TO SCORE 4-H CLUBS ON SOCIAL WORK

COMMUNITY welfare work of over 75,000 4-H Clubs and Leaders in the nation directed by the Extension Services of the Agricultural Colleges and U. S. Department of Agriculture is again receiving incentives in the National Program on Social Progress.

This group and their leader, Mrs. W. L. Jones, near Topeka, Kansas, received trips to Chicago last year awarded their Club as National victor.

THE 34 members gave nine varied public demonstrations, sang Christmas carols to shut-ins, bought clothing for needy school children, fed poor families, organized six vocal and instrumental groups and held seven public educational discussions.

A trip to Radio City, New York (left) for the local leader and two members of the national winning club, trips to the National 4-H Club Congress at Chicago for the leader and three members of the four sectional winning clubs, \$100 RCA Victor radios for state winners and county prizes are this year's awards provided by Radio Corporation of America.

Daphne DeBruin, Ft. Benton, Montana, and Billy Hale, Hixson, Tennessee, former individual national victors, depict an important club activity—that of listening to the National 4-H Club radio broadcast the first Saturday of each month conducted by the U. S. Department of Agriculture with the aid of State Agricultural Colleges, the United States Marine Band and the National Broadcasting Company.

The Longer the Quicker

"How long does it take you to prepare one of your speeches?" asked a friend of President Wilson.

"That depends on the length of the speech," answered the President. "If it is a 10-minute speech, it takes me all of two weeks to prepare it; if it is a half hour speech, it takes me a week; if I can talk as long as I want, it requires no preparation at all. I am ready now."

I NEVER KNEW PEOPLE COULD BE SO CHARMING

A natural leader, intelligent and sociable, a new member of the Neighbors of Woodcraft was delighted to find in the Circle "her kind of people". She takes pride in her associates... the outstanding men and women of the city, leaders in their walks of life, molders of community thought. She enjoys the fellowship and good fun of the regular Circle meetings, and appreciates the security and protection afforded her by the Neighbors' low-cost insurance on standard legal reserve contracts.

Neighbors of Woodcraft, a vital force in community life, welcome membership forward-looking men and women of character.

Portland's record during the month was especially outstanding, as only two traffic deaths were reported within the city limits compared with nine the previous May, Snell said.

HI-WAYS TO HEALTH by ADA R. MAYNE OREGON DAIRY COUNCIL

"Drink More Milk: Use More Dairy Products," is the slogan adopted for National Dairy Products Month. This national month seems most fitting when it is tied with the present world wide nutrition program of the League of Nations. For, to this date, it has been noted that the people showing the greatest advances in nutrition are the most enthusiastic users of dairy products.

The failure to use adequate and protective amounts of dairy products is frequently attributed to an economic situation; but actually it is many more times one of HABIT. When the homemaker is reminded that in a quart of milk she received more food value and in a wider distribution than she receives in any other food, she may look upon this product as a definite budget saver, and, she is right.

No time is more timely than the summer months for having a pitcher of cool milk on the table at all meal times. It not only satisfies a taste for "something" and aids in interesting the entire family in drinking more milk, but it also serves to supply some food materials that are often lacking in the lighter summer diet. Allowing 1 glass of milk in the pitcher for each person is usually inadequate.

The regular order of Milk, Cream and Butter does not exhaust the possibilities for gaining the most out of dairy products. Cheese, (to remind you) offers the most acceptable form of meat substitute, and supplies all of the food nutrients of the milk from which it is made. Cottage cheese does not have the high percentage of fat of whole milk cheese, (and that in dairy products means less Vitamin A), but it does contain a comparable amount of the mineral Calcium.

The food-value of Ice Cream prepared at home is in direct proportion to its ingredients. Many fruit ice creams are actually fruit milk sherbets because of higher milk, and less cream content, to give a lighter dessert. Buttermilk is combined with fruit juices with refreshing results. If you've never experimented on making Buttermilk soup with raisins, to which a small amount of butter and thickening is added, it is a delicatessen - if only for the raisins.

In all; one sings the praises of a National Dairy Products Month, just wishing and hoping that every one will soon learn its beneficial results and will want to use adequate amounts every day.

Spaghetti with a Blanket (For back yard picnics) Four stalks of celery, chopped One large onion, chopped One green pepper, chopped Three tablespoons butter One half pound ground beef One can chili One can tomato hot sauce Seasonings One half pound spaghetti One cup milk One half cup grated cheese

Cook the celery, onion and green pepper in butter in heavy skillet until golden brown. Add ground beef and brown it, stirring with a fork. Mash the beans in the chili to paste, using a wooden spoon or potato masher. Add chili and tomato sauce. Cover and cook slowly for 20 minutes or longer. Cook spaghetti until tender in salted water. Drain in a colander and run cold water through it. Reheat the spaghetti in slow oven, or care-

"My boy friend's age and mine together add up to exactly 50 years." "Fancy going out with such a young school boy!"
