### Town Talk

If Any-one has Died Elopéd Married Divorced Left town Had a fire Had a baby Come to visit Bought a home Committed murder Fallen from an aeroplane That's news—Telephone us, The Sherman County Journal number is 102.

Dudley's leghorn chicks. Hanson strain. All eggs from our own flock. All Sires with dam's records 250 to 327 eggs. Blood-tested 100—\$10.50; 500—\$50.00 Paul Dudley, Beaverton, Oregon.

Have two 40 h. p. tractors. Will sell reasonable or trade for horses. Write or see Wm. Endicott. Redmond, Oregon. 2t-pd.

Phone 402 for appointments at the Sally Anne Beauty Shop.

Mrs. Sarah Huff, who often visits in Moro with Mrs. Anna Moore, passed her 95th birthday on February 11. A goodly number of these years were spent in Sherman county in its pioneer period when neighbors were neighbors and were often needed and always remembered. Mrs. Huff and the late Mrs. Powell lived across the road from each other for many years.

Charley Powell is driving a new coupe these days which is another indication of returning prosperity.

Mr. and Mrs. Giles French was in Portland Monday on business.

W. L. Fortmann of Portland was in town Wednesday on some insurance business in which he was interested.

Mrs. Charles Belshee is in a hospital in Portland for examination and medical attention. With Mr. Belshee she left Sunday.

Wily Knighten and George Vinton were in Portland over the week end to visit Mrs. Vinton who is getting along very well in a hospital there.

Walter May has a new car. bought this week, which adds something to the lineup along main street.

Andy Patjen of Shaniko was in town Wednesday to meet with the county court.

Girls who are interested in beginning or continuing with Camp Fire work will meet at the home of Mrs. Darwin Van Gilder Saturday afternoon at 2:30.

The Odd Fellows are initiating several new candidates this month and held a big meeting in Grass Valley Thursday night.

C. F. Redmond was in town Thursday on business connected with his photography studio.

Blaine Miller, Miss Josephine Johnson and Kendrick Dunlap drove to the valley last week end accompanied by Miss Georgiana Irby of Arlington.

Fred Pickett left for Seattle Thursday afternoon without making any arrangements to purchase the Moro business he contemplated for several days this week.

### CHURCHES

### MORO SCHOOL NOTES

By Anita Kenny  
The second annual band concert was given in the school gym Wednesday night to raise money to buy uniforms for the new members. The band played seven numbers: "Imp O' Luck" by J. E. Wells, "Harmony Queen" by David Coate; "At Evening Time" by Fred Jewel; "Imogene" by Clay Smith; "Atila" by Charles J. Roberts; "American Boy" by J. E. Wells; and "O-High-O" by C. L. Barnhouse. In addition to the music, there was a vaudeville by high school students, and two baritone solos by Elgin Burns of Hood River. Melba Thogerson tap danced and Doris Thompson did an interpretative dance. A cast of high school students presented a skit entitled "The Femanine Influence," and a pantomime, "The Highwayman."  
Genevieve Nahouse, captain of the girls basketball team, was hostess at a dinner party for the basketball girls, coach, and manager, at her home on Monday night. Mr. Walker expressed his ideas about the sportmanship, cooperation, and attitude of the girls, and each member of the team was called on to give their opinion of this season of basketball. The basketball champions enjoyed the evening immensely.

The girls wound up their successful basketball season last Friday night by defeating the Kent team on the Moro floor by the overwhelming score of 52 to 19.

The students received their report cards Tuesday.  
The girls completed a very successful basketball season Friday night when they won an overwhelming victory from Kent on the home floor. The girls played ten games and were undefeated each time, often winning by a very decisive score.

Opponents	Moro
Grass Valley there	11 15
Picked opponents	16 42
Kent there	15 23
Madras here	9 57
Grass Valley here	17 18
Rufus here	31 41
Wasco there	12 27
Rufus there	29 45
Wasco here	12 60
Kent here	19 52

Moro had a total of 380 points whereas they held their opponents to a total of 171; Moro averaged 38 points per game and opponents averaged 17.1 points.

High scorer for Moro was Mary Pinkerton with 142 points. Gertrude Gillmor, a freshman, was a close second with 136 points.

The lineup that started most of the games was: Captain Nahouse, Gillmor, Thompson, Fraser, Pinkerton, and Amidon. The team was strengthened by occasional substitutes, Thogerson, Strong, Morgan, Axtell, and Powell.

The success of the girls was due largely not only to the fast passing attack but to the team spirit and to the all around cooperation.

You're Telling Us! Eventually every married man learns to look at the gasoline register before he backs the car out of the garage.

## 11 WAYS TO HEALTH

By ADA R. MAYNE  
OREGON DAIRY COUNCIL

As the Lenten season approaches we find the markets stocked with many varieties of fresh fish. Fish is considered one of the low cost foods, because in most localities fish of some kind are likely to be cheap at any time of the year. Fish has high food value too, which means more than being a mere item for low cost meals.

