

Wasco Folk Attend Ralph Smith Funeral

Ralph Melvin Smith was born in Kaysville, Utah, Nov. 16, 1892, and passed away, January 12, 1937 at The Dalles. Surviving are the widow, Mrs. Alta Smith; two daughters, Donna Jean and Darlene Janice, four and six years; a mother, Alice Smith; five sisters and three brothers, Ida White, Clearfield, Utah; Mabel and Nora of Kaysville; Madeline McLatchie, Ogden, Utah; Bertha Nielson, Romeo, Colo.; Claude of Ellensburg, Wash.; Stanley of Fairfield, Idaho; and Hubert of Kaysville.

Hubert Smith of Kaysville, Utah, arrived here Wednesday to attend the funeral services held in The Dalles last Thursday, for his brother Ralph Smith. A number of friends of the family from Wasco, attended; J. T. Johnson, C. W. Johnson, Mr. and Mrs. Robert McPherson, Ross Gilbert, Mr. and Mrs. George Fox, Ollie and John Robinson, Mr. and Mrs. Alex Macnab, Mr. and Mrs. George Drinkard, Mr. Drinkard was in The Dalles several days helping with the funeral arrangements.

Dr. Leah Richelderfer and children, Katherine and David spent the dinner hour Sunday with Mr. and Mrs. Homer Dixon.

Members of the dinner club enjoyed a six thirty dinner, Saturday night. Hosts were Mr. and Mrs. E. D. McKee. Guests interested in cards played at three tables.

Mr. and Mrs. Art Barzee were hosts at a one o'clock dinner, Friday. Invited guests included Mr. and Mrs. B. W. Guy, Walter Eaton, Mr. and Mrs. R. B. Hilderbrand, Mr. and Mrs. V. Van Gilder, Mr. and Mrs. Paul Alley, Mr. and Mrs. Howard Hines, John and O'Vee Robinson. Bridge was played after dinner with Mrs. Guy and Walter Eaton receiving high score prizes, the travelling prize going to B. W. Guy.

The Woman's chorus met with their director, Mrs. Maude Akers, Thursday afternoon. Following the usual sing period, a business session was held. Plans were made for a food sale to be held at the library, Saturday, January 23. New music will be purchased with the money raised.

Andy Barnett of Ontario arrived by train Friday noon. He is a guest of his sister, Mrs. Clifton Fridley.

Big Broadway of 1937 show at The Dalles was seen by Miss Beryl Sheets, Margaret McDermid, The O'Meara boys, Glen Van Gilder and Gordon Johnson.

Carol Dae Drinkard spent several days with Patricia at the home of her parents, Mr. and Mrs. Orville Yocum.

Wasco high basketball players went to Rufus Friday night, accompanied by Mr. and Mrs. Wesley Wilde. Both Rufus teams won games played.

Mrs. G. A. Sargent was in Portland, Saturday evening, where she and her daughter, Mary Jeanette, of Willamette university, attended the Nelson Eddy concert.

A meeting of the Wasco Woman's club was held at the home of Mrs. Anna Lee, last Friday afternoon. There was a good attendance. The study period included English instruction conducted by Mrs. Homer Dixon, Mrs. Augusta Huckin gave a talk on "Life and Times," by Robert Louis Stevenson, Mrs. Earl Richelderfer followed with a book report "Master of Ballantre," also by Stevenson. The next meeting will be held Friday at the home of Mrs. E. D. McKee. Mrs. Elfin Ross of Salem is making a visit with her parents, Mr. and Mrs. W. E. Everett.

Though snow flurries fell almost constantly, Monday, the Contract club met at the home of Mrs. Frank Lamborn at 12:30 to enjoy a dessert luncheon. It was followed by the usual three tables of cards. Mrs. Louis Walsh received the high score prize. Mrs. G. H. Root, traveling award. Guests and members present were Mrs. E. D. McKee, Mrs. Smith, Mrs. George Wilde, Mrs. H. D. Proudfoot, Mrs. Viggo Hauffelt, Evelyn Beardon, Mrs. Marie Barnett Cooper, and Mrs. Charles Everett.

Mr. and Mrs. Frank Morrow left Thursday to attend the funeral of their grand daughter of Colorado. Services were held in Salem. The Morrrows are house guests of their son-in-law and daughter, Mr. and Mrs. Laidlaw.

Mrs. Andy Shearer returned home Saturday after a lengthy stay in The Dalles.

Mr. and Mrs. E. L. Weld are

Sheriff's Report for 1936 Taxes

TO THE HONORABLE COUNTY COURT AND COUNTY CLERK OF SHERMAN COUNTY, OREGON.

