

Wasco Masons Attend Picnic At Dufur Sunday

Hennagin Family Spend Week End Visiting In Bend

The Masonic picnic held at Dufur Sunday was enjoyed by the following couples: Messrs and Mesdames L. L. Funk, William Nisbit, W. R. Reid, Chas. Everett, A. J. Smith, G. H. Root and H. D. Proudfoot.

Mrs. A. B. Potter entertained the Klondike club members at her home Thursday afternoon.

Miss Jeanette Sargent left for Willamette university Sunday after remaining at home on account of illness for a week.

Mrs. S. J. Brock and Mrs. J. R. Yocum attended the fiftieth assembly of Rebekahs as local delegates. The meeting was held at Roseburg May 17 to 21.

Miss Katherine Johnson was called home due to the illness of her father, C. W. Johnson.

Sunday guests at the Oscar Humburg home were George Root and daughter, Dorothy and Marjorie Patterson of Hillsboro.

Mr. and Mrs. Lloyd Hennagin and children and Mrs. Maude Akers drove to Bend where they visited at the Carrol Akers home over the week end. Mr. Hennagin reported a catch of 17 big trout.

Rex Kaseberg will be coach and science teacher at Culver next year.

Mrs. Ed Alley and Mrs. Tom Alley of Grass Valley were Sunday visitors at the home of Mrs. Minnie McKinney.

Jack McMillan returned to his home at Post last week.

Mrs. Eliza Dingle and brother, Ed Smith, motored to Camp Sherman Monday of this week for a stay of two weeks.

Wayne Darby and pupil, Mr. Rabinskola of Culver, visited over the week end with his mother, Mrs. Lydia Darby and home folks.

Professor and Mrs. Isaac O. Pullman, Washington, were over night guests Friday at the home of Mrs. Augusta Huckin.

Mr. and Mrs. Ed Feldman enjoyed a picnic at Bonneville where they met with their son and daughter, Mr. and Mrs. Wm. Hulitz.

Thursday contract club members met with Mrs. Glen King at Grass Valley May 14. Mrs. A. C. Kaseberg and Mrs. Lewis Hastings won high places at cards.

Mrs. V. R. Rust and Mrs. E. A. Medler won high score prizes when Mrs. J. M. Stevenson entertained the Webfoot five hundred club at luncheon last week. Three tables were in play.

Epworth league members of the M. E. church were accompanied by Rev. R. T. Cookingham and wife spent Saturday on a picnic at Dufur.

Freda Mae Rice of The Dalles visited Friday with her parents, Mr. and Mrs. W. B. Rice.

Mrs. Downs of Portland has been a house guest of Mr. and Mrs. Charles Harper leaving for home Thursday.

Belle Clothier was at Pullman visiting with Augusta Huckin over the week end.

Ladies of the Dorcas Aid are inviting friends to attend their silver tea at the home of Mrs. J. H. Johnson Friday afternoon.

Mr. and Mrs. Marion Powell were Wasco visitors Saturday from Moro.

The Ever-Faithful Sunday School class met Wednesday the 13th at the home of Mrs. W. A. Medler, Mr. Charles Carey gave a vocal solo, Mrs. George Lamborn gave a Bible talk and Mrs. Elizabeth Dingle gave interesting views of her trip abroad.

Mr. and Mrs. C. N. Fridley spent several days visiting in Portland. A no host luncheon was enjoyed at the home of Mrs. Ida Andrews by members of the Tuesday Study club, followed by a short business session and a social afternoon.

Mrs. R. T. Dingle was taken to The Dalles hospital Sunday after a car crash at Rufus in which she received a broken breast bone and bruises.

Mrs. J. C. McDermid and Mrs. Harry Van Gilder were hostesses Tuesday afternoon at the home of Mrs. McDermid entertaining her friends at dessert luncheon followed by four tables of bridge. The color scheme was yellow including yellow tulips. Prizes were received by Mrs. T. L. Fields and Mrs. Darwin Van Gilder of Moro.

Mrs. H. D. Proudfoot and Mrs. G. H. Root were hostesses Wednesday at the home of the former. Cards were played at five tables and Mrs. E. H. Moore of Moro won high honors and Mrs. H. A. Walker second. The room and tables were beautifully decorated with iris blooms and the place cards had decorative motifs of iris.

The same hostesses entertained at a similar party Tuesday afternoon at which Mrs. Marie Barnett Cooper won high score and Mrs. L. R. Walsh second.

