AND that's just the beer tax revenue this state itself collects... to lift the burden of direct taxation from your shoulders. Nationwide, beer contributes over a million dollars a day to the cost of government. Think what that means in paying for relief, in public works, in old age assistance right in your own community. Then think of the million new jobs that beer made. And then add to that a 100 million dollar market for farmers' crops!

How can we keep these benefits... for you and for us? Brewers of America realize this depends on keeping beer retailing as wholesome as beer itself. They want to help public officials in every possible way. They cannot enforce laws. But they can—and will—cooperate! May we send you a booklet telling of their unusual self-regulation program?
