

### Harvest Nearly Ready In Wasco Community

#### Rev. Douglas To Fill Wasco Methodist Pulpit

Preparation for harvest is at its peak here. Darrel McQuillen was in The Dalles Monday returning home with sacks, also Hildred Zill, Joe Hilderbrand returned the same day with nine thousand sacks.

Due to illness the ministerial appointment that was made for the Methodist church was cancelled, and is replaced by Rev. Douglas of Salem, who with his wife arrived here last week. Sunday Mr. Douglas delivered his first sermon here.

The working crew at the Wasco warehouse has been busy for some time hauling out wheat and transporting it on to Portland.

Roy Guy has returned to report for harvest work at the Robert McPherson ranch.

Douglas Tuel is employed at minor jobs on the Hugh Walker ranch.

Immigrant and Biglow school districts met at Fleck Orchards Sunday where their annual picnic was enjoyed, with a large attendance.

Myron Halse returned from Stevenson, Wn., last week for the second load of house hold goods.

Douglas Bothwell and Herbert Krames of Maupin were visitors in Wasco Sunday.

Mrs. Edward Wallace was called to the home of her mother at Arlington on account of illness. Mrs. Wallace returned to Wasco Sunday.

Mr. and Mrs. W. E. Weld and son Gaylord and daughter Darlene, came from Bonneville to visit with Mr. Weld's parents, Mr. and Mrs. E. L. Weld.

Mr. Campbell and Wayne Barton stopped at the home of Wayne's aunt, Mrs. Elizabeth Fuller, on his return trip from a visit with his parents at Toledo. Wayne is now at the home of Wesley Fuller at Moro.

Mr. and Mrs. Joe Brackett were in Wasco Thursday returning to The Dalles on Friday.

Bernard Rice, formerly of Zig Zag CCC camp was operated on Thursday in The Dalles hospital for appendicitis.

Mr. and Mrs. Edward Thomas and son Marion, accompanied by Mr. and Mrs. Chas. Thomas of Klickitat, Wn., visited in Portland with Mabel Thomas, student at Emanuel hospital, she visiting at the home of her parents the former part of the week.

Mrs. Augusta Huckin, who has been spending some time visiting at Roslyn, Wn., returned to Wasco in company with her friend Miss Ada Woods of Roslyn.

Mr. and Mrs. Edward Feldman with Mrs. Pearl Butler spent Sunday at Government camp.

Mrs. J. T. Johnson returned Sunday from Idaho where she had been visiting with her children.

Miss Josie Underhill left last week to assist at the Guy Pound home in The Dalles, Mr. Pound

### Trojan Runners in Olympic Tryouts

World record holders for the 440-yard relay, these sprint stars of the University of Southern California were among the attractions at the recent Olympic semi-final tryouts in the Los Angeles Coliseum. From left to right they are: Capt. Foy Draper, George Boone, Clark Crane, and Adrian Talley.

being ill.

Miss Gladys Rood of Hillsboro is a guest of this week at the home of her brother in law and sister, Mr. and Mrs. Oscar Humberg.

Mr. and Mrs. Otis Royce and child of Culver were week end visitors at Wasco, house guests at the home of the latter's parents, Mr. and Mrs. J. F. Royce.

Wednesday evening the Win-a-Couple class met with Mr. and Mrs. Cairns. Prayer was the topic for discussion with Mrs. Cairns conducting the class singing.

A stay of two weeks at Redmond will be made by Mr. and Mrs. Claud Eaton and family. Mr. Eaton being stationed in that locality.

Dunsuir, California, is the location where Mrs. Chester Bargenholz is visiting with her son Delbert Johansen.

Mr. and Mrs. Clifton Fridley left Thursday of last week for their summer vacation which includes various beaches.

Mr. and Mrs. Floyd Root motored to Portland Monday returning the following day.

Mr. and Mrs. Orville Yocum spent Sunday at Hood River, Patricia Yocum, who has been visiting at that place for two weeks with friends, returning home with her parents.