Guests at the home of Mr. and

Mumford Tell Of New Program In Corvallis

A farm program kept closely in line with local needs and in harmony with the best practices advocated by the state college experiment stations is the objective of the Agricultural Adjustment administration, declared Dr. D. C. Mumford of the western regional staff on a recent visit to Corvallis to confer with staff members of the college, who are active in inaugurating the new agricultural conservation program.

Dr. Mumford, who is assistant to George E. Farrell, regional director for the western states, arrived in Oregon from Washington D. C., immediately following the announcement of the detailed rates of payment for soil building practices under the act. He conferred with the Oregon technical committee regarding those rates and discussed with the members suggested additions and minor modifications.

In general it was agreed that the new rate schedule which includes a number of practices heretofore in doubt, will tend to raise the standard of farming in the state and further the objectives of the act, which are to conserve the soil for present and future generations and decrease the relative volume of soil depleting crops now troubled with non-exportable surpluses.

Chief among the new rulings of importance to Oregon are the inclusion of weed control as a soil building practice, classification of summer fallow as soil depleting acreage, and the re-classification of orchards of all ages as soil depleting if clean cultivated or interplanted to soil depleting crops. Renewed attempts are being made to include liming as an approved soil building practice.

Control of perennial noxious weeds according to methods approved by the state college specialists will qualify for payments of \$10 an acre, if chemical treatment is used, and \$5 an acre if clean cultivation is practiced. Weeds of most importance to Oregon included in the list are morning glory, white top, Canada thistle and Russian knapweed.

The change in classification of orchards is of importance in encouraging the practice of growing green manure crops for prevention of erosion and to maintain soil fertility. Rates of payment are \$2 an acre for green manure crops seeded on crop land between the fall of 1935 and July 31, 1936 and grown and turned under prior to October 31, October 31 is the closing date for most 1936 practices.

In regard to summer fallow, provision is also made for payments of from 50c to 75c an acre for various erosion preventing fallow practices, such as trashy, strip and contour strip fallowing. Fallow so treated can be counted in establishing a farm's soil building allowance, but not in the soil conserving crop total unless it is seeded this fall to grass or legumes.

Detailed rates on all Oregon soil building practices are now in the hands of county agents and county committeemen.

Mrs. H. D. Proudfoot last Wednesday were Mrs. John Silvertooth and Mrs. Viv Bolton of Astelope.

Mrs. Virginia Petron now staying at the G. H. Root home spent several weeks at her home in Albany. She was called to attend the funeral of her father.

Dr. and Mrs. Viggo Haufelt were present at the clinic held in Portland Saturday.

Mr. and Mrs. Claude Eaton are out of town for two weeks as Mr. Eaton is stationed at Albany for the Union Oil company.

Townspeople in The Dalles Wednesday were Mrs. Joe Hilderbrand, Mr. and Mrs. J. F. Royle, Mrs. Hugh Herin and Mrs. R. T. Evans. Coleen Franz, now of Yakima, is a guest at the home of her grand mother, Mrs. Helen Dingle.

The Mary Elizabeth class met Wednesday at the home of Mrs. E. D. McKee for their business and social afternoon. Mrs. Harry Van Gilder gave the Bible talk.

Word was received here by relatives of Mrs. George Matteson who is living at Modesto, Cal., that she is seriously ill.

Mose—Come here, quick Mandy, the baby's got something in his diaphragm.

Mandy (on the run)—Laws sakes! eff dat don't beat all—and I jess done put it on him.

Geyser Forms Giant Mushroom

PHOTO BY UNION PACIFIC RAILROAD

AN UNUSUAL PHOTOGRAPH of the world famous Old Faithful Geyser in Yellowstone National Park. With clock-like regularity Old Faithful spouts a mighty stream of boiling water 120 feet into the air, preceding this performance with a growling, rumbling, hissing prologue. The capriciousness of wind and clouds sometimes forms unique pictures in combination with the mighty water gusher.

