

Moro People Find Fair Worth Seeing

Mr. and Mrs. Roy Powell and son Ronald and daughter Betty returned Monday from California where they saw the San Francisco fair and visited friends in that state. Roy reports the fair as being a very good exhibition, with Oregon having the best agricultural exhibit on the grounds; charges are not excessive, and the grounds are well managed and it is well worth seeing. They drove on down to Los Angeles and before coming home saw Martin Hansen, who is doing well in an auto cabin camp at Fresno; Roy Axtell, still home painting at Roseville, and Lyle Olds, now living in San Francisco.

Tom Fraser left Monday for Canada where he is looking for some new equipment.

R. C. Byers reports that there will be plenty of water at DeMoss for the picnics Saturday and Sunday or some will be hauled for the occasions.

With the exception of one day the weather for the week has been cool and advantageous for wheat, which is slowing turning to either the golden color of prosperity or the more drab hue of light yields. A rain threatened Wednesday night and a part of Thursday but no one believed in it much and in the afternoon the sun came out to prove their suspicions well founded.

Mr. and Mrs. Paul Goddard and daughter are here this week having finished the school year at Ontario.

Quite a number of Morosites were in Condon last Sunday to see the spring rodeo put on there by local enthusiasts. Roscoe Moore

McCORMICK-DEERING

HILLSIDE HARVESTER - THRESHER

—the Combine with the CRADLED CLEANING UNIT

HERE is a special new hillside combine designed and built to lick one of the toughest jobs in agriculture. It is a hillside combine from top to bottom, built around an outstanding new feature of design—the self-contained, self-leveling CRADLED CLEANING UNIT—which puts this new McCormick-Deering combine in a class by itself.

The No. 51 is a simple unit, capable of doing extraordinarily good work without requiring "hair-trigger" adjustments. It is regularly supplied with a 14-ft. header, and the separator has ample capacity to take care of the heaviest crops. A 2-ft. platform extension is available for use where crops are light. A crew of 3 men can operate the tractor and harvester-thresher when grain is bagged. Only two men are needed when the grain tank (supplied as extra equipment) is used.

Complete information concerning prices, specifications, terms, etc., will be supplied on request.
