When you buy your Tractor

Watch for complete Dust protection

because dust and grit are the worst enemies of dependable performance, long tractor life and low upkeep.

Builders of more track-type tractors than all other manufacturers put together, "Caterpillar" leads the field in defeating dust. Note how securely "Caterpillar" engine parts are sealed against the entrance of dust.

And note particularly how efficiently the automatic bellows-type final drive seals exclude dust and retain oil . . . these seals are built and used only by "Caterpillar."

There are many conclusive reasons why the "Caterpillar" is the most popular track-type tractor ever built. Ask us why.

O'MEARA SUPPLY CO.

CHIEF ROAD BUILDER

Col. Willard T. Chevallier, vice president of the McGraw Publishing company, who was elected president of the American Road Builders' association for the year beginning in May at the annual convention of society at Cleveland, Ohio. Colonel Chevallier will lead a co-ordinated campaign of the American Road Builders to reduce motor vehicle deaths and accidents on our highways through an engineering analysis of this problem.

As advertising is the major income of newspapers it is the major means of increasing income of dealers in all sorts of business enterprises.

Elbert Hubbard said that if a man built a better mouse trap than any one else the world would beat a pathway to his door, but the mouse trap builder would first have to tell people of his invention or his calling list would be as short as Al Capone's.

Don't hide your light under a bushel, nor your goods in an unadvertised business is good advise in this day and age of strong competition between many businesses and many dealers in each business.

For this county there is one medium of advertising:
