HOP PICKERS NEEDED

Hop growers of western Oregon suffered heavy losses this year because of inability to secure enough pickers to harvest their crop promptly, according to John Cooter, farm placement director. Between 2000 and 3000 more pickers could have found employment in the hop yards of Oregon this year Cooter said. Cooter is unable to account for the shortage of labor inasmuch as no difficulty had been experienced in supplying labor for other seasonal crops.

MARTIN MAY NOT RUN

The reference by Governor Martin to the "next governor" of Oregon, in a speech at Bend last week was interpreted by many as equivalent to reading himself out of the picture as a contender for a second term. Supporters of the second term idea, however, counter with the suggestion that Martin if re-elected would be the "next governor" just as much as would any other candidate who might gain the favor of the electorate.
