### Club Boys and Girls Do More Work This Year

Four-H club boys and girls of Oregon rolled up a new record in number of projects carried during the past year, with a total of 22,313 members enrolled in 2308 standard clubs, according to the annual report recently filed by State Club Leader H. C. Seymour. This was an increase of 1676 members and 216 clubs over the previous year. Club work was conducted in every county in the state.

The value of club work in dollars and cents was also considerably increased, Mr. Seymour's figures show. Completed projects for 1935 had a gross value of \$228,221.43, a cost of \$143,661.47 and a net profit of \$84,559.96 as compared to a gross value of \$193,912.63 and a net profit of \$74,084.66 in 1934.

Twenty-seven different kinds of projects were carried by Oregon Clubs last year, although not all of these are recommended as standard or state-wide projects. The clothing project proved the most popular, with 5,226 members enrolled in 629 clubs. Cookery was next with 4,909 members in 540 clubs, followed by health and growth with 3,561 members in 249 clubs; dairy calf with 1,101 members in 136 clubs; gardening with 872 members in 96 clubs; marketing with 859 members in 63 clubs; handicraft with 788 members in 90 clubs; and forestry with 756 members in 81 clubs.

#### Stock Clubs Numerous

Other projects in which Oregon 4-H club members engaged last year were swine, sheep, beef calf, dairy record keeping, goat, poultry, corn, potatoes, wheat, canning, homemaking, room improvement, home beautification, rabbit, bee, farm accounting, forage, rose and flower, pigeon, colt, art, household engineering, building, rodent control, agricultural engineering, seed production, gas engine, range management, and quilting.

Lane county had the largest club enrollment, with 3,556 boys and girls enrolled in 262 clubs. The City of Portland was next with 2,131 members and 256 clubs, followed by Douglas with 1,762 members and 142 clubs; Clackamas with 1,709 members and 157 clubs; Linn with 1,202 members and 138 clubs and Marion with 1,108 members and 124 clubs.

Douglas county had the highest percentage of members completing the projects, and Clackamas clubbers showed the greatest monetary value for their work. Mr. Seymour pointed out that "local leaders form the real backbone of club work throughout the state" and deserve a great deal of credit for their unselfish service to the boys and girls of Oregon.

## Electric Cooking gives LUXURY FLAVOR TO ECONOMY MEALS

**It's easy to be thrifty when you have an electric range!**

- Inexpensive meals don't mean plain, unappetizing meals to owners of electric ranges. Far from it! Low-cost meats prepared in the cooker pot or in the moist-heat, no-draft oven of an electric range reveal thrilling and unsuspected flavors. And such tenderness, too!
- With an electric range, it's so easy to cook vegetables the waterless way. Because all the natural minerals, vitamins and flavors are retained, even ordinary vegetables become so delicious that they provoke praise from vegetable-shy youngsters.

If you aren't profiting from the savings and economies electric cooking affords—if you don't know its cleanliness, speed and convenience—determine to find out now. Visit any dealer's or our nearest office and see the displays of 1936 model electric ranges. You'll find a style that will fit your needs and be easy on your pocketbook—one that will fit perfectly in an all-electric kitchen.

**A 1936 Electric Refrigerator Saves More... Costs Less**

This is the year to buy an Electric Refrigerator. The 1936 models are the best yet in value, beauty of design and efficiency. The small amount of current used will surprise you—yet at low PP&L rates, electric refrigeration never has been expensive. Thousands of women have paid for their electric refrigerators out of their regular budgets, by the food savings they have made. Any dealer in electric refrigerators will be glad to show you how you can do the same.
