Candidates Out For Office Early

Victor Hassen of Portland is not one to put off until tomorrow that which can just as well be done today. Although it is still more than eight months until the primary election Hassen has already filed as a candidate for the democratic nomination for state senate from Multnomah county. Probably figures that the early candidates get the plums, as it were. Hassen will champion the cause of licensed and legalized gambling to raise revenues so as to head off any further attempt to enact a sales tax.

"SUFFER THEM"

National child safety education began in 1922, remarks the Oregon State Motor association, advocating required safety education in public schools. Since then, the traffic death rate for children in the 5 to 14 years of age group has dropped 6 per cent to 13.2 deaths per 100,000.

The One Thing Needed

HI-WAYS TO HEALTH by ADA R. MAYNE OREGON DAIRY COUNCIL

Do you have a cookie jar? Some folks may use a tin but there's nothing like a crock or jar for keeping cookies. And it's nice to know that in the crock your cookies are going to improve with keeping—that they will be even more moist and tasty three or four days hence. For while you're at it and have the oven hot, you might just as well do a good sized baking as a small one.

However, if the cookies are good it is seldom that one finds cookies in the crock four days later. For hungry children after school clamor for a cookie with their glass of milk. And with the apple sauce, chocolate pudding or custard served as the dessert for either luncheon or dinner, a cookie is always in order. The child who must carry his lunch to school finds a cookie or two, and particularly a cookie topped with a bit of icing, a most welcome treat.

Date Nut Cookies
One half cup butter
One cup of sugar
Two eggs
One and a half cups flour
Two teaspoons Baking powder
One half tsp salt
One cup dates and nuts

Cream butter and sugar and add eggs, well beaten. Add dry ingredients, sifted together. Chop dates and nuts and add to the mixture. Drop by teaspoonfuls on cookie sheet. Bake in a hot oven (400 deg.) Allow to cool slightly before removing to cake rack. When entirely cool frost with icing given below.

Chocolate Frosting:
One square chocolate
Four tbsp butter
Two tbsp cream

Powdered sugar
One half tsp vanilla

Boil chocolate, butter and cream together for two or three minutes. Remove and cool. Add powdered sugar to the right consistency. Then add vanilla.

Ice Box Butter Cookies

One lb. butter
One and a half cups sugar
One and a half cups light brown sugar
Two eggs
Juice of One half lemon
One cup broken pecan meats
One level teaspoon soda
Six cups flour
Two teaspoons cinnamon
One teaspoon vanilla

Cream together, drop in eggs, mix, then add lemon juice, vanilla, flour sifted with soda and cinnamon then nuts. Work together with hands. Divide dough in half place

Because it has thorough dust protection. Wherever dust attempts to enter vital mechanism of the TWENTY-TWO Tractor—it is "blocked" by proved dust seals.

At the Crankcase Breather, for example, an oil covered screen keeps dust out. Engine air is cleaned three times. A leather boot protects the governor shaft opening. Valves, Spark plugs, control levers, and every other place where dust might enter, is effectively shielded. And at the final drives, the exclusively - "Caterpillar" Automatic Bellows Seals stand guard. This is thorough dust protection—the kind that reduces upkeep costs and lengthens tractor life. We have full details covering other advantages of the sturdy "Caterpillar" TWENTY-TWO Tractor. Ask us about them.

The TWENTY-TWO has \$300.00 worth of Extra Value features—over any other track-type tractor in its power class. Challenge us to prove this statement!

When a good bucking horse goes into his dance under an inexperienced rider, the contest is short and unexciting; when a good rider draws a horse with nothing but a hump in his back, spectators look at their program for the next number; but when hard bucking horses come out of the chute with tough experienced riders aboard, the contest is thrilling for everyone.

That's the situation all may expect at the fair this fall. Mack Barber's string of horses and riders have

been to the major shows and will come here from the Pendleton Round-Up.

The horses can and will buck --- the men can and will ride.

Although the show should be better than for many years prices will be the same --- One four-bit piece lets you in to see the show that costs two or three times as much in other places.
