

Wasco Women Attend Meeting In The Dalles

A delegation of Wasco women were in The Dalles Thursday evening where they attended a meeting of the Pythian sisters lodge at the time Mrs. Ellen Roper, grand chief of Oregon, made her official visit. She presented Mrs. T. L. Fields, most excellent chief of Wasco with a corsage. Attending were: Mrs. Louis Walsh, Mrs. Joe Hilderbrand, Mrs. E. Thomas, Mrs. A. C. Kaseberg, Mrs. B. W. Guy, Mrs. R. H. McKean, Olive Robinson, Mrs. Maud Akers, Mrs. Eliza Dingle, Mrs. Brackett and Mrs. Brady of Rufus.

Mrs. W. E. Buell of Elkton and Mrs. Asa Robley of Corvallis are visiting at the home of Mr. and Mrs. Paul Alley.

Mrs. L. V. Hartund and children of Portland returned to their home after a two week visit at the home of Mr. and Mrs. C. A. Harper.

Mrs. O. G. Hilderbrand held high score and Mrs. Afton McIntyre second when the Junior Bridge club members met at the home of Mrs. Lloyd Hennagin Wednesday afternoon. Luncheon preceded the card game.

Wednesday a number of ladies from The Dalles enjoyed a picnic, and later visited with Mrs. Jessie Amos. Callers were: Mesdames E. O. McCoy, Paul McCoy, Jude Wilson, Emma Carlisle of The Dalles and Mesdames Joe Perlors and Pierce Mays of Portland and Dr. Belle Ferguson of Seaside.

Mrs. Fred Fortner received club prize at the home of Mrs. A. C. Kaseberg Tuesday when the two table contract club spent the afternoon together at luncheon and cards.

Mr. and Mrs. B. E. Karns and children, Carol Maxine, Dorence and Sharon Rae left town Wednesday for their new location at Redmond.

Mrs. O. G. Hilderbrand has as her house guest a cousin, Mrs. Alta Walters of Hood River.

Miss Betty McCafferty returned Saturday after a visit of a month in Los Angeles with her aunt, Mrs. A. E. Quirk.

Mr. and Mrs. Hal White have moved into the George Kaseberg house.

Mr. and Mrs. G. A. Sargent spent Saturday in Salem where their daughter Mary Jeanette participated in the May Day fete given at Willamette university.

Mrs. Alta Walters of Hood River was a dinner guest at the Joe Hilderbrand home Friday.

The social five hundred club was entertained by Mrs. Richard Yocum at a one-thirty dessert luncheon. Table decorations included wild flowers and high score was won by Mrs. S. J. Brock with Miss Olive Robinson, second.

Mrs. Jess Leonard is visiting with her parents Mr. and Mrs. Marvel at Rock Creek.

Mr. and Mrs. Ed Feldman left Saturday for Portland where they spent the week end.

Miss Katherine Johnson who is in training at St. Vincent's hospital arrived from Portland to see her mother, Mrs. Charles Johnson who is in The Dalles hospital.

Lloyd Hennagin left for Portland Sunday where he has taken a position with the First National Bank.

Commencement exercises of the senior class of Wasco high school will be held Thursday May 13 at eight o'clock at the school house. Members of the class are Walter Grant Boice, Desale May Hearing, Charles Jordan Johnson, James Yates O'Meara, Glen Van Gilder, Philip G. O'Meara, Catherine Richelderfer, Mary A. Thomas.

Mrs. Charles Golliber of Boise, Idaho arrived in Wasco Sunday to visit with friends.

Homemakers' Exchange of Helpful Household Hints and Recipes

Conducted by ELEANOR HOWE

To assure the success of your dinners, keep a file of the favorite dishes of your favorite guests.

To prevent eggs from splattering while using an egg beater, cut a piece of wax paper just the size necessary to cover the bowl being used. Then slit the paper and pass the beater through it.

Here's a delicious recipe for APRICOT GINGERBREAD TURNOVER: Cream 1/2 cup shortening and 1 cup light brown sugar. Sift together 3 cups flour, 1/2 teaspoon baking soda, 1 teaspoon baking powder, 1/2 teaspoon salt, 1 teaspoon ginger, and 1 teaspoon cinnamon; and add to first mixture. Until ready for use store in refrigerator—preferably an air-conditioned refrigerator where there will be no danger of the mix drying out or absorbing odors. The properly moist, clean-washed air of the ice refrigerator will keep the mix fresh until you are ready to proceed with your baking. When ready to bake, remove mix from refrigerator and break up with a fork. Beat 2 eggs well and to them add 1 cup sour milk and 1/2 cup molasses. Add this liquid mixture gradually to dry ingredients; beating constantly. Blend well. Place 2 1/2 cups canned apricots (well-drained) in the bottom of well-greased square cake tin, and pour the gingerbread batter over fruit. Bake in a moderate oven (350°) for approximately 45 minutes. Remove by inverting cake pan. Serve warm with whipped cream.

If you have difficulty spreading hard butter on breakfast toast, place the butter in a small granite teapot and put near a hot burner. Then the butter will melt by the time your toast is ready.

A velvety-smooth MOCHA NUT ICE CREAM made in short order in any of the new-fashioned ice cream freezers: Soak 1 tablespoon gelatin in 1/2 cup milk. Heat 1/2 cup milk, 1 cup coffee infusion, and 1 pint whipping cream together and to this mixture add the gelatin. Stir until gelatin dissolves; then add 1 1/2 cups brown sugar and 2 beaten egg yolks. Blend carefully. Remove from flame; add 1/2 teaspoon salt and 2 teaspoons vanilla extract. Assemble modern ice cream freezer. Pour the mixture into the freezing container; adjust the dasher and cover tightly. Pack mixture of 3 parts ice and 1 part salt around the freezing container. Turn crank slowly but steadily. When mixture becomes too stiff to turn, remove lid carefully, take out dasher; and blend in 1/2 cup broken nut meats. Pack down evenly with a spoon. Cover ice cream with wax paper and replace lid. Draw off water and replenish ice and salt mixture. Cover and allow to harden at least one hour before serving.

If you want to flavor soups with onion without directly adding the onion to the soup, buy an aluminum tea-ball at any dime store and drop the tea-ball, full of chopped onion, into the soup while in the making.

When lingerie straps on slips and brassieres wear out try replacing them with narrow silk elastic. The

Blossom day and a picnic lunch. Among them were: Olive and John Robinson, James Maddox, Mr. and Mrs. Vernon Van Gilder and daughter Emmajean, Mr. and Mrs. Harry

Bruce Grady arrived this week to take over the office work at the Sherman Co-operative Grain Growers. He and Mrs. Grady have been house hunting so that they may move here when school is out in Walla Walla.

Mr. and Mrs. Floyd Root attended a dinner party Saturday evening in The Dalles at the home of Mrs. Elbert Kirk.

The Root family left for Portland Tuesday for a stay of several days.

Mrs. Belle Clothier left Monday for Castle Rock to stay with her mother for three weeks.

Mr. and Mrs. J. F. Roysse and son, Lloyd, spent Sunday in Hood River.

elastic takes up the strain caused by moving around and reaching.

Try using candy lemon drops instead of sugar in hot tea. They give the tea an excellent flavor and add a novel touch.

When breaking eggs for muffins or puddings, use the golden yolks for added richness. But place the whites in a bowl and keep the bowl in the cold, properly moist atmosphere of the modern air-conditioned refrigerator, where they will not dry out or absorb odors. You will soon have enough whites for an angel cake.

If you have difficulty spreading hard butter on breakfast toast, place the butter in a small granite teapot and put near a hot burner. Then the butter will melt by the time your toast is ready.

See a footballer trotting on the side lines; horses practicing before the race; aeroplanes "roving" their engines before the take-off. . . . It's the conditioning period known as "warming up." "Caterpillar" Diesel conditioned for starting . . . cylinder temperatures are sufficient . . . oil is flowing to vital working parts . . . before the engine starts.

No Cold Starting
—hence no engine wear from cold starting

The "Caterpillar" Independent starting system makes possible a diesel engine designed for maximum wear and fuel economy with no favors for starting.

O'MEARA SUPPLY CO.

Van Gilder, Mr. and Mrs. Hines and children Walter Eaton and Mr. and Mrs. Art Bargee.

Frank Fortner of Portland visited several days at the Fred Fortner home.

Miss Vivian Trounce was an overnight visitor at the Mrs. Elizabeth Fuller home.

The University of Oregon chapter of Sigma Upsilon national honorary writing fraternity, announced the election of Harry Proudfoot.