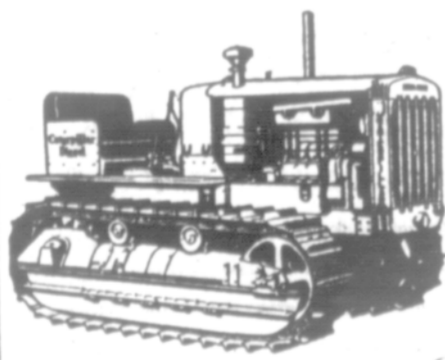

Land Buying Made Easy In Northwest

Through research being conducted by the land use section of the resettlement administration in 20 Oregon, Washington and Idaho counties, a farmer planning to buy land may study school costs, tax rates, percentage of families tax delinquent or on relief, types of agriculture found to be successful, acreage needed, location of market roads, power lines, public improvements and the trend of probable future settlement, along with other facts that will help him make an intelligent judgment as to the success of his new venture.

Oregon Journal Editor Lauds Newspaper Men

"One newspaper editor in each county, telling the truth courageously, fearing neither man nor devil, wearing no man's collar, swerving neither to the right nor left through fear of advertising loss, determined to do his duty to his readers, his God and his own conscience—I say one such editor and his fellows can save the state from selfishness, partisanship, the

Only \$13 Repair Cost in 2 Years on this "CATERPILLAR" DIESEL

2 years hard work
No trouble
Sure starting
Needed no service
2 years fuel \$238.

Odeesa, Wash. April 24, 1936.

Caterpillar Tractor Co. Peoria, Illinois

Gentlemen: I have operated one of your Diesel 35's on my 2000 acre farm since February 1934 pulling 194 feet of Disc Tiller, 36 feet of Rod Weeder, 3-18-7-hoe drills with packers attached. In harvest I use a Model 36 "Caterpillar" Harvester with 20 foot header. I have a few very steep grades but have no trouble pulling up anywhere where it is practical to farm.

I am now in my third year's operation and have never had any trouble of any kind. The starting system has never failed once and I think it is superior to any other system that I know about. I have never had any free service or repairs furnished by the factory because I have never needed any. The only free service that has been necessary was on my oil pump. The serviceman adjusted the pressure once.

I have spent \$238.00 to date for fuel and my repair bill has been slightly in excess of \$13.00 for a set of rings.

Yours very truly,
(signed) Fred Heimbigner.

Declare for kitchen freedom and tastier meals

by changing to clean, convenient Electric Cooking!

● Tired of slaving long hours over a hot stove? Tired of lugging in fuel? Tired of discouraging results day after day?

You owe it to yourself to change to electric cooking. You should have a range that directs all of its surface heat into utensils and that retains oven heat where it belongs. You should have a range that begins working for you as soon as you snap a switch. You should have a range that you can control as you desire—one whose oven temperature remains uniform throughout baking or roasting.

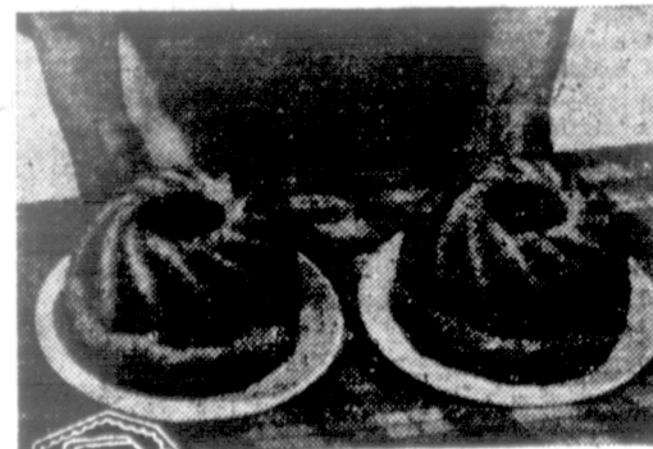

You enjoy all of these advantages when you have an electric range. And you enjoy them at low cost, too. For low electric rates, elimination of cooking failures and savings in cleaning and decorating bring distinct economies.

Modern electric ranges are very reasonably priced. They are sturdily constructed to give years of carefree service. They are finished in durable porcelain enamel that stays bright and shining and easy to clean. Their designs are based on simple lines that will stay in style.

Don't just long to cook electrically—act now! Visit any dealer in electrical equipment or our nearest office today.

See the new electric ranges and all the handy features they contain.

But don't stop there. Inspect the new electric refrigerators and water heaters, too. You're certainly going to want to build toward an all-electric kitchen once you enjoy the conveniences of electric cooking.

Uniform Results

The ovens of electric ranges aren't temperamental. After you set the oven temperature control for the correct heat, your worries are over. When the baking time for your cake, pastry or bread has elapsed, you know that it's perfectly raised and browned, ready to remove. No guesswork—no oven peeking.
