HI-WAYS TO HEALTH by ADA R. MAYNE OREGON DAIRY COUNCIL

Mid-Summer Refreshments
A thump, a sniff, and a calculating eye of skepticism are exercised in the business of selecting a desirable watermelon. Watermelon has been described as one of nature's prize packages of summer refreshments in these most trying mid-summer days.
A really good watermelon is glistening red, tenderly crisp when cut with the fork, delicately flavored, cool, sweet when crushed in the mouth; and has an outward appearance of deep green with creamy yellow background. When thumped it gives a deep resound and when lifted it has a heavy weight for its size.

Watermelons have a history; but ancient or early American, they've never been better than in 1938. Interesting that when melons continued to become larger and larger; and ice obxer smaller and smaller, that a deluxe model appeared. This small model that fits into the modern ice box, and serves a modern family without loss, is grown from a Russian seed.
Because of its delicacy, and obivous high water content, watermelon just does not rate with importance in vitamins and minerals. These are so easily included in the foods of every meal, that even the appreciable amount of Vitamin C, because of a generous serving, seems inconsequential.
The service of a watermelon varies with the occasion and taste. However, cut lengthwise or crosswise, peeled or not and with or

Compare The Diesel D2 with the next best

Every hour you work with the "Caterpillar" Diesel D-2, it saves you 60% to 80% on fuel expense, as compared to spark ignition power. 12 to 15 gallons of cheap diesel fuel is all the D-2 requires for a day's hard work.
Compared to any other tractor of its size on the market, the D-2 actually saves 25c and more for every hour it works.
Aside from fuel savings, the D-2 is the only small tractor with a modern 5-speed transmission (1.7 miles per hour to 5.1), the only tractor with cylinder oil cooler, hour meter, complete dust exclusion... and many other exclusive "Caterpillar" features that bring long life and low operating costs.
... All this for \$1965.00.

BABE'S RIVAL

Threatening to surpass the great Babe Ruth's record of 69 home runs set in 1927, Hank Greenberg, the slugging Detroit Tigers' first baseman, is already well ahead of the pace set by the Babe in the year of his greatest glory. Late August and the month of September will tell the story for Hank.
