## Bureau Warns Against Picture Swindlers

House-to-house solicitors are visiting homes offering FREE enlargements of photographs.

Some of these solicitors carry a bunch of envelopes. They extend them to the housewife, telling her if she is lucky enough to draw one containing a "special advertising coupon" that she will get a photograph enlargement absolutely free. The trick lies in the fact that practically every one of the envelopes contain a lucky coupon. The coupon used by one such company says:

"This certificate entitles the holder to one portrait 10 x 16 inches in size absolutely free, for the purpose of extending and advertising our business. The only condition is that you purchase the frame for this portrait from us."

The condition is printed in ordinary type and is often overlooked by the customer.

There are many variations of the photo enlargement scheme. THE PURPOSE OF ALL OF THEM IS TO SELL FRAMES. The enlargement may be technically free, but complaints in the files of the Portland Better Business Bureau prove that it is hard to get back even the original photograph unless one buys a frame.

Do not sign any memorandum for a photograph enlargement until you have read it carefully and understand it. The signed agreement fixes your obligation - not the talk of the agent.

## Lutheran Church To Hold Services Christmas Day

Christmas Service and Celebration by the Lutherans in the Methodist Church Building in Grass Valley on Dec. 25 -10:30 A.M.

The happiest season of the year is undoubtedly the Christmas season. What makes it so? Does it embrace something that prompts the entire world to observe Dec. 25?

As we notice the many and varied Christmas decorations in the homes, schools, churches, stores, etc. the throngs of people elbowing their way from counter to counter and many leaving the stores with armfuls of neatly tied gifts for the family and friends; the uncounted Christmas trees that are for sale even in the remotest and smallest town; the tons of candies nuts, cookies that are manufactured, grown, baked and find a ready market (we have not nearly exhausted our observation) we must come to the conclusion that a wonderful festival or holiday is being observed. In deed and in truth an epochal festival it is, which in particular all Christianized countries and people celebrate annually. Their chief and lasting and comforting joy is the message which rings out clear and loud. To you is born this day a Saviour, which is Christ the Lord.

God's gift to the world is His own son. His birthday we celebrate on Christmas day. The Virgin Mary is the mother of Jesus.

On Dec. 25 special Christmas services will be conducted in the Methodist Church building in Grass Valley. The children will tell us the wonderful story of Christ's nativity in Bethlehem; they will sing several Christmas songs and carols. The whole assembly will sing the old and ever new "Peace on Earth, good will to men" hymns.

The pastor will deliver a Christmas sermon dwelling on the Christ Child in the manger. Church service begins at 10:30 o'clock. If you are interested in hearing and witnessing the true Christmas message, free from Santa Claus adulteration and other church desecrating practices you will be welcome. An invitation is extended to all.

Please note that church service will be conducted regularly in the coming months. The first and third Sundays are the days. An opportunity is offered to all attendants to become acquainted with the doctrine of salvation. "Glory to God in the highest, and on earth peace, good will to men"

H. H. Fleckenstein, missionary

**AN ELECTRIC RANGE**

Have you told your 'Santa' how much work and worry electric cookery would save you?

Are you still grubbing along cooking by some antiquated, inconvenient method? Then you should give your "Santa" immediate notice that you want an electric range for Christmas. And if yours is a really considerate husband, he will do his best to see that your wish comes true.

When you have an electric range, a turn of a switch gives you clean, glowing, intense heat that starts food cooking at once. Without any effort, you always have off the fuel you need.

Your oven will stay constantly at any temperature you wish due to the vigilance of the oven heat control.

Your pans never become blackened. Only a swish of a damp cloth is needed to keep the porcelain enamel finish of an electric range gleaming and immaculate.

You have less food shrinkage. And even cheaper foods become tender and delicious because waterless cookery is so easy with an electric range.

Don't think that you can't afford the convenience of electric cookery. Domestic electric rates are low. Electric ranges are very reasonably priced, and they are offered on convenient terms. Visit any dealer's or our nearest office today. Let us prove that electric cooking is economical cooking.
