

Kent Farmer Loses Buildings In Bad Fire

Margaret Dunlap Honored By Friends On Eve of Marriage

L. V. Walton had the misfortune Thursday to have his blacksmith shop, garage, windmill tower, and several barrels of fuel oil destroyed by fire. The fire was started when the pump engine backfired causing the gas to explode. Mr. and Mrs. Walton were in The Dalles at the time of the fire. The two men employed at their ranch fought hard to save the dwelling house. The fire caught in the dry grass and spread rapidly.

Miss Margaret Dunlap, bride-elect was a guest of honor at a miscellaneous shower given by Mrs. Max Plumke and Mrs. Frank Haynes at the A. A. Dunlap home Thursday evening, October 10th. Those present were: Mrs. Wily Knighten, Mrs. Ida Davis and Pauline Davis and Mrs. Perry Johnston of Moro; Mrs. G. L. Barnett and daughter Rosellen, Mrs. William Mitchell and daughters Clarice and Juanita; Mrs. Theo. von Borstel, Mrs. W. C. Helyer, Mrs. Roy Daniels, Mrs. Al fred Lyons and daughter Edna, Mrs. Jay McKay, Mrs. Clarice Sacre, Mrs. Neil McGlasson, Mrs. F. C. Darby, Mrs. W. C. Guyton; Phyllis, Laurie and Jean Haynes; Anna and Helen Sather; Maxine Plumke, Nellie Wilson, Eleanor Thurston, Irene Pottratz, Rebecca Overstreet, Alta and Geraldine Norton, Helen and Mary Lou von Borstel and Anita Dunlap. The bride-elect received a number of useful gifts. Refreshments were served by the hostesses.

Leland Barnett, son of Mr. and Mrs. R. P. Barnett was taken to The Dalles hospital Tuesday. He was operated on for appendicitis and at this writing is improving and will be home after a few more days.

Mr. and Mrs. Dick Reckman jr., and daughter Margaret were Moro visitors Tuesday.

Among those from Kent attending the stock show in Portland last week were Mr. and Mrs. L. Sather, Mr. and Mrs. A. von Borstel, Mr. and Mrs. Frank von Borstel, Mr. and Mrs. Jay McKay, Mr. and Mrs. J. S. Fritts and Bertha Helyer.

J. M. Wilson and family and Mrs. Betty Kelly were all day guests Sunday at the home of Mr. and Mrs. Paul Wilson at Antelope.

Mr. and Mrs. J. H. Wilson visited relatives in Portland last week. Also attended the stock show one day.

Mr. and Mrs. W. B. Wilson have moved their household goods to Fossil, as Mr. Wilson has employment on the ranch recently purchased there by Geo. Wilson. John K. Wilson accompanied them to Fossil where he will spend a few days.

John Decker and Marguerite Mitchell were visitors in The Dalles Saturday.

Mr. and Mrs. J. C. Wilson and daughter Nellie and Mrs. Clarice Sacre and son George were visitors at Moro Saturday.

Mr. and Mrs. W. C. Helyer and son Robert, and Mrs. Roy Daniels and son Cecil were shopping in The Dalles Monday.

Eileen Hogue of Grass Valley was a week end guest here at the home of her grand mother Mrs. B. A. Hogue.

J. E. Norton, Mr. and Mrs. J. N. MacInnes were in The Dalles Thursday acting as witnesses for John McKinnon who was proving up on his homestead east of Kent.

Mr. and Mrs. Frank Haynes were business visitors in The Dalles Friday.

United States Can Use Some Specialists

The United States Civil Service Commission has announced open competitive examinations as follows:

Associate special writer, \$3,200 a year, associate special writer and exhibits designer, \$3,200 a year, assistant special writer, \$2,600 a year, assistant special writer and exhibits designer, \$2,600 a year, Children's Bureau, Department of Labor.

Highway engineer—economists, various grades, \$2,600 to \$4,600 a year, Bureau of Public Roads, Department of Agriculture.

Certain education and experience are required for all these examinations.

