Depositors of the old First National Bank of The Dalles are rejoicing over the news that the United States National Bank has just purchased the five story building occupied by its branch at Washington and Third Streets in The Dalles.

This purchase by The United States National provides a substantial sum which will go to the benefit of the depositors of the Old First National. It increases the bank's investment in The Dalles and makes it one of the large prop erty owners and taxpayers of the county.

wood? This may not be Holly- wood, nevertheless we might at any time see Miss Murdock, or any other member of the faculty ped- dling non-chalantly down the avenue. (Miss Murdock has pur- chased a brand-spanking new bike and there are rumors of more of the knee-action velocipedes com- ing into the community.)

The Junior High Tournament in The Dalles last Saturday resulted, in as much as our school is con- cerned, in a defeat of one point. The team, coached by Mr. Mc- Kenzie was beaten by St. Mary's Academy by the 13-12 final score.

The athletics of Sherman county high schools for the remainder of the year were discussed at the Principal's Convention at Moro last Saturday evening. Among the activities reviewed were band con- certs, typing contests, and several other probable competitive func- tions which dates are out and the places for them selected.

Both Rufus Teams Win From Moro

By Lawrence Henderson

On last Friday the dual game with Moro on their floor wound up rather disastrously—for them. Somehow or other the Rufus teams found themselves able to return, elated and in fine spirits, as both the boys and girls won by a wide margin.

Last Monday an interesting discussion arose from the members of a panel over the question of our present jury system. We might call it a draw as no definite decision could be determined from such a conglomeration of facts as were presented there. Frankly, this system of discussing a question orally is gradually proving more successful and fascinating than long drawn out essay writing, and strange as it may seem, ap- pears to be teaching the civics students how to develop that es- sential characteristic of construc- tive thinking.

In the face of a two day dis- continuation of school here, the six-weeks examinations were de- layed an entire week, the students just having completed them this week. As an after thought, school was discontinued because of a rather "measley" condition in our locality.

At last we have distinctly not- iced a movement of progress—that of keeping in step with the times. Haven't we heard that is fash- ionable to ride bicycles in Holly-

Grass Valley Quintet Defeated By Umapine

By Janet Wilcox

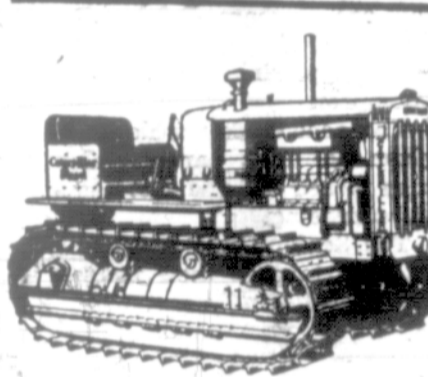

At the tournament in Heppner, the Grass Valley Quintet were defeated in a very close game by Umapine. The final score was 30 to 26. By defeating Maupin by a score of 42 to 17, Umapine won the Championship of the tournament.

After winning the Championship of the county, the Grass Valley team went farther than any Sher- man county team has for a long time.

The Glee Club is working hard in order to get the Operetta "Down the Oregon Trail," ready for pre- sentation by Friday, March 20. This operetta was written by C. P. Rowe and will be directed by Miss Hickson. It will have to do with the pioneers crossing the plains.

The honor roll for this six weeks period showed a dropping off of several students. Those Seniors on the honor roll are: Keith Rine- hart, 1.00, and Janet Wilcox, 1.00. The Junior is Frances Fairchild, 1.50. The Sophomore is Ramona Spore, 1.25. The Freshman is Eileen Hogue, 1.25.

The high school dance presented by the Girls League in honor of the championship basketball teams is being given Friday 13. The de- coration theme will be in honor of Saint Patrick.

ALERT PERFORMANCE ON LOW COST FUELS

The "Caterpillar" Twenty-Two Tractor has an advanced 3-way heat control system, to maintain proper engine tem- perature to run on the low cost "tractor fuels." Owners re- port getting alert power on "stove tops," distillates etc. with out overheating and with- out harmful dilution. You'd be surprised on how few gal- lons the Twenty-Two does a big day's work delivering its 3-4 plow power.

Make laundering one of your Easiest household tasks

.. by making your home laundry all-electric!

Decide now to banish laundrin- gery from your home. You can if you make up your mind to have an electric washer, an electric ironer and an automatic electric water heater correctly placed in a care- fully planned laundry. You will know maximum efficiency with minimum of labor. Your clothe will last longer and be more attrac- tively finished. And your launde- ing time will be greatly reduced.

That prominent home service ad- visor, Jeannette Cramer, has de- signed laundries for 6 typical loca- tions to serve as a basis for you planning. These plans are avail- able without charge at your nearest P. P & L. Co. office, and we are glad to have you ask for them. No matter if you must buy your electric ironer washer and water heater one appli- ance at a time. The important thing is to have a plan and to work toward the completion of that plan as you buy equipment.

These 3 appliances belong in every home laundry

ELECTRIC WASHER Modern electric washers are kind to even the most deli- cate fabrics. Yet so efficient in their washing action that every trace of dirt is swished away in 5 to 7 minutes. The wringers are re- markable, too. From paper-thin pieces, from bulky pieces, water is extracted equally well without your hav- ing to adjust the wringers in any way. Both washers and wring- ers are built to give years of trouble-free service.	ELECTRIC IRONER The electric ironer was designed to take the back- ache out of ironing. And it certainly does that! You sit com- fortably and feed your damp- ened pieces through so easily. The ironer exerts all the pres- sure—not you. It also frees you from lifting and pushing. Your pieces are finished with a truly professional look. Best of all, your ironing is completed in half the time formerly required.	ELECTRIC WATER HEATER When you have an automatic electric water heater, you not only have abundant hot water for laun- dering, but also have it for any use when- ever you turn a faucet—day or night, winter or summer. No waiting—no fir- ing up—no heating water on top of the stove—no holding a fire just for hot water—in fact, no bother at all! It's just as if you had an ever-flowing hot spring in your home. Investigate this service.
