HI-WAYS TO HEALTH by ADA R. MAYNE OREGON DAIRY COUNCIL

It would be difficult to serve a dessert more refreshing than sliced fresh peaches and thick rich cream. Peaches are undoubtedly one of the most popular and tasty fruits offered during the summer season but the cream served with them adds tremendously to the flavor of the peaches themselves. Peaches and cream! A perfect dessert served often; for before we realize it peaches are gone and we must wait another year to enjoy their freshness.

For variety sliced peaches may be served over ice cream or over a vanilla cornstarch pudding as suggested below. Meringues are most delicious when filled with fresh peaches and ice cream. Peaches offer an infinite variety of desserts when cooked into puddings, cobbles, pies and so on. And we are reminded that apricots might be substituted for peaches in every dessert suggestion given.

The homemaker seeking suitable desserts for summer days wants desserts that are simple and not those necessitating a long time spent over a hot stove. She prefers desserts that can be made in the cool of the morning, left to chill in the ice box - refreshing desserts that may be served with no last minute fussing. Just such a dessert is this Marshmallow Pudding.

Marshmallow Pudding
1 tbs gelatin
1-4 cup cold water
3 egg whites
3-4 cup hot pineapple juice or boiling water
1 cup sugar
1 small can of crushed pineapple
Dissolve gelatin in cold water. Add to hot juice and sugar. Beat egg whites until stiff and combine with gelatin mixture and pineapple pulp. Flavor with lemon juice or vanilla. Beat often until set. Chill and serve with custard sauce, whipped cream, or custard sauce folded into the whipped cream.

CUSTARD SAUCE
1-4 cup sugar
1 1-2 tbs cornstarch
Sprinkle with salt
1 1-2 cups milk
3 eggs yolks
1 tsp vanilla
Blend sugar and cornstarch and salt in the upper part of a double boiler. Add the milk heated to scalding and cook over hot water, stirring occasionally for 15 minutes.

Pour slowly over beaten egg yolks, stir until smooth, return to double boiler and continue cooking and stirring for 2 minutes or until mixture coats the spoon. Remove from fire and cool. Add vanilla. (Note that if cooked even a minute too long this mixture will curdle)

Cornstarch Pudding
2 1-2 cups scalded milk
4 tbs cornstarch
4 tbs sugar
1-4 tsp salt
1-2 cup cold milk
1 egg
1-2 tsp vanilla

Scald 2 1-2 cups of milk in top of double boiler. Meanwhile mix cornstarch salt and 2 tbs sugar to the cold milk to smooth paste. Pour a little of the scalded milk into this mixture while stirring. Add this to the remaining scalded milk in top of double boiler, stirring constantly. When smooth cover and cook 25 minutes stirring occasionally. Meanwhile beat egg slightly, add 2 tbs sugar, pour cornstarch mixture over it gradually, stirring constantly. Return to top of double boiler and cook one minute. Add vanilla.

Now you can do away with the hot job of summer cooking—yet never do without a hot meal. Incredible? It's true. Science now gives you a new miracle of electricity—"Absent Cooking".

You place your entire meal—from meat to dessert—in a cold oven, set the time and temperature controls, and leave the house if you wish. Return just before dinner and your meal is ready. Even if your electric range doesn't have a time control, its temperature control will free you from all oven watching while your meal is cooking.

Another astonishing fact is that kitchen temperature is raised only about 1° during the cooking of an entire meal. Electric cooking is cool cooking!

Visit any dealer's or our nearest office today and see the wonderful new electric ranges on display.

Electric ranges are very reasonably priced. And you may purchase yours on convenient terms. The operating cost is very reasonable, too, with low-cost Pacific Power & Light Company electricity.

GEE...it's swell to have hot water all the time!

Plentiful hot water whenever you turn a faucet, day or night, winter or summer, certainly is a joy. And you can have it by installing an automatic electric water heater. Then you won't be dependent on range or furnace coils. You won't have to heat up your kitchen or your house every time you need hot water for baths, laundering or any other purpose. Ask about our attractive water heating rate today.