Glen Karnees of Wasco was initiated in the Neighbors of Woodcraft lodge Monday evening at The Dalles. He was accompanied by Mrs. Joe Mee, Dell Rust, Mrs. Wm. Reid, Mrs. El Moon, Esther Peugh, Mrs. Wilfred Spencer, Mrs. Aady Shearer and Mr. and Mrs. Leo Watkins.

Mr. and Mrs. Douglas visited over the week end in Portland and Mrs. Douglas went on to Eugene to spend a few days with her parents.

Mrs. Arch Gosson was hostess to the Tuesday Study club when 18 were present. Mrs. Clifton Fridley gave a reading on the oldest clubs. Mrs. Louis Scholl reported on the club woman's magazine.

Mrs. Morris Morrison, niece of Mrs. Elizabeth Fuller and Mr. Morrison of Alberta, Canada, were overnight guests Tuesday at Miss Veda Fuller of The Dalles was a visitor with Mrs. Fuller on Wednesday.

Mrs. E. D. McKee and daughter Margaret are spending a few days visiting with relatives in Portland.

This week's hostess for the Monday contract club was Mrs. W. A. Medler. Luncheon was served at three tables followed by cards with Mrs. George Wilde receiving high score and Mrs. Augusta Huckin guest prize.

TODAY'S QUOTE
"It is generally recognized that the individual is helpless with out the assistance afforded through united action. It is clear that Oregon's entire marketing structure needs to be strengthened, dealing with Oregon problems in terms of Oregon conditions."—Dr. W. J. Kerr, in a report to the state board of higher education on results of his survey of marketing conditions.

Tattlebaum—I've been working for two years collecting this library.

Jenkins—Goodness, what a lot of friends you must have.

Extension Service Notes Advances In Agriculture

Looking back over half a century of service of the Oregon Experiment station to the state of Oregon on the occasion of its fiftieth anniversary, one finds a vast array of minor and major discoveries that, taken in the aggregate, have meant and will continue to mean added millions of dollars in income to the agricultural industry. Wm. A. Schoenfeld, present director of the station, asked to select 15 discoveries or achievements of the station that are among those of the greatest value—those the following, which are not arranged in any order of relative importance.

1. Discovery of a successful method of removing spray residue from fruit, when embargoes were placed against fruit carrying such residues.
2. Discovery of the cause and development of control of Bangs disease (infectious abortion) in cattle.
3. Development of an Oregon small seed industry to meet a profitable marketing opportunity, now returning an income of close to three million dollars annually.
4. Development of the system of breeding poultry for egg production, enabling Oregon to produce eggs cheaply enough to compete in eastern markets.
5. Development of a practical method of brining cherries for the marachino trade, thus making available markets for a more than four million dollar annual output.
6. Making detailed soil surveys and classification of the major farming areas of Oregon, thus providing a fundamental guide to the adaptability of these soils.
7. Discovery of a new and simple method of fowl pox control.
8. Introduction of improved grain varieties, particularly Federation, Oro and Rex wheats and Markton Oats at the Moro branch station.
9. Development of new methods of storing, ripening and marketing Oregon pears, which in the case of Boscs, actually saved the industry from extinction.
10. Research leading to the im-

provement of Oregon butter quality.

11. Discovery of the life-history and control of codling moth under Oregon conditions.
12. Control of liver fluke in sheep and goats.
13. Development of supplemental irrigation for western Oregon.
14. Discovery of the value of sulphur as a fertilizer, greatly increasing yields of alfalfa and other legumes.

15. Control of pear blight thru development of immune root and trunk stocks.

Old Maid—The waiter said to me, "How would you like your rice?"
Second Ditto—And what did you say, Dearie?
Old Maid—"Thrown at me" and did I blush?

Try Journal advertising, it pays

MEMORIAL TO PEACE

THROUGH legislation passed by Congress and the Canadian Parliament, Glacier National Park, Montana, and Waterton National Park, Alberta, have been linked to form the International Peace Park, commemorating the long years of amity and goodwill between the two nations. While for purposes of administration they remain integral units only a marker denotes the dividing line. The Waterton Park section contains 220 square miles of mountainous country made readily accessible both to outlying sections and to other parks by a fine system of motor highways and there are many miles of trails for hiking and riding. The largest body of water is Upper Waterton Lake which is partly in Canada and partly in the United States. The layout shows: (top) monument marking the boundary line with the ranger standing in the United States and the three hikers in Canada; (lower) a tiny corner of Waterton Lake and, in circle, the location of The International Peace Park and some of the main motor roads in and out of it.