Full information may be obtained from the Secretary of the United States Civil Service Board of Examiners at the post office or custom house in any city which has a post office of the first or the second class or from the United States Civil Service Commission, Washington, D. C.

THE sacks of wheat show how higher wheat prices are giving farmers more purchasing power, even without counting the adjustment payments. They show that when wheat was at a fair exchange value before the war, 15 bushels would buy a plow. In the depth of the depression in 1932 it took 27 bushels to buy the same plow, but in 1935 a farmer could buy the same plow with the money from 20 bushels of wheat. The sacks of wheat in the other squares show the purchasing power of wheat in terms of a suit of clothes, paint, and barbed wire.

An' That's How It Started

Being a fable by Hugh Kahler in The Country Gentleman.

Once they was a king and he hired him a prophet to prophet him the weather. And one evening the king he aimed to go fishing and the likeliest place was right close to his best girl's house, so the king notioned to wear his best clothes. So he asked his prophet was hit liable to come on a rain before sundown. And the prophet says:

"No, king, hit ain't a-coming on not even a sizzle-sozzle."

So the king he put in his best clothes and started towards the fishing place. And along came a farmer riding a jackass, and the farmer he says: "King, if'n you ain't aiming to git them clothes

wetted you'd best go back home, because hit's a-coming on to rain a trash-mover and a gully-washer!" And the king says: "I hired me a high wage prophet to prophet me my weather, and he allows hit ain't a-coming on even a sizzle-sozzle."

So the king he went ahead and hit come on a trash-mover and a gully-washer, and the king's clothes was wetted and his best girl she seen him and laughed. And the king went home and throwed out his prophet and he says: "Fotch me that there farmer", and they fotch him. And the king says: "Farmer, I throwed out my other prophet and I aim to hire you to prophet me my weather from this onwards."

And the farmer says: "King, I ain't no prophet. All I done this

HI-WAYS TO HEALTH

by ADA R. MAYNE

OREGON DAIRY COUNCIL

With the opening of school dentists have been busy taking care of the teeth of children. It is a wise parent who starts his children off to school with the assurance that they are in the best of health and it is not possible to be in the best physical condition with decayed or infected teeth.

A well balanced diet, which means one rich in all the dietary essentials, is the best basis for the building and protection of the teeth. Teeth are nourished from the same sources as all other parts of the body and when they fail to receive the proper nourishment they are imperfectly formed. Faulty composition of the teeth along with improper diet results in degeneration and decay.

Among the elements needed for good tooth structure, calcium and phosphorous are the most important. The chief source of these two minerals is milk. Milk is so much richer in calcium than most foods that it would be difficult to plan a diet to furnish enough of this element without milk. While the temporary teeth do not make their appearance until between six months or three years, they have begun to develop in the third month of pregnancy. At birth the first teeth are fully formed in the jaw, which means that the mother is the sole source of food for their development. Her diet must protect her own teeth and build those of her child.

The permanent teeth are already in the jaws of the baby at birth, although the first of these does not erupt until about the sixth year and the last ones near the end of the growth period. Most people do not realize that these very early years are the ones which count in the building of good teeth and that the diet must furnish the necessary building material during this period. In addition to the calcium and

phosphorous furnished chiefly by milk, vitamins D, C and A are essential to tooth formation. Vitamin D, the sunshine vitamin is supplied by foods through butter, cream, whole milk and egg yolk. Raw fruits and vegetables and their juices are the chief sources of vitamin C, while vitamin A is supplied through butter, cream, whole milk, egg yolk and vegetables.

For general good health, as well as for strong teeth, the well balanced diet of both the adult and the child (except very young children) should include the following foods:

MILK—One quart in food or as a drink. Adults may conveniently take one half or more of this amount in products made from milk.

VEGETABLES—At least two liberal servings, besides potatoe, one preferably raw green vegetable.

FRUIT—At least two, one raw as orange, or canned or fresh tomato.

WHOLE Grain Cereal—At least one liberal serving as breakfast food or bread. Foods such as hard bread or toast which must be chewed should be given young children for the development of jaws and gums.

