Stewart, county stock inspector, was in Moro Thursday from Grass Valley where he has been living for the past few months.

J. B. Adams is in Portland to see his family and to do a little work around his place there.

Kendrick Dunlap left Friday for Monmouth where he will attend the formal dance at the normal school.

Mr. and Mrs. Clarence Morrison left for Portland today to take their daughter, Helen, down for dental examination.

Perry Johnston was on the sick list the first of the week with a bad cold that kept him home for a few days.

Card of Thanks
To the friends who aided us during the last illness and after the death of our husband and father, R. J. Ginn, we take this means of extending our heartfelt thanks.
The Ginn family.

MORO SCHOOL NOTES
By Anita Kenny
The band concert is to be given in the school auditorium at eight o'clock on Wednesday night, March 6. Tickets are available now and may be purchased from members of the band. Admission for adults and high school students is 25c; grade pupils, 10c. In addition to the numbers by the band there will be vaudeville presented by students that are not in the band.
As this week completed the first six weeks period of the second semester the students were given exams in most of their classes.
Mr. Knighten was at school Monday afternoon to present 4-H Club pins to members who completed their projects last year. On the same afternoon Perry Johnston began the organization of the Forestry club. Martin Melzer is to lead the club this year.
Through the International Students Society the English classes secured names and addresses of young people in foreign countries who wished to write to American students. Many of the high school students intend to correspond with these foreign scholars in connection with their English course.
The 4-H Club members were entertained by a banquet at Hotel Moro last Saturday night. The banquet was sponsored by the Commercial Club, and many of the club members spoke on memorable incidents of their club careers.
The girls were victorious in each of the last two games they played, winning from Rufus by a score of 45 to 29 last Friday night, and from Wasco by a score of 60 to 12 on Monday.
The boys lost to Rufus but de-

Small Wounds Are Dangerous To Workmen

A tiny scratch on a hand may be as dangerous as a fall from a tree, according to the 1934 accident report of Pacific Power and Light Company received here yesterday by G. L. Corey, district manager, from George I. Drennan, field superintendent of the power company.
Seventy days were lost by employees from scratches which became infected. And 98 days were lost from falls from trees.
Out of the 142,800 days worked by 510 employees of the company, only 210 were lost because of accidents—an unusually excellent record, according to the officers of groups promoting safety work in this area. All but 42 of the 210 days were lost through infection from scratches or falls from trees. Only 45 accidents occurred—none of them fatal—and only 20 were lost-time mishaps.
More persons lost time as the result of minor scratches than for any other cause, with five being forced to remain away from work from two to 32 days. Only two persons were injured in falls from trees.
Two of the most serious accidents came from infected scratches, a loss of 32 days when a worker scratched his hand on a fuel poker and a loss of 21 days when a bookkeeper cut her finger while removing carbon paper from a machine.
The Dalles District, which includes Moro, Heppner, Condon, Arlington and The Dalles, with 24 employees working a total of 6720 days, had only 7 accidents of which two were lost time mishaps, involving a total of ten days.
Education of employees in the prevention of accidents is carried

feated Wasco by one point, 24 to 23.
The games this Friday will be with Kent on the home floor.
Spring must indeed be here as marbles and baseball seem to be the two main sports with grade school pupils. Even Mr. Goddard enjoys playing marbles!

New Wheat Contract May Be Out Soon

Recent events indicate that the new AAA wheat control program expected to be much like the three year plan now being completed, will be ready for presentation in the O. S. C. extension service. E. R. Jackman, extension agronomist at the college, is now in Washington D. C. on special duty for several weeks helping to complete the final details of the contracts and campaign plans.
American farmers still face the danger of wheat surpluses in future years because of the limitations on export markets, says George E. Farrell, chief of the wheat section of the AAA.
With average yields, all domestic requirements for wheat may be met with about 50 million seeded acres, says Farrell. From six to eight million acres more will supply both domestic and present export outlets.
Before the wheat control program United States farmers planted an average of about 66 million acres, which provided from 200 million to 300 million bushels for export. Since then, however, exports of wheat have dropped to as low as 32 million bushels.
The need for maintaining national machinery by which farmers may work together in adjusting production to demand is illustrated by M. L. Wilson, assistant secretary of agriculture, by figures comparing the trend of industrial and agricultural production during the depth of the depression.
"Between 1929 and 1933 average prices of agricultural products fell 63 per cent while production was reduced only 6 per cent," says Wilson. "By way of contrast, prices of agricultural machinery fell 6 per cent, while production was reduced 60 per cent. Prices of motor vehicles fell 16 per cent, while production was reduced 80 per cent. Prices of iron and steel fell only 20 per cent but production fell 83 per cent."
"Farm prices were as putty in response to market forces, but the prices of non-agricultural products showed great resistance—Business has not abolished the law of supply and demand; it has adapted it to its own purposes. Agriculture must master the same technic for its own protection."

