The ladies of the Methodist church are giving a St. Patrick's tea Wednesday the 18th of March.

The Ladies Aid met with Mrs. Elizabeth Fuller on Thursday afternoon.

Extra—If that's your pork out there in the yard, you had better go out and get it.

Eben—Pork? I guess you mean pig, don't you?

Extra—Nope. It's been pork ever since that last car went along.

FIRST IN DIESEL TRACTOR PRODUCTION!

Power users the world over are saying it with orders—their votes make "Caterpillar" Tractor Co. the world's largest builder of Diesel-powered, track-type tractors. These same well qualified "voters" enabled Caterpillar Tractor Co., every year since it was organized, to sell more track-type tractors than all other manufacturers put together. The reason for this supremacy can guide you to Diesel tractor satisfaction.

Advertising Agent Promoted

On the left is H. B. Northcott, advertising agent of the Union Pacific Railroad Company, who has been promoted to assistant general passenger agent of that company. On the right is C. P. Moore who succeeds to the advertising post.

Promotion of Horace B. Northcott, for the past six years advertising agent of the Union Pacific Railroad, to assistant general passenger agent with headquarters at Omaha, has been announced by W. S. Basinger, passenger traffic manager. C. P. Moore, who has been chief of the correspondence bureau of the general passenger department, has been appointed advertising agent succeeding Mr. Northcott. Gaylord Anderson, secretary to Mr. Basinger, will succeed Mr. Moore as correspondence bureau chief.

Following the World War Mr. Northcott became associated with the United States railroad administration travel bureau at Chicago and at the end of federal control went with the department of tours maintained by the Union Pacific and Chicago & North Western in Chicago, serving as city passenger

agent, traveling agent and chief clerk. In 1927 he came to Omaha as chief of the correspondence bureau and was appointed advertising agent January 1, 1929. In the succeeding years he became one of the most widely known railroad advertising agents in the United States. In addition to his new passenger duties Mr. Northcott will continue to have general supervision over advertising.

Mr. Moore became associated with the Union Pacific in 1922 in the passenger traffic department serving as secretary to the general passenger agent. In 1929 he was transferred to the advertising department where he has been in charge of direct mail advertising activities in the travel bureau. He is a native of Omaha, a graduate of the Omaha public schools and South high school.

HI-WAYS TO HEALTH by ADA R. MAYNE OREGON DAIRY COUNCIL

Emerging from a real cold snap and being as nearly snow bound as we ever become in Oregon, we are greatly cheered by being served something fresh and springlike, evidence that spring isn't too far distant. Rhubarb is on the market, even though spring has not decidedly not been in the air.

But for that reason, perhaps, it is doubly welcome, giving us that fresh different something we have been wanting a long time.

As to food value, rhubarb is in the family with greens of all kinds - spinach, dandelions and so on. It seems that "Pop-eye" the famous cartoon character, has done children throughout our country a real service by popularizing this family. We are all well aware that spinach is his favorite food and has for him remarkable strength-giving qualities. But each member of this family is important for its mineral and vitamin content. Moreover they are inexpensive and available and offer any number of possibilities for really tasty dishes.

Although rhubarb sauce and rhubarb pie are always favorites there are other ways of using it. Have you ever tried rhubarb for the fruit in a baked pudding or in a delicious frozen dessert? Recipes for these unusual desserts are given here.

RHUBARB SHERBERT

One bunch rhubarb (5 cups)
Two cups crushed pineapple
One cup of sugar
One and three-fourths cups cream
Cook rhubarb and pineapple until rhubarb is tender. Add sugar. Stir until sugar is completely dissolved

RHUBARB PUDDING

Three cups rhubarb
One cup sugar
One tablespoon of butter
One egg, 1 cup sugar
One tablespoon of melted butter
Two thirds cup of sweet milk
One cup of flour
One teaspoon baking powder