Along with other animal foods, fish is a protein food. It is rich in minerals, and salt water fish and shell fish furnish iodine, which is important in sections where the soil and water are poor in this material. A number of varieties of fish, as salmon, halibut, cod and herring, have been found to be good sources of vitamins A and D. It is well then to use all of the oil from canned fish in order to retain the full vitamin value.

There are innumerable ways of serving fish. We are all familiar with baked or fried fish but creamed or scalloped, in baked loaves, chowders, patties or croquettes it is equally delicious and are all ways of using left-over or canned varieties. Fish forms the basis of many interesting salad and sandwich combinations too. These recipes are both favorite ways of preparing fish.

**Baked Stuffed Chinook Salmon**  
Two Salmon fillet  
One and a half tbsp lemon juice  
Salt and pepper  
Two-thirds cup buttered crumbs  
Two-thirds cup of cream or milk  
Mushroom stuffing

Brush fish with lemon juice and sprinkle with salt and pepper. Put one fillet in buttered pan or on oven proof platter. Spread with stuffing cover with remaining fillet, pour over cream or milk and bake 25 minutes in moderately hot oven (375 deg.) Sprinkle with bread crumbs and bake until crumbs are brown. Remove to hot serving dish and strain liquor remaining in pan over it.  
Stuffing: Mix one-half cup bread crumbs with 3 tablespoons melted butter and one third cup mushroom caps, cut in pieces. One half teaspoon salt and few grains of pepper.

**Codfish Souffle**  
One half cup of rice  
Two cups of milk  
One half cup of salt codfish  
One and a half tablespoons butter

**Two eggs**  
Cook the rice with milk in double boiler until tender and dry. Separate the eggs and add the yolks, well beaten; add the butter and codfish, which has been freshened by soaking in water. When the mixture is somewhat cool, fold in the egg whites, beaten stiff. Bake 30 minutes in moderate oven (375 deg.) Serve immediately, garnish with parsley and accompanied by a butter sauce.

**Butter Sauce.** Put 1-4 cup of butter in a bowl and work until creamy. Add 1-2 teaspoon of salt, 1-8 teaspoon pepper and 1-2 teaspoon finely chopped parsley, then one one-half tbsp of lemon juice very slowly.

### Accidents More Often Fatal In Rural Districts

Automobiles continued in 1934 to take the greatest toll of life, limb and property in rural districts, despite the congestion and centralization of motor vehicles in cities, according to figures compiled by the Oregon State Motor association, sponsor of the "Let's Quit Killing" safety campaign.

While traffic accidents in Oregon's urban districts increased only three percent in 1934, accidents in rural areas numbered 57 per cent more than in 1933. Rural districts recorded an increase of 50 per cent in injuries and 19 per cent in fatalities. There was an increase of only 9 per cent in injuries and 39 per cent in fatalities in urban areas.

Preliminary figures for the entire United States, according to the motor association, indicate that traffic fatalities in rural communities increased 16 per cent while those in congested areas increased only 11 per cent. Fatalities for the nation in 1934 have been estimated at 35,500, approximately two-thirds of which occurred in the country and small towns.

One explanation offered by the

## We Welcome Farm Bank Accounts

Not only that, but we believe we have a helpful service for farmer-depositors. First, there is the matter of affording record of farm income and disbursement. Second, our loan policy is liberty in respect to loans pending crop production.

Remember this bank is as close as your mail box.

Head Office: Portland, Oregon

sponsors of the "Let's Quit Killing" campaign for the lop-sided total is that too many drivers are less aware of danger on the open roads than on city streets and permit themselves to become careless and drive their machines at excessive speeds. Statistics issued by the secretary of state bear out the statement that an accident occurring on the highway is more likely to be fatal than one occurring in the city.

During 1934 there were 820 accidents on the Pacific highway alone, 36 of which proved fatal. In business sections 8386 accidents were reported, but only 23 of them proved fatal. In other words, out of every 23 accidents reported on the Pacific highway was fatal, while one out of every 390 reported in business districts, resulted in death.

### EUROPEAN CROPS LOOKING FAVORABLE

There was little change in the general wheat situation. Mild weather prevailed over the domestic winter wheat belt with beneficial rains in Central and Southeastern sections. The condition of the crop was reported fair to good in the Ohio Valley with moisture adequate for crop needs in Iowa and Missouri and eastern parts of the great plains. Severe dust storms however, occurred in western Kansas and adjoining parts of other states where drought conditions still prevail. Crop conditions in Europe remain generally favorable although the crop is rather too far advanced in France. Ample moisture was reported in Italy and the Balkans. Winter wheat acreage in Germany has been slightly reduced this season, with the acreage placed at 4,621,000 acres against 4,268,000 acres a year ago. Russia is planning to seed 57,329,000 acres of spring wheat for the 1935 harvest as against a planned acreage of 57,426,000 acreage a year ago and actual seedings of 58,977,000 acres for the 1934 crop. The Indian crop has shown some improvement recently with harvest operations expected to start soon.

