

Picnic Held On E. D. McKee Lawn

Mildred Adams Visits Wasco Friends With Mother

The lawn of Mr. and Mrs. Ed McKee was the scene of a picnic luncheon on Thursday of last week with twenty five guests in attendance. Out of town guests were Mr. and Mrs. George Van Gaasbeck and son Clark and grand daughter Grace of Blalock, and Mrs. McKee's mother, Mrs. Dunlap.

Wasco won both ball games over the holidays, from Rufus with a score of 8 to 3; and with Blalock, the score being 9 to 7.

Mrs. Elva Brown and daughter Mildred Adams from Burlingame, California, spent several days visiting here with Mrs. Brown's brother and sister in law Mr. and Mrs. Bob McPherson.

Marian Tuel is spending her vacation in Portland with her grand mother, Mrs. Dixon.

Mrs. Vanlandingham and sister Mrs. Stiffel left Saturday for Portland, guests of Mr. and Mrs. F. Downs.

Mr. and Mrs. Dan McDermid and children also Mr. and Mrs. Joe Hilderbrand and daughter motored on Sunday to see the Clarno Oil Well near Fossil.

The library board met at the library room Monday evening. It was decided that the annual festival be held here September 21.

Vinton Watkins is employed again at the Rufus warehouse. Mr. Bachus of Arlington has charge of the dray during this absence.

Miss Alice Anderson of McMinnville is visiting here with Inez Fridley.

Tuesday afternoon of this week members of the garden club met at the home of Mrs. W. N. Burres for their regular meeting. The next meeting will be held in the month of September.

Mrs. A. Lundy and son Monte, celebrated here Thursday.

Mr. and Mrs. Harry Sawyer of Phoenixville, Pa., were over night guests at the home of Mr. and Mrs. R. F. Evans Sunday.

James Monroe and wife of Yakima, Wash., were guests of Mrs. Mary Knox Wednesday night.

Mr. and Mrs. Bob McPherson left Thursday of last week for Pendleton and Baker to visit relatives.

Wally Kuhnhausen of Glenwood, Wash., and J. L. Peirce of Twin, Wash., were here several days of last week at the home of Mr. and Mrs. Leo Watkins.

Louis Scholl and Charles Fields returned home after a weeks absence at Clear Lake, Montana.

Messers and Mesdames W. A. Clothier, B. W. Guy and son Gaylord, and Cecil Ward of Goldendale spent Thursday at Ten Mile.

Mr. and Mrs. G. A. Sargent, with their daughter, Jeanette, Miss Vivian Trounce and Bryan Van Gilder, drove to Cloud Cap Inn Thursday.

Jack Thompson of The Dalles is working on the farm for William Mills.

Friends of Mr. and Mrs. S. A. Porter will be glad to know that she is improving and was able to return from The Dalles Sunday after being in the hospital several months.

J. M. Yocum and Ercel Yocum of Rowena were here Thursday.

Miss Rosemary Walker visited for several days in Portland.

Mrs. Earl Richelderfer and sons Malcolm and Thyren spent last Thursday at Dufur visiting the latter's brother, Arthur Bogard.

Mr. and Mrs. G. E. Sturn and children of Boardman were here to celebrate the Fourth as guests of Mr. and Mrs. Myron Halse.

About tracks.....

Have you ever compared the track assembly of a "Caterpillar" Tractor with other track type tractors? They all look alike... but examine them closely and you'll see why "Caterpillar" track assemblies give better service.

You will find them much heavier. You will recognize better foundry work and machining. The design is simpler. The equalizer spring supports the tractor without side pull on the tracks (check this particularly). The recoil spring is covered, track adjustments are simple and positive.

See for yourself.

O'MEARA SUPPLY CO.

Mrs. Mae Michael and children of Portland are here to visit with Mrs. Michael's mother, Mrs. Kate Johnson.

F. H. Deyo of Portland is visiting with his daughter, Mrs. Francis Medler.

Mrs. Goshorn of Portland spent a week here with the Vic Smiths and Mr. and Mrs. A. M. Colbert, the latter a daughter of Mr. and Mrs. Smith visited here over the holiday.

Miss Eva Fuel returned home Sunday after visiting four weeks at Yakima with relatives.

Persons holding picnic dinners at Fleck's orchard last Thursday were. Mr. and Mrs. L. P. Haven, Mr. and Mrs. Pat Kaseberg and Mr. and Mrs. Wm. Mills and children.

A cabin plane piloted by Mr. Meadows of Portland lent zest to the celebration here the Fourth as a large number of persons availed themselves of the opportunity to take a sky ride.

A VOTE OF THANKS

By the Wasco Firemen, to T. A. Stricker for his liberal donation to us for burning his grass.

This is the first person to ever help in this way.

Wasco Firemen

Tatiana—I wonder if my husband will love me when my hair is gray?

Sonia—I don't see why not. He loved you when you had black hair he loved you when you had red hair, and he loved you when you changed to a platinum blonde, didn't he?

St Peter—Where's that fellow who arrived yesterday?

Gabriel—He checked out this morning. Heaven wasn't good enough for him. He said he came from California.