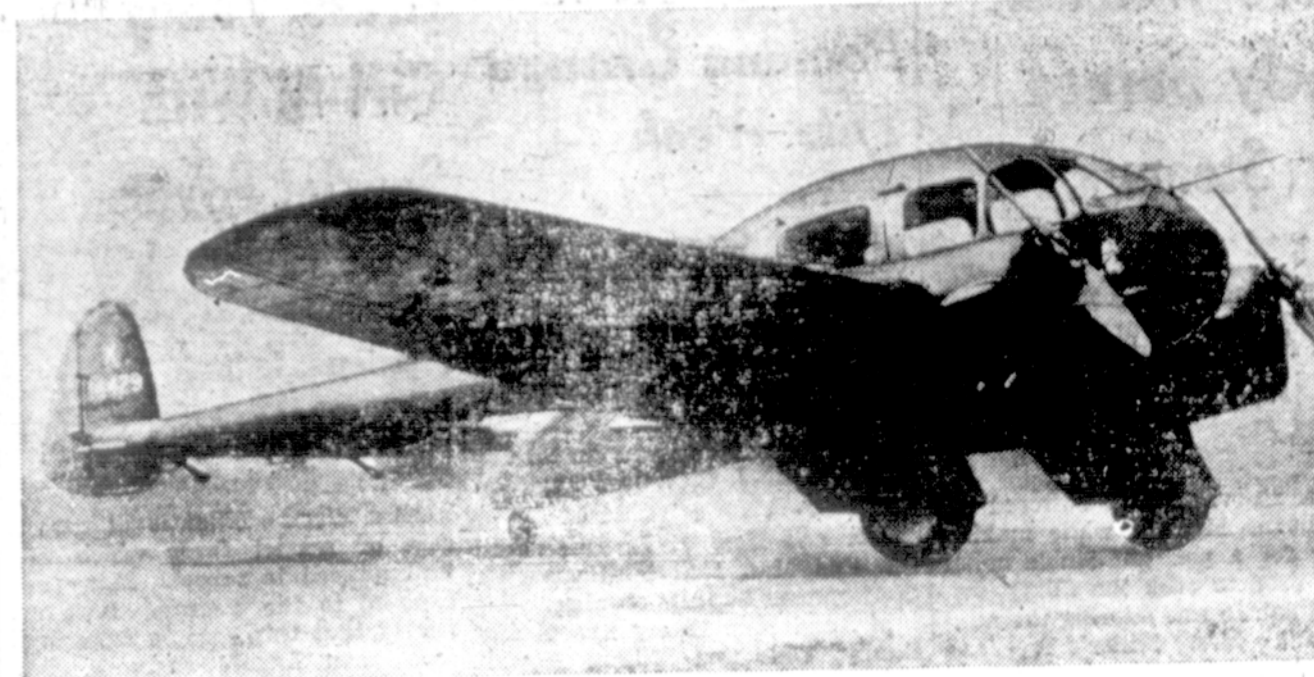

Turn the fruit into a buttered baking dish. It should be a fairly deep one to accommodate the batter which goes on top of fruit. Sprinkle fruit with the cup of sugar and dot with butter. Make a batter of the egg, half cup sugar, melted butter, milk and flour, which has been sifted with the baking powder. Pour this batter over the fruit and bake in a moderate oven - 350 degrees - for about 30 minutes. Serve with plain cream.

Rhubarb and Coconut Pudding

One pound of rhubarb
1 cup moist shredded coconut
2 tbsp water
1 cup brown sugar
4 tbsp butter
1 cup flour

Cut the rhubarb in half inch lengths and turn it with the shredded coconut into a buttered casserole. Dot with butter and sprinkle with the two tablespoons of water. Mix together the brown sugar and flour and pat this down over the top of the fruit. Bake in moderate oven, 325 deg., covered for about 1 hour. Serve warm with plain cream.

Plane That Can Cross Atlantic in 12 Hours

This queer-looking but speedy craft is the "Crusader," newly-built plane which could get you to Europe in 12 hours, if you so wished. The craft, designed by Thomas M. Shelton, will travel at a height of 26,000 feet and will make 300 miles an hour at cruising speed. The plane will make a Miami-Chicago hop shortly.