Domestic markets were unsettled and fluctuating prices with futures but closed only slightly higher than a week ago, despite

rather sharp gains in the period March receipts remained small with only 412 cars received at the principal winter wheat markets and 171 cars at Minneapolis and Duluth. Flour demand failed to increase to trade expectations and milling inquiry for wheat was dull with the result that current offerings were sufficient for trade needs. Arrivals at Kansas City moved in equal proportions to mills and elevator interests. The protein of the week's receipts established a new high record with an average of 15.23 percent protein for the 69 cars tested.

### WINTER WHEAT DOING WELL

While winter wheat was in fair to good condition in the Ohio valley and also in Eastern sections of the hard winter wheat belt, extremely dry conditions still prevailed in the Western half of most plains states. Severe dust storms occurred in this area during the week and prospects for wheat are very poor. Prospects for the 1935 crop however, on the whole, appear more favorable than a year ago. European crops are generally in good condition with prospects fully up to average. Parts of Russia will need additional rains to assure favorable outturns and sections of India have suffered from lack of moisture. Some areas of North Africa are still in need of moisture but rains have recently materially improved prospects in these countries. Acreage estimates for 16 countries now total 138,803,000 acres, an increase of about 3,000,000 acres over the 1934 total for the same countries, when they accounted for about 55 per cent of the world wheat acreage outside of Russia and China.

NOTICE OF SHERIFF'S SALE OF REAL PROPERTY On Saturday the 16th day of

For your convenience I have arranged for you to leave your Shoe Work at Walter A. May & Son. Pick up and deliver twice a week at no cost to you.  
**Joseph A. Mee**  
The Wasco Shoe Man

March, 1935, at the hour of ten o'clock a. m. at the front door of the Courthouse in Moro, Sherman County, Oregon, I will sell at public auction to the highest bidder for cash, the following described real property located in Sherman County, Oregon, to-wit:

The Southwest Quarter and the East Half of the Southeast Quarter of Section Thirty-four, Township One North, the East Half of the Northwest Quarter, and the Northwest Quarter, and the Northeast Quarter, and the Northwest Quarter of Section Three, Township One South, the Northwest Quarter of the Northwest Quarter of Section Two; Township One South, all Range Seventeen, E. W. M., containing in all 577 acres, reserving from said mortgage a one acre tract on said premises used for a cemetery, all in Sherman County, Oregon.

Said sale is made under execution issued out of the Circuit Court of the State of Oregon for the County of Sherman, to me directed in the case of State Land Board of the State of Oregon, plaintiff, vs. Aurelia DeMoss, a widow; Elbert T. DeMoss and Maybelle DeMoss, husband and wife; Henry S. DeMoss, a single man; Sherman County, a municipal corporation; Harry B. Pinkerton; the unknown heirs of George G. DeMoss, deceased; also all other persons or parties unknown claiming any right, title, estate, lien or interest in the real estate described in the complaint herein.

HUGH CHRISMAN, Sheriff of Sherman County, Oregon. Publish in Feb 15, 22, March 1, 8.

## ... SHE HAS AN ALL-ELECTRIC HOME LAUNDRY!

Do you still slave for hours over your family's laundry? Or are you one of those clever homemakers who has modernized her laundry equipment as well as her kitchen? When you have an up-to-date electric washer and electric ironer, you are freed from the back-breaking labor usually connected with washing and ironing. They enable you to cut your laundry time in half. And your clothes wear longer because friction is reduced to a minimum.

**Here's an excellent washer for a low price!**  
The new Thor Super-Agitator Washer has one of the fastest washing actions ever designed. It washes seven pounds of clothing spotlessly clean in only five to seven minutes. Yet its action is so gentle that it makes clothes last 40 to 50% longer.

The mechanism, motor and legs of this sturdy washer are anchored to one heavy cast iron unit, which reduces the possibility of misalignment, noise or vibration. The tub is finished in apple-green, gold-flecked vitreous enamel, inside and out. The cover is polished aluminum. See this washer, and ask about the easy terms!

**Make ironing effortless with a THOR Automatic Ironer!**  
If you want to see how easy ironing can be, see a Thor Automatic Ironer at our local office. This ironer allows you to sit down and relax as you feed your pieces through. The strain of lifting, bending and pushing is eliminated. Another convenience is the knee control which leaves both your hands free.

This Thor Automatic Ironer does your ironing twice as fast as you can with a hand iron. It finishes up your work more attractively because of the even distribution of heat and pressure and the smoothness of the shoes. You can iron everything from sheets to shirts—even press trousers and pleats. Ask about our convenient monthly payment plan.