GREETINGS: Please be advised that since my last report made as of September 21st, 1936 I have collected and turned over to the County Treasurer the sum of \$22,119.65, which amount covers all of the delinquent taxes together with interest charged thereon collected from that date and is apportioned as follows:

County General Fund	
General Purposes	\$ 3,286.07
Bond Interest Fund	848.76

1932 Tax Rolls	5,407.83
1931 Tax Rolls	3,771.06
1930 Tax Rolls	8,113.70
1929 Tax Rolls	651.22
1928 Tax Rolls	274.56
1927 Tax Rolls	15.03
Interest charged on 1935 taxes	1,869.84
Total	\$52,574.11

HUGH CHRISMAN Sheriff and Tax Collector

FARM SERVICE PORTRAYED

"Serving the Farm and Home Interests of Oregon 1934-36," is an attractive bulletin of the Oregon State college extension service, written by Frank L. Ballard, well known to Sherman county farmers. Included are numerous pencil sketches by Mr. Cuthbert. The bulletin describes the many phases of work covered by the agricultural industries and areas of Oregon.

Bob—What makes your wife so suspicious of your stenographer? Michael—It just happens that my wife was my stenographer before I married her.

Maudine—Was he on his knees when he proposed to you? Sue—No. I was on them.

Ruff—There's a real blizzard out side and my wife is in it. Tuff—Don't worry, she'll find shelter in some department store. Ruff—That's what worries me.

home after spending several weeks at the home of their son and family, Mr. and Mrs. Wayland Weld Gaylord and Darlene, in Bonneville.

Delta Gray was visiting her parents, Mr. and Mrs. George W. Drinkard, over the week end.

Clifford Turnbull of Goldendale, brother of Mrs. Ralph Smith is visiting her. An aunt accompanied Mr. Turnbull.

Roy Belshee was in Moro Thursday from his ranch near Wasco, even though he had to walk the last few miles, having ditched his car in a snow bank near Frank Burnet's ranch. He attended the Tractor School of McKean and Searcy while here.

CARD OF THANKS

We wish to thank our many friends for their kindness and respect, and also for the beautiful flowers during the illness and death of our loving husband and father, Mrs. Ralph Smith and daughters, Donna and Darlene.

Addington Buys Store at Rufus

The community store of Rufus for years operated by the Deyo's has been taken over by John Addington and his wife, of Rufus, who bought the entire stock and rented the building.

The weather conditions during the week ending January 16, were considerably warmer, as the lowest point the mercury touched was in the neighborhood of 26 degrees above zero, and the highest ranged upward as high as fifty degrees. The greatest fall of snow of the winter came last Sunday night and Monday morning, though on the river the fall didn't amount to more than four or five inches.

School students are again settling down to the routine of class studies, beginning the second six weeks, not with the vim and vigor they showed at the first, but with growing anticipation towards the end of the school year.

Both basket ball teams of Rufus met the Wasco basketeers on the local floor last Friday, defeating them by a substantial margin.

As to queer happenings—imagine this. Some one breaking a drinking glass, a lamp chimney bursting due to rapid contraction, and a window pane being shaken out by a passing train all in one day. This actually happened in a home here recently.

Hank—Are you still engaged to that homely girl?
Ed—No, I'm not.
Hank—Good for you, old man.
Ed—Wait a minute. I married her.

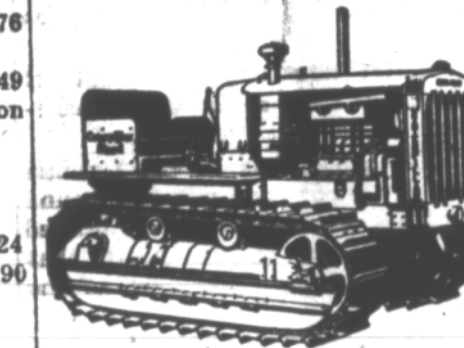

Gertie—I heard you were out on a joy ride last night.
Berth—That's not so. None of us were killed or even injured.

Man—That Guy Jimmy called me an ass.
Ditto—You shouldn't stand for that. Make him prove it.

Fairfield, Washington, December 17, 1936

Good Advice

from a good neighbor

Fairfield, Washington, December 17, 1936

Dear Neighbor: Just why you should buy or own a "Caterpillar" Diesel Tractor. There is no other form of power that can compete with "Caterpillar" Diesel, in any line of work, it is amazing the amount of work one can do on so small a cost of operating expense and with a satisfied feeling when you drive a "Caterpillar" Diesel, to know, that it will get you there and back. I have been a tractor farmer for 19 years. The first was a "Caterpillar" which I used for 11 years and then traded it off. Then there came a high-pressure salesman and I bought other makes of tractors, three different kinds, and now I have a "Caterpillar" Diesel RD-6. First a "Caterpillar" and last a "Caterpillar."