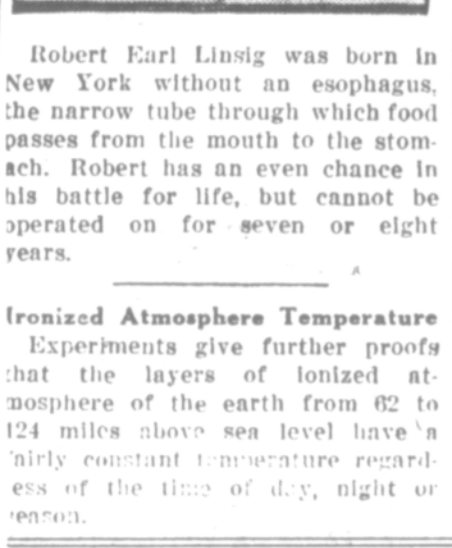

BORN WITHOUT GULLET

Robert Earl Linsig was born in New York without an esophagus, the narrow tube through which food passes from the mouth to the stomach. Robert has an even chance in his battle for life, but cannot be operated on for seven or eight years.

Ionized Atmosphere Temperature

Experiments give further proofs that the layers of ionized atmosphere of the earth from 82 to 124 miles above sea level have a fairly constant temperature regardless of the time of day, night or season.

Rain Delays Harvesting Of U. S. Wheat

CONDITIONS FAVORABLE TO RUST DEVELOPMENT IN WHEAT SECTION OF U. S.

Canada Has Good Chance For Crop With Plenty of Rain Falling

Crop developments were again the dominant influence in the wheat situation. Private agencies at the first of July forecast a winter wheat crop slightly above the official June forecast and a spring wheat harvest of around 256,000,000 bushels, compared with only 91,000,000 bushels harvested last year. The weather turned more favorable for the ripening and harvesting of winter wheat and cutting was begun as far north as southern Ohio, central portions of Indiana and Illinois and southeastern Nebraska. From the Mississippi Valley westward, harvesting was still retarded by rain. No rust damage of importance has yet occurred according to reports from field representatives of the Department. Stem and leaf rust was prevalent at the first of July in Oklahoma, Kansas, Missouri and Nebraska, but with the exception of eastern Nebraska, wheat crops are sufficiently matured that only slight damage from stem rust is probable. In the spring wheat areas, traces of stem rust were found in eastern South Dakota, western Minnesota and North Dakota. Infestation in this area however, is no more prevalent than at the same period in average years. While abundance of moisture during late May and June was favorable to the development of stem rust, the eradication of barberry is materially reducing the number of local sources of stem rust. In the spring wheat states the resistant varieties of grain are more generally grown than in former years. There is no indication at the present time that the general movement of rust from south to north is more rapid than usual.

Moisture conditions throughout Canada remained generally favorable for growing crops with dry areas confined principally to parts of lower British Columbia, districts in southern Alberta and parts of southwestern and west central Saskatchewan. Crops however, are still late and warm weather is still needed to promote growth except where moisture is limited. Wheat in Manitoba averaged about 20 inches high, in Saskatchewan 12 to 15 inches, and in Alberta 10 to 12 inches, according to the Manitoba Free Press. Some wheat is heading in Manitoba while most of the crop has reached shot blade. In Alberta, most of the wheat is just coming into shot blade. No serious losses have occurred from hail or grasshoppers.

But you no longer have to wait for cream to sour. It is now produced in the modern dairy and is made of rich cream, carefully ripened with a pure culture under controlled conditions. This insures a uniform product with its delicate characteristic flavor. More and more housewives are purchasing this sour cream because satisfactory results with it are assured.

Some unusual and delicious recipes using sour cream are:

Stuffed Tomatoes

Four good sized tomatoes
Two tsp green pepper, diced
One-half cup of bread crumbs, buttered
Six tablespoons sour cream
One-half cup of cooked veal
One and one-half teaspoon salt
One-half cup cooked rice
Four large mushrooms
Dash of pepper

Scop out about half the pulp from inside tomato. Chop out the scooped out pulp and combine with all ingredients except buttered crumbs. Neatly stuff mixture into tomatoes and cover with crumbs. Place in buttered baking dish with a little water and melted butter, and bake at 375 degrees F for about 30 minutes. Baste occasionally with liquid that accumulates in the bottom of the pan. 4 servings.

Sour Cream Cottage Cheese Pancakes

Two eggs
One-third cup of cottage cheese
One-half teaspoon baking soda
Three-fourth teaspoon salt
Three-fourths cup sour cream
One-half cup of flour if cream is thick or
Three-fourths cup if cream is thin
Beat eggs, add cheese, blend well. Sift flour, measure, resift with baking soda and salt. Blend sour

HI-WAYS TO HEALTH by ADA R. MAYNE OREGON DAIRY COUNCIL

Sour cream is considered a real find in most households. Many delicious dishes can be prepared with it. In fact, some of the most popular foreign dishes are popular because of sour cream used in their preparation. This is especially true of Russian cookery, and many of their dishes made with sour cream are accepted favorites over the world.

Baked Veal or Rabbit

One and one-half pounds veal shoulder cut in 2-inch cubes or 1 rabbit
One-eighth tsp white pepper
One and a half tsp salt
Two tablespoons butter
One cup sour cream
One-half cup water
Roll veal or rabbit in flour mixed with salt and pepper. Heat butter in skillet, add veal or rabbit and brown nicely. Add water and bake 325 degrees F, first covered for one-half hour, then uncovered for one-half hour. Add the sour cream and bake 15 minutes longer at 250 deg. F. Yield: 4 to 5 servings.

Poisoning Of Rats Saves Forage Crops

Lake County CCC Has Rodent Control Program

Lakeview—Lakeview live stock men estimate that at least \$10,000 worth of forage has been saved this spring by the poisoning of ground squirrels on 256,000 acres of land. The poisoning was done by four crews of men working most of the month of June under the supervision of J. F. Branson of the U. S. Biological survey, in cooperation with CCC camps, the Fremont National Forest Service and the county agent's office.
