McCORMICK-DEERING

No. 10 Little Genius Plow

for Heavy Soil or Hilly Land

THIS McCormick-Deering Plow is just what is needed for turning heavy soil or rolling or hilly land. The No. 10 is unusually compact. Axles are set over the beams to give maximum clearance and it has low-lying screw depth and levelling adjustments. The wheels are located to hold the plow steady on the hillside. Extra-heavy, long-wearing axles, wheels, and bearings are other features.

This Little Genius Plow takes the standard bottoms or deep tillage bottoms. It is built in 2, 3, and 4-furrow sizes. Tandem hitches are available for pulling two plows behind crawler tractors. A rudder can be obtained for the rear bottom for plowing very hilly land.

Ask to see this heavy-duty McCormick-Deering Tractor Plow.