A PROTEIN FOOD—As eggs, cheese, meat or additional milk. Enough additional food to assure growth during childhood and supply energy.

evening was look at my jackass, because if'n hit's a-coming on to rain his ears lops down, and the lower they lays the harder hit's a-coming on to rain, and this evening they was a-laying and a-lop ping."

So the king says: "Go home, farmer. I'll hire me the jackass." And that's how it started, and jackasses hev been hording all the high wage government jobs ever since.

At the soda fountain.

I want a plain soda water without flavor.

What flavor do you want it without?

What flavors have you got?

We have chocolate, pineapple, vanilla and caramel.

Well, I wanted it without raspberry.

Sorry, we're all out of raspberry. Would you just as soon have it without chocolate?

Professor: (to mother of Freshman) "Your son has a great thirst for knowledge. Where does he get it?"

Mother: "He gets the knowledge from me and the thirst from his father."

Joe Louis licked Baer, and St. Louis couldn't even lick the Cubs.

NOTICE OF HEARING ON NON-HIGH SCHOOL DISTRICT BUDGET

NOTICE IS HEREBY GIVEN that a Budget Committee of the Non-high School district of Sherman county, State of Oregon, at a meeting of said committee held on the 3rd day of October, prepared an estimate in detail of the amount of money proposed to be expended by said Non-high School District for all purposes during the fiscal school year beginning June 17, 1935, and ending June 16, 1936, and an estimate in detail of the probable receipts of said Non-high school district from all sources for the school year 1935-36. The Board of said Non-high School District has fixed the 1st day of November at the hour of 2:30 at the Court House in Moro Oregon, as the time and place at which said estimates may be discussed with the Board of said Non-high school district, at which time and place any and all persons interested will be heard for or against said tax levy, or any part thereof. That said estimates and attached original estimate sheets are on file in the office of the County School Superintendent and are there open to the inspection of all persons interested therein, and the same are by reference made a

part hereof.

CONTROLS wheat smut AT LOWER COST than any other dust

NEW IMPROVED CERESAN

Treat seed with New Improved CERESAN and you'll get effective control of stinking smut at lower cost than you can with any other dust treatment!

At the average seeding rate, less than 3c an acre buys this protection against loss. Many other advantages, too! New Improved CERESAN has been recommended by the U. S. Dept. of Agriculture. Makes almost no flying dust in treating. Can be applied by gravity treater with little labor. Will not clog or break the drill. And as a rule, increases yield! In actual tests the increase has averaged 1.13 bushels an acre on clean seed!

Use on barley, too, to control covered smut, black loose smut, stripe and seedling blight. Cereal Pamphlet 102-D free. Ask your dealer or write to Bayer-Semesan Co., Inc., Wilmington, Delaware.

TREAT SEED EVERY YEAR -IT PAYS

It's our family's whiskey, neighbor—and neighbor, it's your price.

MEET THE WILKEN FAMILY

That's me over to the left—and I'm holding a picture of my father, Harry Wilken the first, and a first-rate distiller if there ever was one. William's the one in the middle—you can't find a better warehouse man than Will anywhere. And Harry Jr. is a crackerjack at distilling. William and Harry are my own boys.

Harry E. Wilken, Sr.

75 c
Pt. No. 257C
\$1.40 Qt.
now available in Oregon

Remember—we're a family of distillers —and this is our family's whiskey!

Yes sir, my dad, Harry Wilken the first, was making whiskey way back in 1886, and what knack I've got in making whiskey smooth and mild, I guess I owe to him. He put me to work in '92, just like I've been teaching my own boys everything I know about distilling.

So when you taste this Wilken Family Whiskey, you're going to enjoy everything that three generations of this distilling family ever picked up in all their experience. Seeing I've turned out some million or so barrels of whiskey, I've naturally picked up a thing or two that'll make whiskey quite a bit tastier and smoother than you'd find under ordinary conditions. The fact is—even if it's me that shouldn't mention it—folks are saying they never yet tasted whiskey, at any price, so mild and smooth!