HEALTH BOARD WANTS FUNDS FOR SERVICES

Every since the State Board of Health was created in 1903 to guard the health of the people of Oregon, the question of how much should be spent for health protection has, of course, come up every two years, when the Legislature meets.
The present is, as all know too well, a time of especial difficulty in deciding to spend any money, what ever be the object. On the other hand, everybody knows that the United States, including the State of Oregon, is going to continue growing for an indefinite time in the future; certainly it will be long before our Nation, like others in history, turns into a decline, if it ever does so. Everybody knows that there are abundant resources of natural materials, labor, skill and machinery and capital to provide every individual in this country, including this state, a good living, and to satisfy the basic and reasonable desires of each man, woman and child. Perhaps such an ideal will never be attained. The ideal

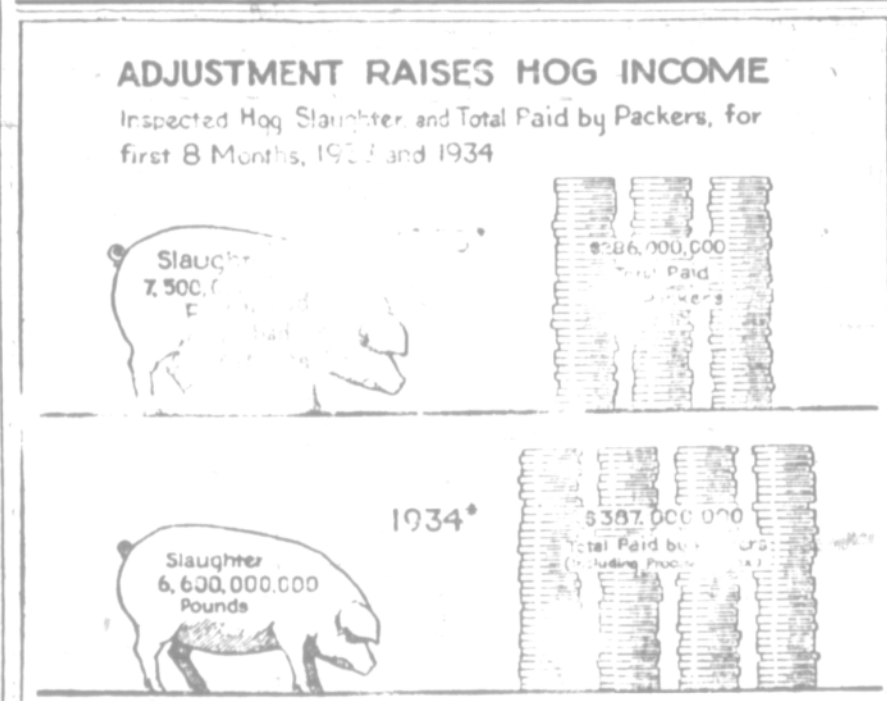

Under the reorganization plans of the army air corps the first wing is to be stationed on the Pacific with general headquarters at Hamilton field in Santa Clara County, Calif., a view of which is here given. The field is across the bay from San Francisco.

on throughout the year by the company in co-operation with the National Safety Council.

HEALTH BOARD WANTS FUNDS FOR SERVICES

and effort, however, now being put forth to work out of the plight in which a world wide economic collapse has placed America will surely result in things going on as well as they have in the past, and probably much better.
Public health work is one of many efforts, such as education, child welfare and road building, in which the present is the time of all times in the history of our nation when a let down would be harmful. Depressions, like wars, work injuries whose effects are not immediately evident, but must be combatted throughout a more or less lengthened future. To retreat now in Oregon in public health work would be as though a man should throw away his umbrella just when the rain began to fall.
During the current biennium, Oregon has conducted its public health work at a per capita of three and a half cents, as compared with an average of 15 cents for all the states in the Union. In a previous biennium the cost of Oregon was only five cents per capita. The existence of your State Board of Health has been contemporary with a reduction of every kind of communicable disease and with a marked improvement in sanitary conditions which every one who has lived in Oregon, 10, 20 or 30 years has observed. Such a service is more needed for the immediate future than ever before. We believe all earnest citizens

PRELIMINARY studies indicate that a substantial increase in hog income is resulting from the adjustment in hog marketing effected by the 1933-34 emergency hog-buying programs and the 1934 corn-hog production adjustment program of the Agricultural Adjustment Administration. The graph above shows that the total estimated cost to the packer for hogs slaughtered under inspection during the first eight months of 1934, including the processing taxes due, was approximately \$100,000,000 larger than for the corresponding period in 1933. This represents an increase of about one-third in total cost and of more than one-half in the hundred-weight cost of live animals. At the same time, the total inspected slaughter of hogs for the first eight months of 1934 was about 12 per cent under the total for the corresponding period for 1933.
A part of this gain has been due to an increase in consumer's income and to some adjustment in tonnage effected by the shortage of feed supplies resulting from drought, but production cost under the Agricultural Adjustment Act has been a large factor. It is expected that the current marketing year are expected to average higher than for several seasons.
Corn-hog farmers of the United States will have an opportunity to hold gains made this past year, by cooperating in the 1935 corn-hog program now being offered by the Agricultural Adjustment Administration.

NOTICE OF SHERIFF'S SALE OF REAL PROPERTY.

On Saturday the 16th day of March, 1935, at the hour of ten o'clock a. m. at the front door of the Courthouse in Moro, Sherman County, Oregon, I will sell at public auction to the highest bidder for cash, the following described real property located in Sherman County, Oregon, to-wit:

The Southwest Quarter and the East Half of the Southeast Quarter of Section Thirty-four, Township One North, the East Half of the Northwest Quarter, and the Northeast Quarter of the Southeast Quarter of Section Three, Township One South; the Northwest Quarter of the Northwest Quarter of Section Two; Township One South, all Range Seventeen, E. W. M., containing in all 577 acres, reserving from said mortgage a one acre tract on said premises used for a cemetery, all in Sherman County, Oregon.
Said sale is made under execution issued out of the Circuit Court of the State of Oregon for the County of Sherman, to me directed in the case of State Land Board of the State of Oregon, plaintiff, vs. Aurelia DeMoss, a widow; Elbert T. DeMoss and Maybelle DeMoss, husband and wife; Henry S. DeMoss, a single man; Sherman County, a municipal corporation; Harry B. Pinkerton; the unknown heirs of George G. DeMoss, deceased; also all other persons or parties unknown claiming any right, title, estate, lien or interest in the real estate described in the complaint herein.

HUGH CHRISMAN
Sheriff of Sherman County, Oregon.