Do not be misled by so called high-pressure salesmen like I was and buy an inferior or an experimental tractor which have caused me a lot of grief, loss of lots of money and no law suits. We have heavy soil here at Fairfield and machinery pulls heavy in the Palouse country, but my RD-6 "Caterpillar" Diesel pulled ten feet of plows with ease. I plowed 700 acres of stubble land and seeded 500 acres to fall wheat at a total cost of \$55.50 for Diesel fuel. "Caterpillar" Diesel's talk for themselves. Don't be misled, watch the contractors at the big Columbia Dam and the State Highway Patrol's. They use the "Caterpillar" Diesel exclusively. They, too, have had the experiences. The "Caterpillar" Diesel is the outstanding tractor. Made to balance with the load you pull and built to stand up under the hardest kind of work.

Neighbor - be sure and buy a "Caterpillar" Diesel. You will never regret it.

HI-WAYS TO HEALTH
by ADA R. MAYNE
OREGON DAIRY COUNCIL

Butter heads the list of so-called fats. Because of the vitamins in butter which are not found in other food fat, it is looked upon as a protective food. For this reason and because people prefer the distinctive butter flavor, it is most desirable to use, either in cooking or serving.

For butterfat is the most practical, palatable and dependable source of vitamin A, that vitamin which contributes to the health and vigor of both children and adults. And in addition assists in building resistance.

Too often parents, appreciating that the child should consume a quart of milk daily, provide the quart of milk but rob the child of the most of the vitamin A content by pouring off much of the cream for coffee. If the child is allowed a generous serving of butter, this deficiency is very nearly counteracted, however. The diet is insufficient and incomplete without this vitamin which is supplied best and cheapest by butter and not by any substitute thus far known.

Butter also contains important amounts of vitamin D, a necessary factor in the proper development of bones and teeth.

Beside its high nutritive value, the natural butter flavor improves any food to which it is added. The following recipes owe their delicious flavor to the generous amounts of butter called for.

Pound Cake

INFLUENZA SPREADS

(Continued from page one) with a handkerchief when coughing and sneezing. The hands should be washed with soap and water before eating. Eating utensils should be sterilized. Crowds and overcrowded living quarters should be avoided.

Persons having symptoms of influenza should go to bed and isolate themselves during the early stages of the infection. Every precaution should be taken to prevent chilling of the body, exposure, or exhaustion. Serious complications particularly pneumonia, may occur in the case of influenza if the individual does not have proper care. It is possible to prevent severe complications of influenza through precautions taken by the patient during the early stages of the disease. It is important that persons ill with influenza should recognize that they have it and not pretend it is only a cold. They should go to bed at once and stay there until their physician allows them to get up.

Human Eyes Not Adapted To Modern Life!

Surveys show appalling need for Better Light and Better Sight!

Do our eyes still belong to the stone age? For millions of years we human beings got up with the sun, went to bed with the sun. Our eyes were used mainly for distant seeing out-of-doors in plenty of light. Close seeing didn't really become a general practice until 500 years ago with the invention of the printing press. 500 years is a mere fraction of time in the evolution of man and not long enough for our eyes to become adapted to modern conditions. The reason so many people have defective vision is insufficient light. To keep your eyes strong and healthy, be sure to give them the right amount of light for every visual task. Start in your home by having your lighting measured with the Sight Meter, which shows both how much light you have now and the amounts needed for easy seeing.

Clean bulbs give most light! A film of dust and grime on your lamp bulbs and reflectors can cut down your light as much as 20%. To be sure you get maximum efficiency from the electricity you buy for lighting, see that your bulbs and shades are always spotless.

Your kitten's dish of milk costs at least 1c. But you don't consider this cost important because your kitten needs the milk. Your eyes require light to see... plenty of light for effortless seeing. Because Pacific Power & Light Co.'s rates are among the lowest in the United States, you can operate a 100-watt lamp approximately 2 1/2 hours for the cost of your kitten's dish of milk. Don't skimp on light, for light is inexpensive. But sight is priceless.

Don't guess about your light. Call or write your nearest Pacific Power & Light Co. office today for your free Sight Meter test.

Now you can select the right amount of light for your eyes!

The new 3-way I.E.S. Better Sight Lamps give 100, 200 or 300 watts of light from the same bulb. When you are visiting with friends, use the low intensity. For large type or coarse work, the middle intensity is sufficient. But for reading the newspaper, sewing or any prolonged work, 300 watts are necessary. See this and other I.E.S. models in dealers' and our nearest office. Look for the translucent bowl that diffuses the light and the I.E.S. tag of approval.
