

Three Weddings Of Wasco People Announced

Louise White daughter of Mr. and Mrs. H. H. White was married Saturday to Hubert Endicott of Moro at Goldendale. They left immediately for a hunting trip honeymoon and will live in Moro on their return.

T. Lester Johnson, county attorney, was married Saturday night in Portland to Miss Marian Grosscup of Portland. They left for British Columbia and after their return will live in the Tate house.

Mrs. B. Estelle Hailey and Mr. and Mrs. Fred Hennagin were Portland visitors over the week end and attended the wedding of Carl Anderson to Miss Constance Thomas of Portland Saturday.

Wasco people at the Round-Up included B. W. Guy and Owen Barrett, Mr. and Mrs. Wm. Burns, Mr. and Mrs. W. B. Rice, Mr. and Mrs. J. F. Royce, Mr. and Mrs. Lloyd Royce, Mr. and Mrs. Gus Hartman, Mr. and Mrs. T. L. Kistner, Freda Rice and Mr. and Mrs. Wesley Wilde.

Clara Rice of Portland spent another week end at the home of the Everett McQuillens.

Mr. and Mrs. Max Williams were week end guests of her mother, Mrs. George Dakan at The Dalles. Mrs. Esther Stanley is now visiting in the valley with the Pardee Rich family.

Chester Bargenholt and wife left Monday for Dunsore, California, to visit Mrs. Bargenholt's son, Delbert Johnson.

Bruce Fewel entertained friends on his seventeenth birthday Thursday with Jack Hines, Damon Fields and Steve O'Meara as guests.

Mrs. Kate Johnson returned from Portland where she spent the summer visiting with her daughter, Mrs. Mae Michaels.

Mrs. Mary Laidlaw, sister of Mrs. Harry Van Gilder came from Portland for a visit here.

Miss Katherine Johnson, a nurse at the Good Samaritan hospital, visited here with relatives last week.

Concession Outfit Here For Fair

The concession outfit that will play the fair moved in Monday and Tuesday from Tygh Valley where it had played the Wasco county fair and erected the merry-go-round and the ferris wheel and other gadgets that go to make up a modern amusement center.

This year the concessions are located in the flat near the city park where the ground is level and there is no traffic troubles. The Schmitt Amusement company, managed by Mrs. Schmitt is the concessionaire this year.

The Reason

He—Why do you say you've been shopping when you haven't bought anything?

She—for the same reason you say you've been fishing when you haven't caught anything.

Count your Savings with a "Caterpillar" Hour Meter

Among the most recent improvements in "Caterpillar" Diesel Tractors is the Hour Meter, an ingenious but simple mechanism that accurately counts the hours of work done by the tractor.

The Hour Meter tells you:

1. How much fuel is used per hour.
2. When to change the oil.
3. When to grease.
4. Furnishes basis for cost accounting.

Why don't you have us equip your "Caterpillar" Diesel with an Hour Meter? . . . The cost is low.

HI-WAYS TO HEALTH by ADA R. MAYNE OREGON DAIRY COUNCIL

And couldn't one look with amazement at the school lunches that are occasionally spied in the hasty act of being swallowed so that no time be lost from play? This haste business of eating, or of anything, really, is rather awful. But when no attractiveness or variety is presented in the "noon filler" who'd wish to take time?

It is a blessing that lunchers packed to meet the eye and to touch the imagination are fast becoming as important as the fall coat. Mothers are becoming very wise, particularly when doctors so steadfastly recommend the quart of milk with fruits and vegetables each day. They know that these foods must become a part of the noon day lunch so that there may be no short comings. This stimulates lunch box contents.

Equipped with a small sachel box with vacuum, at least a month's supply of wax paper, possibly some cellophane that may have been saved, and some tightly fitted covered paper containers is just a beginning; but, a very important one.

Perhaps the colored paper napkin can be replaced by some brightly colored gingham or crepe. Fill the pepper shaker (it's only good for a sneeze) with sugar, then use a second bright shaker for salt.

All surprise touches are hopeless if the balanced head does not apply itself to the balanced food program in the sachel. Watching each day's milk supply, each day's content of fruits and vegetables, varying the greens in sandwiches with lettuce, cabbage, celery, and even grated carrots, gives interest to the packing of the every day

Crested Wheat Good In Grant County

Canyon City—An inspection of the Wickiup grass nursery and grazing plots late in August showed the same grasses continuing to give the best account of themselves, says County Agent R. E. Brooke. In the nursery plots these were, in order, smooth bromegrass, crested wheat grass, quack grass and slender wheat grass. In the grazing plots smooth bromegrass and quack grass continued to show their value for this purpose. The bunch grasses have more or less disappeared except where the plots were opened to grazing late in the season, Brooke said.

A cop says: "You can't tell how far a couple has gone in a car merely by looking at the speedometer."

FUEL MIXTURE
Causes of excessive dilution of oil in the crankcase, loss of power and low gasoline mileage are a weak spark and improper fuel mixture, according to the emergency road service of the Oregon State Motor association. Good results cannot be expected if the ignition system is in poor condition or the carburetor is badly adjusted.

"What did you give your baby for his first birthday?" asks Mrs. Michaels.
"We opened his birthday box and found her friend, and gave him a lovely electric iron."

Canned Foods are "Nature-fresh."

America's contribution
to fine living...

Today's housewives appreciate the amazing short-cuts that canned foods bring to the kitchen—thanks to modern canning methods and the fertile lands of the Golden West. Delicious fruits and vegetables, picked at the peak of their natural goodness, packed in containers by methods which retain their flavor and freshness—tasty tuna and salmon straight from the ocean or rivers—flavorful preserved meats prepared under government supervision—rich condensed or evaporated milk from cows pastured on the west's abundant fields!

All these splendid foods—and many more—are available the year round at your neighborhood store as nature-fresh as the day they were sealed; in tin or glass, because modern methods of preservation keep them so!

The progressive Union Pacific Railroad plays an important part in serving western canners and eastern consumers. Cans and jars are sturdy containers, but Union Pacific treats them with the same care it gives to fragile commodities. In winter months, shipments are protected by heater service, and by refrigeration in hot summer weather. Prompt, safe, dependable transportation every day, every year. Last year Union Pacific moved nearly a half million tons of canned food products to America's markets.

Ask your neighborhood grocer for nature-fresh canned foods!
