Car Owners Get Bills For Liscence

Automobile owners in Oregon will receive reminders this week of the approach of another registration year, when nearly 300,000 letters are released in the mails by Earl Snell, Secretary of State.

An annual license may be purchased for five dollars (\$5.00) for private passenger cars to be registered for the year 1936. This low rate has been enjoyed by car owners for the third consecutive time. A continuation of the plan of registering motor vehicles on a calendar year basis retains Oregon on a registration schedule similar to other states in the union.

"Those desiring to make application for plates for the new season at an early date may send in their remittances together with their registration cards properly signed at any time, and plates will be mailed from Salem to reach the applicants on December 15, the first date on which 1936 licences may be used," suggests Mr. Snell.

A drawing for low licence numbers will be held on November 20, and all applications received at that time will be included. Special request numbers will not be assigned, in order to continue the expeditious handling of plates.

RUFUS SCHOOL NOTES

By Lawrence Henderson

What a game, Rufus led Moro by nine points at the half and emerged from the fray victorious with the score of 17 to 13. From the very first the game was a stiff one. Both teams, evenly matched, were fighting and fighting hard but for victory but when Rufus carried away the honors of last Thursday's volley ball game from Moro, who hasn't been beaten for approximately 25 consecutive games, that's school history—or should be. With Moro defeated once so far this year Rufus stands a very good chance of competing for the county championship, should Moro lose to Grass Valley.

For the last two weeks inter-class volleyball during the noon hour has proven an excellent means of entertainment sending children into the afternoon classes in good spirits which in turn, play quite a part in helping out grades.

Miss Valentine spent the week end with her parents in Monmouth. The Rufus basket ball schedule has been issued. The games will take place as follows:

December 6, Kent at Rufus
December 13, Rufus at Wasco
January 10, Moro at Rufus

Our school faculty was so pleased over our victory over Moro that on Friday the entire High school and upper grades of the grade school were permitted to compete in four games of basketball from 3:00 p. m. until school was dismissed.

The Arrowhead staff met last Thursday to discuss various problems confronting the staff—mainly to make our paper more interesting and to decide whether it would be wise to issue our paper twice a month or monthly as we are now doing. The changing to topic headlines was discussed as a means of improving our paper although the more frequent issuing of our paper and improvements that were discussed had not been definitely decided upon.

Mr. McKensie motored to Salem for the weekend.

We are told that the Girls League are having a tea, Friday 14th, honoring their mothers. Tap dancing and musical numbers will provide entertainment for their mothers.

Speaking of tap dancing, Miss

Valentine has been coaching several girls with surprising results. Two tap dancing numbers were given at the Moro - Rufus game as entertainment besides the regular game and the selling of candy.

Miss Murdock spent the week end with her parents in Monmouth. The Rufus basket ball schedule has been issued. The games will take place as follows:

December 6, Kent at Rufus
December 13, Rufus at Wasco
January 10, Moro at Rufus

January 24, Grass Valley at Rufus
January 31, Rufus at Kent
February 7, Wasco at Rufus
February 14, Rufus at Moro
Feb. 28, Rufus at Grass Valley

Did you know that there are three distinct types of criminals, the "born", "habitual" and "occasional"? Could you account for the rate of juvenile delinquency in the negro over the whites in the United States? Did you ever stop to think that a jury trial is a very poor way of deciding any case against a criminal because of un-

informed and inadequate jurors? Those are an example of problems discussed under the heading "Crime", one of the social problems of today, in our Civic Sociology class, the class of classes in preparing youth for the progressive future.

The Grange admitted 27 new members Thursday evening, Nov. 7, besides the election of officers, resulting in the reelection of the same officers. There is a hope of further enlargement of the Rufus Grange.

HI-WAYS TO HEALTH by ADA R. MAYNE OREGON DAIRY COUNCIL

In former days our grandmothers began getting ready for the Thanksgiving and Christmas feasts at the first cold snap in the fall. They made gallons of mince meat, even baked pies, cooked and canned pumpkin for pies and puddings and began fattening the prize turkey.

All of these things are done for us today but even so there are many foods which are prepared in the home kitchen. Instead of waiting until the rush of Thanksgiving it is a good plan to start making preparations for your dinner now.

The steamed pudding can be made early—in fact, like fruit cake, it is improved by standing. Some one has called the plum pudding the crowning glory of the holiday feast. Here is a fruit cake that will answer to this when served with a delicious hard sauce.

Holiday Plum Pudding
One cup bread crumbs
One cup chopped apples
One-half cup chopped walnuts
One-half cup flour
One-half cup salt
One-half cup milk
Two eggs, well beaten
One cup chopped suet
One-half cup brown sugar
One-half cup sliced citron
One-half teaspoon nutmeg
One-half teaspoon cloves
Two cups nectar raisins
One-half teaspoon cinnamon

Mix soft bread crumbs, finely chopped suet, apples, sugar, fruits and nuts; sift flour, spices and salt. Combine mixtures, add eggs and milk. Butter a covered mold well and dredge with sugar. Have a kettle half full of boiling water; place a rack or plate on the bottom, set the tightly covered mold on the rack and cover kettle. Keep water constantly boiling about two hours until pudding is cooked.

Hard Sauce
One-half cup butter
Two cups powdered sugar
One egg white (may be omitted)
One tsp vanilla
Cream the butter and sugar together until very smooth. Add egg white and vanilla and beat until fluffy. Chill and serve.

For a simplified and yet delicious light fruit cake this recipe is one of the best.

Golden Fruit Cake
One lb. butter
Ten eggs
Two cups fine sugar cane
Four cups sifted flour
Six oz. candied pineapple (1 cup)
Eight oz. large whole cherries, sliced
One cup sliced citron
Eight oz. pecans
Two and a half cups currents
Six cups white raisins
One-third cup cooking sherry

Cream the butter and sugar to a light fluff, then add eggs slowly, which have been well beaten. Add flour, then the sherry. After fruits have been sliced, coat them with a little flour and add all at one time to the above mixture, mixing thoroughly. Decorate top with a few whole nuts and fruits after mixture is placed in pan. Bake in 300 deg. for 2 to four hours, depending upon the size and number of pans in which cakes are baked.

NEW I. E. S. LAMPS HELP PREVENT EYESTRAIN

● If your child finds his homework difficult or you have trouble making him study, look to your lighting. Improper light makes concentration difficult as it increases eyestrain. Eventually this strain may result in defective vision.

The only way to be certain about your lighting is to have it checked with a sight meter. Then you will know not only how much light you have now, but also how much you should have for every type of visual task. Ask our nearest office to have one of our home lighting experts call at your home and make this sight meter test. Let our expert advise you about your lamps, too, and tell you more about the new sight-saving I.E.S. lamps. This service is given without charge or obligation. Please phone or write for it today.
