HI-WAYS TO HEALTH by ADA R. MAYNE OREGON DAIRY COUNCIL

Ice cream has long been termed America's favorite food. And a fitting title that is, too, for it is one dessert the housewife can rest assured will please any guest; a dessert that will be welcomed by every member of the family. And better still, it provides a healthful dish that agrees with any age-group.

In addition, it is one food available to everyone. It can be purchased in every restaurant, hotel or tea room - at confectioners, at drug stores, cigar stores and five and tens. Every town and hamlet offer it - and it comes ready to serve. No chance of disappointment in this particular dessert. You may buy your ice cream early and store it in the freezing tray of your automatic refrigerator or have it delivered packed in dry ice. And the dessert need cause you no further concern.

Ice cream is a national habit - and an excellent one. For it provides another way of consuming some of the milk so essential to buoyant health. It provides a welcome dessert in winter or summer and a convenient and refreshing treat for expected or unexpected visitors.

Ice cream lends itself well to a great variety of delectable combinations. Sundaes, made by serving vanilla ice cream with a sirup of one sort or another, give a festive touch to any meal. With strawberries now in season, try mixing crushed sweetened berries with whipped cream and serve a heaping tablespoonful on each dish of vanilla ice cream. Or bake fairly large meringues and fill the centers with vanilla ice cream topped with the strawberry-whipped cream mixture. This combination provides a particular delicious and appetizing dessert. Preserved fruits, jams,

If your car has storage space available, pack your luggage so as to utilize all the space, advises the Oregon State Motor association. An otherwise perfect trip is often spoiled when foot room in the riding compartment is restricted by bulky bundles and sharp edged suitcases.

When traveling over unfamiliar roads, do not hesitate to ask directions or call the nearest travel bureau, says the Oregon State Motor association. Highway maps and road signs are available to prevent confusion in traveling, but even with these the strange motorist can not be expected to "know all the ropes."

4c an acre for fuel

Reardan, Wash. May 24, 1936

Caterpillar Tractor Co. Peoria, Illinois Gentlemen:

I'm tickled to death with the Diesel RD-4. And, why not? It pulls easily six sixteen-inch plows all over the place in third gear and there are some pretty steep pitches here and there. 27 gallons is the average fuel consumption for each 17-hour day and we cover 50 acres or better a day.

Four cents an acre is a mighty low fuel cost—much cheaper than we thought possible until we got the RD-4.

It handles easier than any machine I've ever driven and goes places a lot of them won't.

I couldn't ask for anything better

Yours very truly,

ANDERSON BROS.

Such economy is not equaled . . . not approached by any tractor . . . gas or diesel . . . on the market. It's a fact that's proven and that we're willing to prove again.

...to save you Time and Money

How does the practical housewife measure the value of her telephone?

Keeping track, she finds that it saves money for her budget. It performs errands without outlays for personal visits.

It saves frequent "dressing to go out." In winter it saves damage to shoes, stockings, clothing.

When plumber, furnace man or other expert is needed promptly, it reaches him at once and saves costly damage to property.

It enables her to make appointments at the hairdresser's or elsewhere, saving her the cost of useless trips.

These are ordinary experiences. If you have no telephone, may we tell you more about its place in your home? We are at your service.

NOW... ELECTROLUX operates with KEROSENE (COAL OIL) FOR FARM HOMES ANYWHERE

NEEDS NO ELECTRIC CURRENT... NO DAILY ATTENTION... NO WATER... BRINGS YOU FINEST MODERN REFRIGERATION FOR FEW PENNIES A DAY

READ WHAT NELLIE M. CUNZ OF SEATON, ILL., WRITES: "I have had my kerosene Electrolux one year and I would not take anything for it if I could not get another. It has saved me lots of steps to basement and worry of food spoilage. I get lots of things now to keep that I couldn't with ice. I am more than pleased with it and have shown everyone who comes in my kitchen how simply it works. It is perfectly beautiful, too."

NOW you can be free from the trouble and waste of makeshift or inadequate refrigeration. No matter where you live, Kerosene Electrolux brings you all the comforts of finest modern refrigeration. It's identical in every important respect with the famous gas-operated refrigerator now serving city homes and apartments from coast to coast. Electrolux operates on ordinary kerosene (coal oil) for only a few pennies a day. One filling of the tank lasts a week or more. The secret of this amazing efficiency is Electrolux's simple operation. A wickless glow-type kerosene burner does all the work. Electrolux has no moving parts to wear... needs no water. This insures lasting efficiency, continued low running cost, fullest food protection. Owners find Kerosene Electrolux actually pays for itself with savings on food bills and on refrigerating cost. Clip coupon for literature.