Maxine Kramer visited in Portland for two weeks with friends returned home Wednesday, and visited at Kent on Thursday.

Mr. and Mrs. Louis Scholl who are located for the summer at White Salmon had as their visitors Sunday, Mr. and Mrs. Ted Anderson and family.

Ann Macnab of Rufus visited with Donna and Dorothy and Jessie Knox for several days the past week.

Bruce Fewel returned from Yakima Thursday of last week following a stay of three weeks.

House guests over the week end at the home of Mr. and Mrs. Harry Van Gilder were her sister Miss Mary Laidlaw and cousin Miss Cora Laidlaw of Portland, and Miss Helen Laidlaw of Hollywood, Calif., niece of Mrs. Van Gilder, who plans on staying for a month.

Saturday afternoon the Garden club held a flower sale in the library room, the proceeds to be used for the improvement of the city park.

Dr. L. R. Richelderfer, her daughter Katherine and sister Mrs. Josephine Hamilton and daughter Ellen, visitors from Sioux City, motored to Grand Coulee Dam and Seattle and beach resorts, returning home Sunday.

Mrs. J. H. Medler of Leadman is visiting at the home of Mr. and

### Grass Valley Hopes Warm Weather Waits

#### Ball Club Fails To Score In Game With Dufur

Farmers come into town with extras with signs of machine work on their clothes. They do not have the restless rush that usually precedes harvest for the cool winds have postponed that event until there seems plenty of time to get the machinery ready and the hay off the right of ways. The solo game goes on with O. P. King sitting by the window facing an ever changing bunch of opponents. The country people fully awaits the harvest expecting an adequate return for the labors of its citizens.

The ball club with holiday wins under its belt go to Dufur and return on the small end of a 14 to 0 score for the first rout of the season. The boys just couldn't play ball Sunday. Next week they tackle the Simnasho Indians at home and should be mad enough to win the game after the score of last Sunday.

Turpin Hill's body was brought back to Sherman county Sunday to be laid to rest on the hill where the bunch grass blows in the wind as it did over the entire country when Mr. Hill first came to Sherman county in 1883. His two daughters Mrs. Claud Eslinger and Fay and his widow were here from Forest Grove for the funeral and old friends who are still residents attended the funeral.

Mr. and Mrs. Matt Simon and daughter, Helen, and Lester Barnum and Miss Myrtle Davis drove to Fossil Sunday via Clarno where the oil derrick hides the pounding engine that sends the drill down into the eon old shale in search of oil.

Mrs. M. M. Oveson came up to the Holmes place Thursday and a son was born to her that evening. Mr. Oveson is assistant at the experimental station in Moro.

I. D. Pike and daughter, Jessie, were in Moro Monday to obtain marriage license for Jessie and Lloyd Goodrich, who was that day dismissed from the CCC camp in anticipation of his approaching nuptials. After the wedding Monday Mr. Goodrich went to Sisters where he will work and Mrs. Goodrich will follow in a short time.

W. Ray Blake was in Portland Monday on business.

A dance will be given next Saturday night by the ball boys. Jess Barnett was in Moro Monday transacting a little business.

A young man is lodged in the county jail awaiting trial for meddling with another's pockets.

### Fly Dangerous As Carrier, Not By Himself

The fly, itself, is not dangerous to health, but unfortunately this insect is not particular as to its habits or its food. The fly is a distributor of filth and germs. Milk, fruit, bread, vegetables, and the baby's bottle may be contaminated by flies so as to cause damage to health. Once the fly enters the house it is impossible to find protection from germs which may enter with the insect. The campaign for fly eradication should begin before the fly starts on its life cycle. The chief breeding place of the house fly is in barns or cow manure. It has been found to breed in human excrement, decaying vegetables, out-rotting animal matter, in bedding in poultry pens, and in garbage. All of these sources can be safely disposed of and thus deprive the fly of its breeding place.

