Moro Woman's Club Hears of Musicians

Friday November 22 the Moro Womens Club held a very interesting meeting at the home of Mrs. D. E. Stephens. After the business session Mrs. Knighten, president, turned the meeting over to Mrs. Harry Pinkerton director for the afternoon.

As this was to be a musical program Mrs. Pinkerton gave credit to the music department under the supervision of Mrs. Carroll Sayers. A clever little pianologue "Thanksgiving," was given by Mary Lou Sayers.

Four periods of music, classical, Romantic, Semi-modern and Modern, were to be studied with one composer chosen to illustrate each. For the first period Mrs. Munnemore talked of the life of Bach and Mrs. Carrol Sayers played one of his compositions.

The Romantic period was represented by Franz Schubert. Mrs. Oveson told of his life and work and the High School Girl's Trio sang "Hark, Hark the Lark."

Mrs. Poley then reviewed a book of poems, "Memory Room," by Don Blanding. Mrs. Clarence Morrison gave a sketch of the life of Serge Rachmaninoff and his prelude was played by Louise Barzee. For the Modern period interesting stories of Victor Herbert were told by Mrs. Rose and Mrs. Carrol Sayers played his well known composition "Ah, Sweet Mystery of Life."

The program of music is one that we always look forward to and this afternoon was a very enlightening as well as an entertaining one. The poetry reviewed by Mrs. Poley was a compliment to the music program.

The Freshman member is Eileen Hogue with a percentage of 1.00.

"The holidays are fun for me, too..
...since I have this electric range!"

TIRED OF COOKING DRUDGERY? Then ask your "Santa" for an electric range!

● An electric range is a mighty practical sort of Christmas gift to ask for, but it's a mighty sensible one if you're cooking by some old-fashioned method. Every time you use an electric range, you get a present of extra help, of extra time and of tastier food. Cooking electrically is a pleasure—not monotonous labor.

With an electric range a turn of a switch gives you a clean, constant, direct heat that starts food cooking at once. A temperature control does your oven watching for you. You have no blackened pans to scour. The shining porcelain enamel finish is both so beautiful and so easy to keep spotless.

Low electric rates, minimized food shrinkage, toothsome meals from less expensive foods—all these combine to make electric cooking economical cooking. Why not change to electric cooking and make this Christmas really merry? Electric ranges are very reasonably priced, and they may be purchased on convenient terms!
