will be reduced to the minimum," Duffy said. "Progress of these farm families is indicated by the fact that they increased supplies of fruit and vegetables canned by 198, milk produced for home consumption by 306 gallons, meat for home use by 214 pounds, and eggs produced for home use by 80 dozens, per family. This means a contribution to the annual cash income of the farm of from \$200 to \$300 per family."

These families have already repaid \$1,154,000 of the \$4,089,860 loaned by the Farm Security administration, although most of the loans has been made for a five year period. Full repayment of loans has been made by 514 families and 91.8 percent of maturities due have been met.

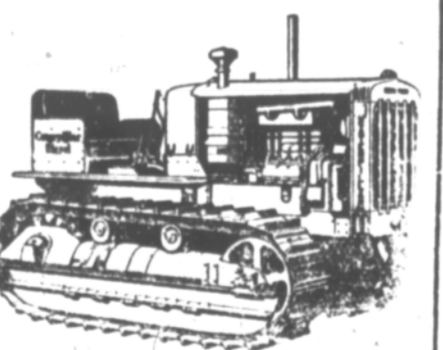

Debt adjustments have been affected for 867 families faced with foreclosure action, resulting in reduction of a total indebtedness of \$2,954,750 to \$2,052,700. At a result of debt adjustments these farmers have been able to pay \$49,100 in back taxes.

### MOST TRACTORS LOOK ALIKE.....

from the outside

Most tractors look about the same on the salesroom floor. A bright coat of paint outside—a question mark inside!

That's why we hope you'll look "under the hide" when you buy horsepower. If you do, we hope you'll get more for your money in the long run. If you do, we'll benefit, too, because we think you're almost certain to buy "Caterpillar."

## Health is precious!

### Guard it with low-cost Electric REFRIGERATION

#### CONSTANT EVEN COLD

"I'm the Scotch-Eskimo, symbol of electric cold... the cold that is always below 50° F. even when the summer sun pushes the outside temperature way up. This constant cold stops growth of harmful bacteria... freezes ice cubes jiffy-quick... keeps vegetables, meats and fruits sterile and appetizing for days. Your family is sure of eating healthful, delicious meats. You make fewer trips to market... can buy perishables in larger quantities and save money!"

#### NO FOOD WASTE

"Hundreds of women have found that their electric refrigerators paid for themselves in food savings alone. Left-overs stay fresh until you re-serve them. Milk and cream stay sweet and wholesome, giving your children nourishment for every cent you spend on dairy products."

#### JUST PLUG IT IN

"An electric refrigerator plugs in like a toaster... cleans like china... beautifies any kitchen. The operating cost is small with cheap Pacific Power & Light Company electricity... less than 3c a day for the average family. Save and protect with electric refrigeration."

● The 1939-model electric refrigerators are far ahead in style, in performance and in convenience features. See for yourself! Visit any local electric refrigerator dealer or your Pacific Power & Light Company office. You'll also find prices are lower than ever before... that the convenient terms make buying now so easy!