Flies multiply rapidly as soon as warm weather comes to stay. A female deposits more than a hundred eggs at a time. The life cycle from egg to larva, to pupa, to adult male or female, requires ten days. A week later, fifty females, under favorable conditions are ready to deposit a total of 5,000 eggs. During the summer season, nine generations of flies may result from one female that laid the first batch of eggs in the spring. It has been estimated that the total product of a single fly would equal 140 pounds provided only one half of them survived.

#### Control Possible

Fortunately, modern sanitation and knowledge regarding the life history and habits of the house fly, musca domestica, render possible complete control over the fly nuisance. Start with the stable; see that it is cleaned daily. It requires a certain amount of moisture for the egg to hatch. If the manure is spread out in the sun it will dry out. Do not let manure collect in the stable; if you want to use it for fertilizer, place it in a screened bin. It is much cheaper to buy screen and lumber to build a bin than to pay doctor bills or perhaps funeral expenses. The garbage should be kept in a watertight container with a good cover. Do not let garbage accumulate; frequently bury or incinerate it. Do not empty dish

water out of the window. Toilets should be built absolutely fly-proof. Remember that flies breed in filth, so do not have filth around your home.

We know we cannot eliminate all the flies regardless of how careful we are with the premises, because flies may travel long distances. Screen the home; screen the pantry; keep food under screen; screen the baby's crib in the day time while it is taking its nap. The exercise of vigilance

to remove causes of fly breeding is usually effective and brings results. Little effort is required to keep the flies out of the home. By removing the flies you remove a prolific cause of sickness.

Mrs. Schmonsky—What does that word "asbestos" on the theater curtain mean?

Schmonsky—Don't show your ignorance. That's Latin for "Welcome".

## HI-WAYS TO HEALTH

by ADA R. MAYNE  
OREGON DAIRY COUNCIL

It has become fairly generally recognized that the summer sun and sea breezes will play havoc with a "peaches and cream" complexion. Therefore, every female vacationist, whether she be 16 or 60, starts out equipped to protect her skin at all costs with lotions, creams, and lemon juice. She selects with great care those substances she applies to the surface of the skin but with peculiar inconsistency gives little attention to those elements that go to make up the skin. Those elements are found in the foods she eats and have a greater and more permanent effect upon the character and texture of the skin than any cosmetics.

Milk and fruit and vegetables have been called "Nature's lipstick." These foods are rich in mineral salts that provide the rich coloring that goes with buoyant health. Milk in addition applies the calcium from which your teeth are made, and helps to build the framework of your entire appearance. Our beauty hint, therefore, is offered to those of the feminine sex who thirst for charm . . . drink at least two glasses of milk every day.

There is no need to worry about your waistline either for milk is definitely a non-fattening food. And if you are one of those fortunate women who can eat any thing and everything and never add a pound of excess weight, you may drink your milk as a milk shake or dressed up in any form you wish.

Your family will enjoy chilled milk drinks during the summer

months. Three popular combinations are listed below.

- #### Chocolate Milk Shake
- One half cup grated chocolate
  - One fourth cup milk
  - One fourth cup of cream
  - One tsp butter
  - One eighth teaspoon salt
  - One half cup brown sugar
  - One fourth cup granulated sugar
  - One half tsp vanilla

Make a sauce of all the ingredients and cook slowly, stirring constantly for 5 minutes. Add vanilla and cool. Use two tablespoons of the chocolate sauce, two tablespoons cream and three fourths cup milk. Combine ingredients and thoroughly blend. Chill and serve.

- #### Banana Milk Drink
- Two thirds cup bananas mashed to a pulp
  - Three tablespoons orange juice
  - Three tablespoons honey
  - One eighth teaspoons vanilla
  - Few grains salt
  - Two cups milk

Mash bananas to a pulp and mix until the pulp is entirely separated to give a creamy mixture, add all the remaining ingredients, blend thoroughly and serve in glasses with a garnish of whipped cream lightly sprinkled with nutmeg.

- #### Raspberry-nog
- 1 cup & 2 tablespoons raspberry juice (chilled)
  - 1 teaspoon sugar (more if desired)
  - 3-4 cup of milk (chilled)

Mix fruit juice, water and sugar and add to milk. Serve ice cold.