State To Retire From Flax Industry

The state will retire from the flax industry as soon as farmers cooperatives, now organizing, are prepared to take over the retting and scutching of the crop. This is not expected to occur for several years yet, however. Three cooperative plants are expected to be in position to handle the Clackamas, Marion and Lane county flax crops this year and the state prison plant will be devoted to development of flax growing in Polk, Linn and Benton counties until cooperatives are formed to take care of the crops there.

Index Numbrs of Farm Prices In January Given

Horses and hogs are shown to be above or near the 1926-1930 average; butterfat, lambs, wool, potatoes and hay from 20 to 25 per cent below it, and with hops, dried prunes and apples at the lower end of the scale.

Index numbers of January farm prices of representative commodities in Oregon in percentage of the 1926-1930 average given in the report include eggs 64, chickens 73, butterfat 81, milk cows 65, hogs 93, sheep 57, lambs 79, wool 78, beef cattle 63, veal calves 72,

State To Retire From Flax Industry

much seed as the old strains. A small plot of the new strain of English rye grass was grown last year by Antone Evers of Forest Grove.

Another crop that is beginning to attract attention as a pasture possibility is yellow trefoil, some times known as black medic, which grows wild over much of eastern Oregon and parts of western Oregon. This plant looks like alfalfa, but has formerly been regarded as a weed. Jackman reports, however, that he has recently received a number of letters from eastern and southern experiment stations inquiring about a source of seed of this plant. The Cornell experiment station is recommending it for use in pasture mixtures in the state of New York.

Deigh—What happened to you and the school teacher. You said you were going to marry her.

Knight—Well, I got to thinking what a job it would be to write "I must be home by 10 o'clock" a hundred or so times every time I came home late.

Does young Bilkins have much earning capacity? Considerable; but it doesn't begin to keep up with his wife's yearning capacity.

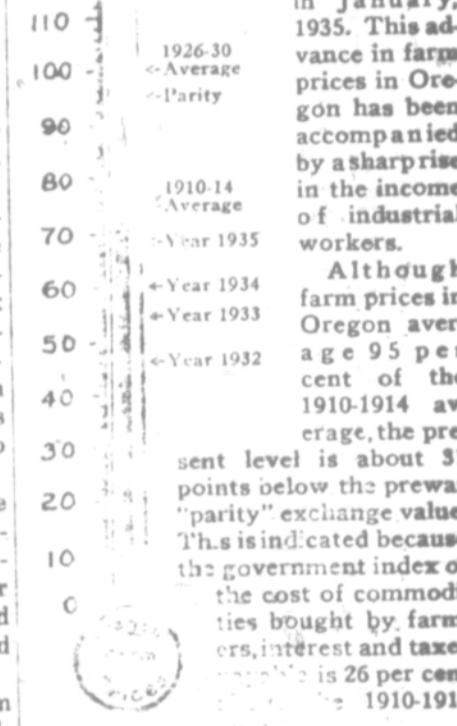

Bolder—They tell me your wife has a lot of will power.

Meeker—Yes; but that's nothing compared to her won't power.

horses 132, wheat 70, oats 66, barley 65, hay 75, potatoes 79, hops 45, apples 57, and dried prunes 56

At mid-February, the general level of farm prices was practically unchanged in Oregon compared with January 15, when the Oregon index of average farm prices was at 72 per cent of the 1926-1930 average, against 72 a month previous and 66 in January, 1935. This advance in farm prices in Oregon has been accompanied by a sharp rise in the income of industrial workers.

Although farm prices in Oregon average 95 per cent of the 1910-1914 average, the present level is about 31 points below the prewar "parity" exchange value. This is indicated because the government index of the cost of commodities bought by farmers, interest and taxes is 26 per cent below the 1910-1914

at the level of the annual cash

Me and the boys are responsible for every drop

Yes, sir, you're tasting the real family's whiskey of us Wilkens—and I've put all the knack I got out of my 40 or so years of experience into it. When you taste how licking good it is, I miss my guess if you don't say the Wilkens done mighty well by you. That's me on the label in the middle and my boys beside me—Harry Jr. at the left and William at the right.

P. S.—Free, a copy of our Wilken Family Cooking Album if you'll write me at The Maples, R. F. D. No. 3, Schenley, Pa.
